## FOREWORD

Postgraduate programmes at the University of Cape Town play a vital role in developing skills necessary for success in a knowledge-driven economy, both locally and internationally. Our postgraduate programmes span the basic disciplines as well as a range of applied and professional areas in Commerce, Engineering and the Built Environment, Health Sciences, Humanities, Law and Science. Our commitment to being a high quality research intensive university means that our postgraduate students have the opportunity to work with academics who are making important contributions to new knowledge via their on-going research and professional activities.

This booklet provides information on potential sources of financial support for postgraduate students. There are various categories of financial assistance administered by the University and many other agencies and donors. This booklet also provides information on a range of postdoctoral fellowships. The opportunity of a postdoctoral fellowship, following the successful completion of a doctoral degree, is a useful career experience allowing a researcher to develop further skills in knowledge creation and dissemination.

We hope that this booklet will be a useful resource in identifying potential bursaries and scholarships. We wish you a successful and enjoyable postgraduate and postdoctoral experience at the University of Cape Town.

Professor Kevin Naidoo  
Acting Deputy Vice-Chancellor

## PLEASE NOTE

Students who will register for Honours, Master's or Doctoral study and who require financial assistance, and for Doctoral graduates seeking financial support for postdoctoral research. It consists of various sections which are sub-divided as described under the contents section on page 3.

Each section of the booklet includes a brief

introduction to the category of awards and describes the discipline (if applicable), eligibility and conditions, and address for submission.

The scholarships and bursaries listed in this version of the booklet will open for application for the 2020 academic year with various stated deadlines, unless otherwise specified. In the majority of cases interested students must apply for postgraduate funding support preceding the year of study for registration toward their postgraduate Honours, Master's or Doctoral degree (e.g. applicants should apply by the deadlines in 2019, for 2020).

The financing of postgraduate study invariably takes the form of a combination of scholarships or bursaries, part-time employment within or outside the university, student loans (personal – not NSFAS), personal savings and assistance from families. Note that in certain cases awards may be held concurrently, in others, not. Concurrency rules are detailed where relevant.

Funding administered by the UCT Postgraduate Funding office (PGFO) aims to provide financial support to Honours, Master's and Doctoral students through a variety of awards administered, depending on eligibility and appropriate, timely application. Please contact the PGFO if you're unsure about any aspects of postgraduate funding, such as how to apply, or the holding of particular awards concurrently etc.

Students who wish to apply for this funding should submit a completed 10A application form, or in some specific cases (e.g. for international students and certain independent awards), alternative or additional specific application forms, with all the supporting documentation by the advertised deadlines. It is vital that applicants understand the principle that they are only considered for postgraduate funding awards that they apply for – i.e. there is no automatic consideration for any awards without appropriate application.

The 10A form is a general application through which South African and Permanent resident postgraduate Honours, Master's and Doctoral applicants apply for funding. An applicant has the option via form 10A to be considered for merit-only, need-only funding, or, a combination of the two categories. The deadline for 10A applications is usually October 31, but students should check deadlines on the Postgraduate Student Funding Page <http://www.students.uct.ac.za/students/fees-funding/postgraduate-degree-funding/applications-requirement> .

South African students who qualify for financial need, using the same criteria as used for undergraduate funding, will, on application and review, receive funding that covers their approximate full cost of attendance. Priority for financial need funding will be given to black South African students in the first instance. South African students who do not qualify for financial need, but do meet minimum merit criteria, are eligible for partial funding.

Most awards offered by the university are limited to South African citizens and permanent residents. However, International and Refugee Students may apply for the International and Refugee Scholarships, departmental scholarships as described in Sections 4C, 4D and 4E respectively, external independent scholarships (see Section 5), the NRF in certain cases, as well as the UCT Conference Travel grants and the Scholarships for International Travel.

The University administered awards appearing in this booklet are not available

for the 4th or later year of Bachelor degrees, Postgraduate Diplomas and Certificates, and most professional degrees such as the FAPM, or any other university-designated part-time programme, the PGCE or the LLB and BArch degrees. Students wishing to register for these courses must, where applicable, refer to booklet 13 "Financial Assistance for Undergraduate Study" issued by the Undergraduate Student Financial Aid office. Students in the PGDip (Accounting), PGDip (Music Performance) and various PGCE programmes may be funded through the Student Financial Aid office.

