Guide to the usage of this Handbook

The following is a general overview of the structure of this Handbook for the guidance of users. The contents are organised in a number of different sections (see below) each of which has a particular focus. The sections are interlinked by cross-references where relevant.

(a) *General Information:* This section includes information on Faculty officers, the list of qualifications offered, a guide to terms and codes, and lists of the various prizes, medals and scholarships awarded on academic merit.

(b) *Faculty and qualifications rules:* This section covers the Faculty rules and the rules which apply to each of the various qualifications and programmes offered by the Faculty. These rules should be read in conjunction with the general University rules in the General Rules and Policies Handbook (Handbook 3). Students are expected to acquaint themselves with the rules in both Handbooks and to check annually whether the rules or curriculum requirements have changed since the last edition.

Important rules: All students must familiarise themselves with the Qualification and Programme Rules in this Handbook. In addition, students must refer to Handbook 3, General Rules and Policies and particularly take note of the following:

- rules relating to registration and examinations;
- rules relating to changes of curriculum;
- rules relating to leave of absence;
- rules on Academic Conduct, N.B. the rules concerning dishonest conduct and plagiarism.

Detailed information on the undergraduate entrance requirements can be found in the University Prospectus. The PhD Degree rules are published in *Handbook 3, General Rules and Policies*.

(c) *Courses:* This section contains entries for each department, school or unit in the Faculty, and for departments outside the Faculty whose courses are frequently taken by Humanities students. Each lists members of staff, the structure of majors, and the courses which are offered by the department, school or unit. Course descriptions are set out in alpha-numeric order based on the course code prefix.

Abbreviations and Definitions

Augmenting course:

Augmenting courses are linked to a standard semester subject course and are co-requisite to the semester subject course for students undertaking particular programmes of study. Augmenting courses have extra weekly tutorials to give students in these programmes the extra required support they need.

Co-requisite course:

A subject course for which a student must be registered concurrently with another course.

DP requirements:

The classwork and test results which must be achieved in order to be allowed to write the examination in a course (DP = duly performed; DPR = duly performed refused).

Exemption:

Exemption from a course means a student is not required to take the course. This may be granted where a student has demonstrated learning outcomes/ mastery of content required for the qualification. Exemption from a course does not confer exemption from the course, credit or attendance requirements for qualification and students will be required to take an alternative course in lieu (normally at the same academic level as the exempted course and with an equivalent credit-weight). Exemption can also be used to meet pre-requisite requirements for entry to a higher level course in a particular discipline/ subject.

Extended degree and diploma programmes of study:

Structured programmes of study towards a qualification for students selected on the basis of admissions criteria who show the potential to succeed on a programme of study with additional academic support. Students registered for extended programmes of study take additional courses for academic support and complete their qualifications over an extra year.

Finalist:

A student who is expected to complete all requirements for their degree in the year of registration.

10 GENERAL INFORMATION

Introductory Humanities courses:

A course providing a general orientation to language, learning practices and key concepts in the Humanities. The course introduces concepts and skills relevant across the Arts and Social Sciences and is not specific to any one discipline or subject area.

Major:

A sequence of subject courses at first, second and third year levels defined by the Department teaching the course as a major in that subject.

NQF credits, HEQSF qualification levels and HEQSF course levels:

All South African tertiary institutions are required to align their qualifications with the prescriptions of the national Higher Education Qualifications Sub-Framework, which forms part of the National Qualifications Framework (NQF). Each qualification has an exit level and is required to have a minimum number of HEQSF credits at that level. One credit equals 10 notional hours of learning.

The HEQSF requires the following credits per qualification:

- Higher Certificate (exit level 5): Minimum 120 credits.
- Advanced Certificate (exit level 6): Minimum 120 credits.
- Diploma (exit level 6): Minimum 240 credits.
- Advanced Diploma (exit level 7): Minimum 120 credits.
- Bachelor's degree of 3 years (exit level 7): Minimum of 360 credits. Minimum credits at level 7 (i.e. third year level): 120. Also includes level 5 (1st year) and level 6 (2nd year) credits.
- Bachelor's degree of four years (exit level 8): Minimum of 480 credits. Minimum credits at level 7 (i.e. third year level): 120; minimum credits at level 8 (fourth year level and above): 96.

