HPC ROADSHOW 2019

YOUR INVITATION

The **Centre for High Performance Computing (CHPC)** cordially invites you to join us on **Wednesday, 15th May** at the **University of Cape Town** for the inaugural edition of our HPC roadshow. As the digital wave advances, HPC workloads are becoming highly complex environments and as we see this dramatic shift, infrastructures must adapt to make way for the future of HPC.

We invite you to join us as we explore the current state of High Performance Computing within academic institutions and detail our plans for the future, and introduce you to **Boston Limited** who bring over 25 years experience in HPC to Africa.