The content of this booklet is updated annually and is available on the Postgraduate Funding Office website. <http://www.students.uct.ac.za/students/fees-funding/postgraduate-degree-funding/applications-requirement>

Additionally, the booklet is also available in hardcopy from the funding office.

Please read through the information carefully to familiarise yourself with the funding opportunities offered through the University as well as those offered via private and third-party organisations.

Students are encouraged to visit the Postgraduate Funding Office on Upper Campus should they need further assistance with the application forms and requirements.

The Postgraduate Funding Office extend their best wishes for success in your studies.

# IMPORTANT INFORMATION

- Prospective students should submit UCT funding applications on or (preferably) before the stated deadlines in addition to having applied for admission to study at UCT. You do not have to wait to be accepted for an academic place but you do have to have applied for such.
- Note that closing dates for some awards are early in the year preceding the year for which you require funding. For example, the NRF Master's and Doctoral applications for study in 2020 will close early in June 2019.
- While some full cost awards are available (as outlined in the Foreword) students are encouraged as a matter of principle, where applicable and eligible, to apply for further or alternative funding such as the NRF.
- In some cases, application from alternative sources is a requirement. For example, in order to meet the demand for merit awards, students who qualify for UCT merit scholarships are required to have applied for both a UCT merit award and an NRF award. The same rule applies in the case of students applying for UCT needs-based funding.
- Many awards are renewable, but for a stipulated period of tenure, and dependent on satisfactory progress being maintained. In the majority of cases tenure for Hons, Master's and Doctoral funding is one, two and three years, respectively.
- There is no guarantee that an applicant will receive funding on application (i.e. resources are limited) and some categories of award are oversubscribed and hence, competitive
- UCT cannot consider assistance for the cost of dependents – funding is considered as an award to the individual students' tuition and living costs.
- UCT awards and most external awards cannot be used for student fee debt relief, other than in certain exceptional cases.
- Appeals may be considered through an appeals process in exceptional circumstances, provided the appeal is in writing (form available from the PGFO) and there is strong motivation. Legitimate reasons for postgraduate students to appeal must be fully motivated and include: Changed financial circumstances; Extension of funding tenure; Request to hold funds that exceed maximum award limit; Deferral of award; Change to programme of study; Late applications with legitimate documented reasons (such as medical reasons).

## **Application for Admission to Study and Registration**

Applicants for financial assistance who are not already registered for the degree of their choice are reminded that they must also apply for admission to the University <https://applyonline.uct.ac.za/> and should consult UCT's Admissions Office or relevant Faculty Office for the closing dates. Funding selection committees will only consider candidates who have applied to UCT for admission. Bear in mind that successful applicants can only claim their bursaries/scholarships once they have been accepted and registered in the relevant academic department for the course/programme for which they applied. AN OFFER OF A FUNDING AWARD DOES NOT IMPLY AN OFFER OF AN ACADEMIC PLACE TO STUDY. Funding and academic admissions are two separate, delinked processes.

## **Applying for Funding**

There are multiple sources of funding from which postgraduate awards are established. These awards are administered by UCT's Postgraduate Funding Office (PGFO). Generally, students apply and are assessed for these on the basis of needs only, merit-only, or merit-needs categories.

Applicants applying via the form 10A do not have to be in the first year of their degree. They can apply for second year support without having been awarded in the first year.

It is important that students and prospective postdoctoral research fellows applying for funding comply with the requirements and submit applications on time and by the specific closing date. As indicated above some scholarships and bursaries require the use of an (independent) application form therefore, students should familiarise themselves with the application requirements before applying. Late and incomplete applications will be disqualified.

## **Merit Awards**

The major source of merit-based awards is

the state-funded Research Council – the National Research Foundation (NRF) (see Section 1). Students wishing to be considered for UCT merit awards must apply, in the first instance, to the NRF.

It is University policy that Honours or Master's students who qualify for an NRF scholarship, may not hold a UCT merit award concurrently. However, Doctoral students are allowed to hold UCT Merit awards and NRF scholarships concurrently.

UCT also awards scholarships each December to graduating students who have performed exceptionally well at UCT. Recipients are identified by the university and an application form for this category of award is not required. (See Section 8.)

Other scholarships and bursaries such as the so-called 'Prestigious fellowships' funded from a variety of sources are available. (See Section 3) Other scholarships may be awarded by Heads of Departments or supervisors to students working on specific projects or programmes. Candidates should enquire as to the availability of such awards by consulting their Supervisors, Course convenors or Heads of academic departments.