Part-time student:

A *bona fide* part-time student in a postgraduate course of study.

Prerequisite course:

A subject course which a student must have completed in order to gain admission to a senior or subsequent course.

Programme of study:

A structured and purposeful set of learning experiences that leads to a qualification, e.g. the extended degree programme leading to the Bachelor of Arts qualification.

Qualification:

Certification awarded by an accredited institution in formal recognition of learning achievement. The Faculty offers Higher Certificates, Advanced Certificates, Diplomas, Advanced Diplomas, Postgraduate Diplomas, Bachelor's Degrees, Honours Degrees, Master's Degrees, and Doctoral Degrees.

All qualifications are accredited nationally by the Council for Higher Education (CHE) and are registered by the South African Qualifications Authority (SAQA).

Semester course:

A course which runs for the duration of a single semester, and which is equivalent to half of a full-year course. A course with a duration of one semester is usually coded F or S; a course covering a semester's work but spread over the year is usually coded H. A whole-year course (usually coded W) is equivalent to two semester courses.

Subject course:

A course situated in a particular subject area or discipline.

Senior course:

A subject course which requires prerequisite(s) to be completed in a previous year and which the Faculty of Humanities has recognised as having senior status.

Specialisation:

A structured curriculum within a qualification, e.g. the Bachelor of Arts specialising in Film and Media Production.

Stream:

A subject focus within a qualification or programme of study. Streams have specific curriculum requirements.

Structure of Course Codes

The code structure is uniform and it gives important information about the course. Each code has eight characters, as follows: AAA1nnnS, where

AAA is a 3 alpha-character group identifying the department
 1 is a number representing the year of study in which the course is usually taken
 nnn is a 3 character number that identifies the course uniquely
 S is a single alpha-character suffix, giving information about the duration and semester placement of the course

Suffixes which are most frequently used in the Faculty are:

F First semester course
 S Second semester course
 W Whole-year course
 H Half-course taught throughout the year
 Z Non-standard period

Summer/Winter Term courses:

P November - December
 U November - January
 L June -July

The following examples show how the codes work:

ELL1013F English Literary Studies
 ELL designates an English course
 1 designates a first year course
 013 serves to distinguish this course from other first year English courses
 F designates a first semester course

HST2037S African Economic History
 HST designates a History course
 2 designates a second year course
 037 serves to distinguish this course from other second year History courses
 S designates a second semester course

FACULTY RULES FOR UNDERGRADUATE STUDENTS

- F1 All students registered for any courses given in the Faculty are required to consult the notice boards and Vula regularly. Students are further required to check their UCT email for official communication regarding courses and registration.

Right of admission

- F2 The right of admission to lectures, classes and seminars is restricted to students in good standing who are specifically registered for the respective courses concerned. Guests may be admitted at the invitation of the teachers in charge.

Use of premises

- F3 The Faculty and Departmental premises shall not, without permission from the Dean or Head of the relevant Department, be used for the sale or distribution of books, papers, or other articles, or for the display of notices or announcements, or for the making of collections for charitable or other purposes, or as an address for personal mail.

Duly performed certificates (DP)

- F4 Candidates may not sit the examination in a course if they have been refused a duly performed certificate for the course (see General Rules for Students GB9.1, 9.2 and 9.3). Conditions for the award of a duly performed certificate are set out in the course description for the course concerned in this handbook.

Repeating courses

- F5.1 Except with the permission of the Senate, students registered in the Faculty of Humanities who fail a University course twice will not be allowed to register for the same course for a third time.
- F5.2 Should a required course be failed twice (including DPR for the course INC [incomplete] or AB [absent from the final examination or supplementary examination]), the student will have to transfer to a programme of study in which the same course is not required, in order to complete the qualification.

Prerequisites for courses

- F6 Except with the permission of the Senate, no student shall be admitted to a stipulated course in a subject if they have not satisfied the prerequisites for that course.

Completion of practical work

- F7 Candidates shall not be credited with having completed any course, or portion of a course, unless they have satisfactorily performed such practical work as may be prescribed.

Programme and qualification choice

- F8 Students may change their qualification and/ or programme of study with the permission of the Programme Convener and Dean. Not all courses passed may be credited towards a new qualification.