## **Financial Need Awards**

The University has instituted a policy to support South African and Permanent resident Honours, Master's and Doctoral students who qualify and have applied for financial need. Such applicants may qualify for either full financial aid including an Expected Family Contribution (EFC) or, a partial award which is a percentage bursary toward the approved tuition fees.

UCT will determine an applicant's financial need by applying the National Means Test (NMT) used by the National Student Financial Aid Scheme (NSFAS).

The value of a Financial-need bursary will be calculated on "assessed need" for the cost of university attendance in 2020 and will be reduced *pro rata* taking into account other scholarships and bursaries awarded to

students.

Prospective Honours, Master's and Doctoral postgraduate students who are financially needy are required to complete the relevant section of UCT's postgraduate financial assistance form 10A to provide the required supporting documentation. Such students will be means-tested, and where the means-test is met, a combination of bursaries may be offered.

Honours, Master's and Doctoral South African and Permanent resident students who fall outside of the above may qualify for partial funding support via the relevant application form. The same financial eligibility criteria will be applied for such applicants as indicated above.

Section 5 lists awards administered independently of UCT and enquiries should be directed to the Administrators/Trustees indicated.

AS A PRINCIPAL EVERY EFFORT MUST BE MADE TO SECURE ASSISTANCE FROM SOURCES EXTERNAL TO UCT WHEREVER POSSIBLE (E.G. FROM THE NRF) AS UCT CANNOT INDEPENDENTLY FUND ALL POSTGRADUATE STUDENTS TO OPTIMAL LEVELS.
--

### **International and Refugee Students**

A limited number of scholarships are available to non-South African graduates who are residents of countries other than South Africa. These are awarded on a competitive basis with emphasis given to academic merit and to the seniority of candidates.

The scholarships do not provide full-cost support. All UCT International and Refugee Students Scholarships are supplementary. Prospective postgraduate students must ensure that they have sufficient financial support for their studies. The scholarships are renewable for the duration of the course of study subject to satisfactory progress being maintained, up to a limit of 1 year at Honours level; for the

1st and 2nd years of Master's study, and the 1st, 2nd and 3rd years of Doctoral study. Applications for funding cannot be processed unless applicants apply for admission through the UCT Admissions Office or the Faculty Office.

### **Awards for Study at Overseas Universities**

UCT does not offer scholarships for international study from their central budget. However, certain independent (external) donor funders do, some requiring application processing and awarding through the PGFO (see Section 7), others are administered by the external partner directly. Various research councils such as the NRF & MRC are potential sources of assistance for overseas study at the doctoral degree level. Such overseas awards are made on the basis of academic excellence and the significance of the proposed study. Certain overseas universities may offer scholarships or bursaries to international students or may be in a position to offer part-time employment in the form of Assistantships or Fellowships, which often include a waiver of academic fees. Students are advised to check with their intended institutions.

Section 7 provides information on independently administered awards for study at overseas universities.

### **Scholarships for Short Research Visits and Conference Grants**

UCT has made available a number of limited awards to support master's and doctoral students to undertake research visits abroad, and participate in academic conferences. Calls for such awards are generally made biannually. Again, only applications made on time and complete in terms of required documentation are considered by selection committees.

### **Postdoctoral Research Fellowships**

This Booklet includes a number of opportunities for Postdoctoral research fellowships (See Section 6). However, the majority of opportunities are offered by independent donors and agencies, and

interested parties are advised to check with their department Heads and with the PGFO regularly. The office also provides details of externally administered funding and other opportunities on an electronic noticeboard which can be found on the Postdoctoral website. <http://www.uct.ac.za/main/research/postdoc-research-fellowships>

The reason Postdoctoral funding is considered a part of the postgraduate administrative sector is that many of these awards are administered through the same processes and systems as student awards, in order to qualify for tax-free status.

## **GENERAL IMPORTANT INFORMATION**

### **Employment**

Individuals who are employed full-time (more than 20 hours per week) are not eligible for UCT postgraduate funding support.

The regulations governing the NRF/ MRC bursaries and UCT awards permit some degree of concurrent part-time employment. Demonstratorships, Teaching Assistantships or Research Assistantships may be offered by your Department and details should be obtained from your supervisor or Head of Department. Subject to limitations on remuneration, award-holders may undertake part-time employment, provided weekly duties do not exceed 12 hours if funded via the NRF.