Transferring students

- F9.1 Students who have not been excluded from another faculty may transfer to the Faculty of Humanities for the purpose of taking the BA, BA(FA), BMus, BSocSc or BSW degree, provided that such students satisfy the requirements for admission as a candidate for that degree. Students excluded from another faculty will not be accepted by the Faculty of Humanities without the permission of the Faculty's Readmission Appeal Committee.
- F9.2 Students transferring to the Faculty of Humanities from another university may be granted credit or exemption or both for up to a maximum of eight semester courses (or equivalent) towards the BA, BSocSc or BSW degree. Such transferring students will be required to complete the remaining required full courses (or equivalent in half-courses) prescribed for the degree, including, where applicable, all 3000-level courses required for the major, at this University over a period of not less than two years.
- 9.2.1 In the case of students wishing to transfer into the BA(FA) degree, no more than four full courses (or equivalent in half courses) in studio/work subjects, two full courses (or equivalent in half courses) in Discourse of Art (or equivalent) and a further one full course (or equivalent in half courses) in other Humanities subjects, may be offered for credit or exemption, on recommendation of the Director of the Michaelis School of Fine Art.
- 9.2.2 In the case of students transferring into the BMus degree or Music diplomas, no more than one half of the credits required for the degree or diploma, and in addition no more than one half of the core courses required by the programme stream, may be offered for credit or exemption.

Credits towards second UCT degree

- F10 Students who have completed any course or courses for which credit may be given towards one or more degrees in the University and have obtained one of these degrees may be granted credit(s) and/or exemption(s) in respect of such course(s) towards another degree in the University; provided that no such students shall be admitted to such other degree unless they have, in respect of that degree:
- (a) for a three-year degree: registered for at least two years and while so registered, completed at least one half of the courses prescribed for the degree including the final course(s) in their major subject(s);
 - (b) provided further that the Senate may, in a case considered by it to be exceptional, and on the recommendation of the Board of the Faculty, admit to the degree a student who has only partially complied with the requirements of clause (a).

Concurrent registration

- F11.1 *At another university:*
Except with the permission of the Senate, students may not register for any course taken at another university in the same year during which such students are registered at the University of Cape Town.
- F11.2 *For two succeeding courses:*
Except with the permission of the Senate, concurrent registration for two succeeding courses will not be permitted.

For further information on concurrent registration, see the *Guideline to the taking of courses at other institutions as part of a UCT degree* at the end of this section.

14 FACULTY RULES FOR UNDERGRADUATE STUDENTS

Recognition of credits for courses taken at other institutions

F12 Students who are not transferring students will not be allowed to bring credits from elsewhere if they have not attempted the full curriculum at UCT.

Guidelines to the taking of courses at other institutions as part of a UCT degree (also see rules F10 and F11 above)

Under limited circumstances, a concession may be granted to complete a course at another institution (concurrent registration). These circumstances include:

- (a) a timetable clash that has occurred as a result of a change made after the student has embarked on study/curriculum;
- (b) a course which is not part of the student's major that has been failed twice before and which cannot be replaced by another elective.

In all cases, students must obtain permission in advance. In the case of (a) above, consideration will only be given if the course is not offered in Summer Term or Winter Term, or can be taken in another year of full-time study.

Requirements for distinction

Distinction in a subject/programme specialisation

F13 Courses considered for purposes of distinction must have been taken at UCT or at an exchange partner institution. Courses passed for credit from other tertiary institutions are not considered for purposes of distinction.

F13.1 *Bachelor of Arts specialising in Film and Media Production*
Bachelor of Social Science in Philosophy, Politics and Economics
Bachelor of Social Work

With the exception of the subjects listed below, and where the rules for a specialisation in a programme or a programme stream require completion, under normal circumstances, of two 2000-level and two 3000-level courses in a sequence of courses from one subject or from various subjects, the above degrees will be awarded with a distinction in a programme specialisation if a candidate has attained an average of 75% in at least four senior semester courses including at least two 3000-level courses required for a major, with no course receiving a mark of less than 70% and the average of the marks awarded for the 3000-level courses being at least 75%, with each 3000-level course receiving a mark of at least 70%. Where the rules for a specialisation in a programme or a programme stream require completion of more than four senior semester courses (or the equivalent) in a particular programme specialisation, the Programme Convener shall determine which courses up to a maximum of four senior semester courses shall be considered for distinction in that programme specialisation, as long as at least two of those courses are at 3000-level.

Economics

Law

Organisational Psychology

Psychology

Distinction in the qualification as a whole

F14 Courses considered for purposes of distinction must have been taken at UCT or at an exchange partner institution. Courses passed for credit from other tertiary institutions are not considered for purposes of distinction.

Qualification-specific rules for the award of a distinction are covered under the corresponding section for each qualification.

Awards

Class medals

- F15.1 A list of class medallists is published every December, once approved by the Faculty Examinations Committee.
- F15.2 Any students taking a course for the second time are ineligible for any medal or prize in that class. Occasional students are ineligible for class medals.
- F15.3 Medals may be awarded only to those students who have shown special ability.
- F15.4 Only one medal will be awarded in a class, irrespective of the number of students in the class.
- F15.5 Class medals may be awarded to the best student in any single course, combination of, or selection of courses approved by the Senate in any subject recognised for the degrees of BA, BSocSc and BSW in the Faculty of Humanities.

Further rules for the award of class medals in specific qualifications are covered under the corresponding qualification rules.

Dean's merit list

- F16 The Dean's merit list is published annually. It contains the names of students whose academic performance over the year is meritorious (70% average on full course load) and hence worthy of recognition. Students who qualify for inclusion in the list will receive a letter of commendation from the Dean. "Full course load" is interpreted to mean:
 - (a) in the case of qualifications with structured curricula, the minimum course load prescribed for a particular year of study;
 - (b) in the case of the regular programmes of study leading to the award of the BA and BSocSc, the first year of registration for the degree must include the top 8 semester courses, the second year of registration must include the top 6 semester courses (including the courses for the majors and at least 5 senior semester courses), and the third year of registration must include the remaining courses necessary for the degree.
 - (c) in the case of the extended programme in the general degree, the first year of registration for the degree must include the top 6 semester courses, the second year of registration must include the top 6 semester courses (including the courses for at least one major and at least 2 senior courses), the third year of registration must include the top 6 semester courses (including the courses for at least one major and at least 4 senior courses), and the fourth year of registration must include the remaining courses necessary for the degree.
 - (d) in the case of students in the general degree who are forced to extend their degree over a four-year pattern to accommodate either the Mathematics/Statistics preparation for the Psychology or Economics majors or an unavoidable timetable clash, the first year of registration for the degree must include the top 6 semester courses, the second year of registration must include the top 6 semester courses (including the courses for the majors and at least 4 senior courses), the third year of registration must include the top 4 senior semester courses, and the fourth year of registration must include the remaining courses necessary for the degree.

registration for the degree must include the top 8 semester courses, the second year of registration must include 6 semester courses (including the courses for the majors and at least 5 senior courses), the third year of registration must include the top 6 senior semester courses, and the fourth year of registration must include the remaining courses necessary for the degree.

- (f) in the case of students who move into a Humanities programme after a year or more in another programme or faculty, the full load for their programme regardless of whether or not they transfer credits from their previous programme. Students transferring less than the full first-year course load from another programme may be deemed to be in their first year of study in their new programme for the purposes of DML load calculation.
- (g) in any programme of study, a full load minimum taken over the first or second semesters. While available Winter or Summer Term course marks may be added to the calculation if they increase the overall average, they may only do so if they represent credits over and above the prescribed minimum (as defined above).

F16.1 Enriched curriculum waivers:

In accordance with UCT's Student Fees Handbook rule 2.6, students on the Dean's merit list in their preceding year of study may apply for the waiver of the course fee on course(s) taken in addition to the full standard curriculum - that is, students will graduate with more than the maximum number of courses required by the degree programme. Humanities students access this waiver under the following restrictions:

- (a) a maximum of one course will be rebated per year per student
- (b) if multiple courses could be considered as additional to the full curriculum, the additional course will be taken to be that with the least expensive course fee
- (c) waivers will not be applied to final-year core, major or specialisation courses even when such courses are in excess of the minimum programme requirement for such
- (d) Dean's merit list status does not guarantee the award of a fee waiver. If limited University funds are available for rebates, waivers will be allocated in order of merit by average for the DML year.