### **Duration of Scholarship and Bursary Assistance**

Research Council bursaries and UCT awards may be held for:

- the first year of the Honours degree only;
- the 1st and 2nd year of Master's study, and
- the 1st, 2nd and 3rd years of Doctoral study.
- Renewal of awards for Master's and Doctoral study each year is subject to satisfactory progress and continued evidence of need in the case of need-

based bursaries, and on the availability of funds. Students must make every effort to complete their studies within these periods.

It is important to note that funding through the PGFO will not be available beyond the above-mentioned tenures.

Students studying for a second degree at the same level (e.g. Honours Graduate doing a second Honours Degree) are ineligible for funding.

Applications for renewal and continued assistance must be submitted annually by the relevant closing dates. Renewal of awards is NOT automatic and eligible students are required to apply for renewal annually.

# NATIONAL RESEARCH FOUNDATION (NRF) BURSARIES FOR STUDY IN SA AND AT OVERSEAS UNIVERSITIES (including Postdoctoral funding)

*Note: All eligible candidates wishing to apply for UCT financial need and merit-based scholarships for study towards Honours, Master's or Doctoral degrees are required to apply timeously for an NRF award (see comments in the Foreword). Any eligible candidate who fails through negligence to make such application will be ineligible for UCT financial need or Merit awards.*

Candidates must be SA citizens or for specific NRF awards have SA permanent residence status. Individuals who are employed full-time are ineligible. The NRF restricts part-time employment to a maximum of 12 hours per week.

Honours, Master's and Doctoral students may use the dedicated computers in the Postgraduate Centre to complete their NRF Submission Online applications. Late applications will not be accepted. Please note the relevant internal closing dates for receipt of applications or consult the Postgraduate Funding Office if in doubt. Please also visit the website: <http://www.nrf.ac.za> for up to date information and any changes to the information given below.

## SECTION 4

### UCT ADMINISTERED DEPARTMENTAL AND DONOR AWARDS (A VARIETY OF DONORS) FOR STUDY AT UCT

*Master's or Doctoral degrees, unless indicated to the contrary. Candidates in the 4th year of a Bachelor's degree, PGCE, Postgraduate Diplomas and most professional degrees such as the FAPM, or any other university-designated part-time programme, the PGCE or the LLB and BArch degrees students are ineligible for postgraduate funding and must, where applicable contact the Undergraduate Student Financial Aid Office for information regarding funding.*

UCT awards appearing in this section are restricted to South African citizens and permanent residents. With the exception of those awards appearing under sub-sections D, E and F.

Note: Postgraduate students who apply for financial need or merit scholarships on Form 10A will automatically be considered for these awards.

A single Postgraduate Financial Assistance Application (Form 10A) should be submitted for most awards appearing under sub-sections A to C, except where otherwise specified. Candidates will automatically be considered for all awards within these sections for which they may be eligible. Please take note of the closing dates as LATE AND/OR INCOMPLETE APPLICATIONS WILL NOT BE CONSIDERED.

Please note that specific application forms or alternative application procedures are required in order to apply for awards appearing under sub-sections D and F

**\*Renewals** Master's and Doctoral students who are eligible for renewal of awards will be sent a Form 10B to complete. This form, together with a progress report must reach the Postgraduate Funding Office together with the required academic progress report by NO LATER THAN 30 September (unless otherwise informed) in the preceding year.

*Where eligible, all applicants for Honours, Master's and Doctoral study are reminded of the need to apply, in the first instance, for the appropriate NRF bursary scholarship (see Section 1)*

***INTENDING STUDENTS WHO NEGLECT TO APPLY TO THE NRF WILL NOT BE CONSIDERED FOR UCT MERIT AWARDS.***

## SECTION 8

## SCHOLARSHIPS AWARDED ON EXAMINATION RESULTS BY UCT

Applications are not invited for the scholarships described in section 8. As and when they become available for award, they are offered without application to the most outstanding UCT graduates.

All students who complete Bachelors, Honours or Master's degrees at UCT in June or December and who display outstanding academic performance are considered by the individual Faculties. Recipients of these scholarships are notified of their awards each year in December.

The scholarships are awarded to encourage full-time study towards higher degrees and may be held concurrently with other awards. Recipients who do not enrol at UCT for higher full-time degrees qualify to hold these scholarships only in an honorary capacity.

The scholarships appearing in this section will be reflected on recipients' academic records.