Minimum requirements for readmission and promotion

NOTE:

What this means is that where students have not met the requirements for their qualification or programme, the Faculty Examinations Committee will consider whether or not to re-admit them in the following year. The Faculty Examinations Committee may decide not to re-admit such a student, in which case the student will need to appeal via the Faculty Readmission Appeal Committee; or the Faculty Examination Committee may decide to re-admit the student on certain conditions. Each case is unique and considered individually, and the student's full academic record is considered in reaching the decision.

Specific requirements for re-admission are covered under the corresponding qualification rules.

Maximum registration period

F17.1

Except with the permission of the Senate, students who have not completed the requirements for the qualification shall not be permitted to register at the University for more than the following periods:

F17.2

Students who are refused permission to re-register in the Faculty may appeal to the Faculty Readmission Appeal committee in accordance with procedures laid down by that committee. The decision of the Readmission Appeal Committee shall be final.

F17.3

The registration of students transferring from another faculty or another post-secondary education institution, or who are permitted to register by Senate and who have not met the minimum requirements of Rule 17.1 above, shall be subject to such special conditions as the Senate may prescribe. Except by permission of the Senate, students who fail to satisfy these conditions shall not be permitted to renew registration in the Faculty.

Completion of curriculum requirements for each year of study

F18

In any programme of study at any year, students must pass a minimum of a single course in a full year of study. Regardless of their fulfilment of other admission criteria for their particular programme of study, any students passing no courses at all in a full year will be deemed not to have met readmission requirements, and will be academically excluded from the university.

Supplementary examinations and re-examination for all qualifications offered by the Faculty (see also Rule GB11 in Handbook 3)

F19.1

The Faculty will not normally award supplementary examinations.

F19.2

The Head of the Department may require, on academic grounds, the student to undertake further tests or examinations during the period between the completion of the internal marking process and the finalisation of the results by the external examiner. These further tests or examinations may include the following:

(a) an oral examination;

18 FACULTY RULES FOR UNDERGRADUATE STUDENTS

RULES AND CURRICULA FOR QUALIFICATIONS AND PROGRAMMES OF STUDY

Bachelor of Arts (BA) [HB003]

Bachelor of Social Science (BSocSc) [HB001]

These rules must be read in conjunction with the General Rules for degrees in Book 3 of this series.

NOTE: For the purposes of relating the following rules to curricula, it is important to note that a full course carries the same credit as two semester courses or two half courses. In consequence, rules expressed in terms of full courses may be re-expressed in terms of semester or half courses, and vice versa. For the purposes of relevant rules, a whole year full course is regarded as being equivalent to a semester course per semester and a whole year half course as equivalent to half a semester course per semester.

Requirements for distinction

FB1 The degree may be awarded with distinction (see Faculty Rules F13 and F14).

Distinction in a subject/ programme specialisation

FB1.1 With the exception of the subjects listed below, the general BA or BSocSc degrees may be awarded with a distinction in a subject taken at first attempt, if the candidate has attained an average of 75% in at least four senior semester courses including at least two 3000-level courses required for a major, with no course receiving a mark of less than 70%, and the average of the marks awarded for the 3000-level courses being at least 75%. Where the major rules for a subject require the completion of more than four senior semester courses (or the equivalent), the Head of Department shall determine which courses up to a maximum of four senior semester courses shall be considered for distinction in that subject, as long as at least two of those courses are at 3000-level.

FB1.2 The following courses which may be taken as major subjects in the BA and BSocSc degrees are subject to the rules for distinction as determined by those departments:

Economics: An average of 80% or more across ECO3020F and two other 3000-level ECO courses, with first-class passes in at least two of these three courses.

Law: A weighted average of 75% in all six law courses taken towards the degree, the weight being in proportion to the credits accruing to those six courses.

Organisational Psychology: First-class passes in two 2000-level and two 3000-level courses required for the major subject or programme specialisation.

Psychology: First-class passes in the following four courses: PSY2006F and one other second-year Psychology course, PSY3007S and one other third-year Psychology course.

FB1.3 Additional majors offered by departments in the Faculty of Science and recognised towards the BA and BSocSc degrees but not specified in FB1.2 above are subject to the rules for distinctions as determined by those departments and as reflected in Rule FB8.1 in the official handbook of the Faculty of Science.

FB1.4 Distinction in the qualification as a whole

Candidates may be awarded the BA or BSocSc degree with distinction if they obtain first-class passes in a minimum of ten semester courses (or the equivalent), including eight senior semester courses (or the equivalent) and including, under normal circumstances, the courses which gained the student distinction in at least one subject, according to Rules FB1.1, FB1.2 and FB1.3 above.

* Entry to these majors is subject to the individual course pre-requisites (NSC subject requirements at specific levels) and compulsory co-requisite subjects (usually some combination of Mathematics, Statistics, Chemistry, Physics) for each major at first-year level. Students wishing to take one of these Science majors should note that with co-requisites most of these Science Faculty majors require more than 8 semester credits in Science subjects. In some majors students will still need to obtain more than the Humanities degree minimum of 20 credits overall, in order to meet the minimum number of Humanities Faculty courses required for the degree (see Rule FB8).

A number of these Science majors have limits on the number of students accepted into second year level courses. Selection criteria, based on academic performance in first year courses, are outlined to students during the first year of study. Students are thus advised to take courses in their first year which could lead to several majors.

Please see entry in the Faculty of Science Handbook.

Students will not be permitted to offer the following combinations of majors:

French and Business French

Sociology and Industrial Sociology

Curriculum leading to the general BA and BSocSc - extended programme of study

NOTE: A list of curriculum advisers is available from Humanities Undergraduate Reception, Beattie Building.

The extended programmes of study in Humanities lead to Bachelor of Arts (BA) or Bachelor of Social Science (BSocSc) qualifications. They are for students selected on the basis of admissions criteria, who show the potential to succeed on a four-year programme. In addition, ED students are required to participate in the Faculty's peer-mentorship programme in their first semester of study. Students who are admitted to a three-year programme and who fail three or more courses in the first semester of their first year may be required to switch to the four-year programme at the beginning of the following semester.

Minimum requirements for the award

Below are the minimum requirements for an extended programme of study leading to the award of BA or BSocSc. Refer to Rules FB2 through FB6 for complete details.

- (1) Minimum duration: 4 years
- (2) Minimum curriculum requirements:
 - 20 semester subject courses (or equivalent)
 - 10 senior semester courses (or equivalent)

28 RULES AND CURRICULA

- 2 majors
 - 12 semester subject courses offered by departments established in the Faculty of Humanities.

Third year: 6 semester subject courses

Fourth year: 4 semester subject courses.

Augmenting courses

For 1000- and 2000-level courses, students on extended programmes of study must also take the co-requisite augmenting courses wherever these are available. Students on extended programmes of study must take a minimum of three augmenting courses over the duration of the programme. Augmenting courses provide two periods of extra teaching input per week, usually in the form of Plus Tutorials. Augmenting courses carry attendance and DP requirements and are graded on a pass/fail basis. 80% attendance at all relevant academic support provision is compulsory for such students.

Majors

Students are required to choose two majors selected from the lists of recognised majors pages 25 and 26. Certain majors are not available to students on an extended programme, including

- Economics,
- Law,
- Mathematics, Statistics or Applied Statistics,
- Archaeology,
- Any starred Science major (see page 26).

Majors and Degrees

- Students who select both majors from the list of **Bachelor of Arts majors** will register for HB061.
- Students who select both majors from the list of **Bachelor of Social Science majors** will register for HB062.
- Students who select one major from each list will choose to register for **either** HB061 **or** HB062.
- Students who select a major from departments outside the Faculty will register for the Bachelor's degree of the Humanities Faculty major. Students must take at least one major offered by a department established in the Faculty of Humanities.

Convener: Dr M Evans (Centre for Film and Media Studies)

With the exception of rules for award of the degree (below) with distinction, this specialisation is subject to the rules and regulations for the Bachelor of Arts qualification.

Requirements for distinction in Bachelor of Arts specialising in Film and Media Production

FB12 Courses considered for purposes of distinction must have been taken at UCT or at an exchange partner institution. Courses passed for credit from other tertiary institutions are not considered for purposes of distinction.
See also rule F13, F14 and FB1.2.

Award of the degree with distinction

FB12.1 Candidates may be awarded the degree of BA specialising in Film and Media Production with distinction if they obtain first-class passes in a minimum of ten semester courses (or the equivalent), including eight senior semester courses (or the equivalent), at least four of which are the senior courses which gained the student distinction in Film and Television Studies and/or Media and Writing and/or Studies in Film & Media Production.

Award of the degree with distinction in Film and Television Studies

FB12.2 The BA will be awarded with a distinction in Film and Television Studies if candidates attain an average of at least 75% in FAM2004F, FAM20213S, FAM3005F and FAM3003S, with no course receiving a mark of less than 70% and the average of the marks awarded for the 3000-level courses being at least 75%.

Award of the degree with distinction in an additional subject specialisation

FB12.5 The BA may be awarded with distinction in an additional, recognised Humanities specialisation not offered by the Centre for Film and Media Studies, provided candidates have completed as electives in the Film & Media Production programme the courses required for that subject's major, and provided their marks in those courses conform to the distinction requirements specified in Rules FB1.1-1.3.

Curriculum structure

FB13 Except by permission of the Senate, candidates shall not register for:
(a) more than four full courses or eight semester courses in any one academic year;
(b) more than the equivalent of four and a half semester courses in any one semester;

Notes for students intending to pursue the Film and Media Production specialisation:

1. Applicants will not be admitted into the Film and Media Production specialisation in their first year. All intending F&MP students will register for the first year of a general Bachelor of Arts degree with double majors in Film and Television Studies and Media and Writing.
NOTE: If they wish to be admitted to the stream for Digital Media and Informatics, students should also register for one of the introductory Information Systems or Computer Science courses INF1002F/S OR CSC1017F.
Intending F&MP students must thus make sure that they are registered for FAM1001F and FAM1000S and, if they wish to apply for the Digital Media and Informatics stream, either INF1002F/S or CSC1017F in their first year. They are also advised to select courses towards additional majors.
2. Final selection for this programme is made by a panel and only occurs in the second semester of the second year. Only students selected for the production stage of the programme will be admitted to one of the Foundation Production Skills courses [see Second year (b)]. Entry is competitive and applicants will be judged on the basis of their academic records and portfolios. Candidates may also be interviewed. (Further details about the selection process are available from the Centre for Film and Media Studies.) Students who are not selected for admission to one of these courses will remain registered in the general bachelor's degree and, providing they have passed the relevant first- and second-year courses, are eligible to continue in the Film and Television Studies and/or Media and Writing majors. Students whose applications for the Production programme are successful will move into the Production programme, and their registration will be updated.
3. Students who wish to be considered for selection for the production stage of the specialisation must apply to the Centre for Film and Media Studies by the stipulated date in May of their second year. To be considered for admission, students are required to submit an approved portfolio containing:
 - (a) the applicant's academic transcript indicating an average of at least 65% for the courses completed during the first year of study. Students must have passed at least six 1000-level semester courses in the immediate previous year of study, including:

FAM1000S	Analysing Film and TV
AND, if they wish to be considered for the digital Media and Informatics Stream	
INF1002F/S	Information Systems I OR
CSC1017F	Python Programming for Engineers
 - (b) a letter of motivation

 and if in Digital Media and Informatics stream:
 - INF1022F/S Information Systems I OR
 - CSC1017F Python Programming for Engineers

Any concessions regarding these stream-specific pre-requisites must be negotiated with the relevant stream convener.

A workshop is held in the first semester of the second year of study to give students guidance in the submission of their application.

- 4. The programme must include at least 10 senior semester courses.

FBN4 Students

- (a) wishing to exhibit in a public or private gallery, enter in a competition, or publish any work must consult the Director of the Michaelis School of Fine Art or their nominee before doing so;
- (b) may not exhibit in a public or private gallery, enter in a competition, or publish any work done at the School as part of the work of the course, or under supervision, or that is to be submitted for examination, without the prior written approval of the Director of the School;

- (c) may not without the permission of Senate submit for examination any work that has been exhibited, published or submitted as an entry in a competition without such prior written permission; and
- (d) may not exhibit in a public or private gallery, enter in a competition, or publish any work done at the School as part of the course, or under supervision, or that has been submitted for examination, within a two-year period of obtaining the degree without making due acknowledgements to the University and School.

No publication or exhibition by candidates may, without prior permission of the University, contain a statement that the published or exhibited material was or is to be submitted in part or full for this degree.

Degree specific requirements for selection

FBN5 Admission to the programme is limited. Students are admitted on the basis of a portfolio of creative work and NSC results, and NBT scores. Details of the selection criteria are published annually.

Degree specific requirements for promotion

- FBN6.1 Candidates must complete FIN1001W Studiowork 1 and have permission of the Director of the School before admission to any second-year Studiowork course. A minimum of 55% is required in any FIN1001W studiowork subject area in order for a student to proceed with the second year studiowork course option in that area. Candidates who fail to meet this requirement will require special permission from the Programme Convener and from the Director of the School to proceed in that area.
- FBN6.2 Candidates must complete FIN1005W Fine Art Foundation and all Studiowork courses of the second year before admission to the third year.
- FBN6.3 Candidates must complete both Studiowork courses of the third year before admission to the fourth year.
- FBN6.4 Candidates must achieve a pass mark of 55% for the Studiowork option at the end of the second year in order to be admitted to a majoring course in the third year. Candidates who pass in a prospective major area with less than 55% will be required to submit a supplementary body of work as specified by the School which will be assessed before registration in the following year.

Degree specific minimum requirements for readmission

FBN7 Candidates who do not fulfil the following requirements will not be readmitted to this degree or another degree, except with the permission of the Senate:

- FBN7.1
- (a) Candidates must pass FIN1001W Studiowork 1 by the end of the first year;
 - (b) Candidates must pass the FIN1006F and FIN1009S courses by the end of the second year.

Failure to fulfil these requirements will mean that candidates will not be readmitted to the Faculty and candidates will be required to pass courses from an external institution which the Director of the Michaelis School of fine Art has determined to be equivalent in credit weighting and content to FIN1005F and FIN1009S before being considered for readmission to the Faculty.

If there are extenuating circumstances, Senate may permit candidates to renew their registration on the condition that they, after consultation with the Director of the Michaelis School of Fine Art, register for either:

56 RULES AND CURRICULA

- FIN1006F and FIN1009S at the University; or
- concurrently with their UCT registration, courses from an external tertiary institution which the Director of the Michaelis School of Fine Art has determined to be equivalent in credit weighting and content.

Failure to complete the course by the end of the year for which readmission was granted would mean that candidates would not be permitted to renew their registration in the Faculty until such time as evidence has been submitted that they have completed FIN1006F and FIN1009S or equivalent.

FBN7.2 Subject to the provisions of Rule F5, candidates who fail in Art History and Discourse of Art 2 course(s) or a BA subject in two consecutive years will only be considered for readmission once they have passed the equivalent failed course(s) through an external institution.

Prior to being admitted to the Diploma students must audition to satisfy the programme convener that their proficiency on their chosen instrument is

of the standard required eventually to cope with the demands normally placed upon performing musicians.

The required curriculum for each stream in every year of study is set out below.

This programme of study is linked to Western Classical, African Music, World Music and Opera streams of the DMP and it has been designed primarily for students selected on the basis of admissions criteria who show potential to succeed in an extended programme of study with additional academic support. The programme is designed so that the DMP takes four years, with the first two years an intensive structured programme of academic support. Candidates must complete the prescribed courses for the first two years and may not register for any other MUZ courses. Candidates with a school-leaving (senior) certificate and who demonstrate proficiency in an instrument will be considered for admission to this programme.

The required curriculum for every year in each stream of study is set out below.

Core courses in each stream are indicated in bold, and students are required to pass these courses in order to meet the minimum requirements for re-admission.

Readmission

- FBT5
- (a) Candidates who fail T&P Studiowork in any year will not be permitted to renew their registration for the degree in Theatre and Performance without the permission of the Senate. Where such permission is given, candidates will be required to attend all the classes in T&P Studiowork for that year of study.

Absence from classes or rehearsals, unless for medical reasons, is not permitted without the written permission of the Head of Department. Absence for medical reasons must be reported to the Administrative Assistant of the department, and must be substantiated by a doctor's certificate for periods in excess of two days.
 - (b) Candidates who, for any reason whatsoever, miss a noticeable proportion of their classes in any of the professional training courses may be deemed not to have completed sufficient coursework to justify the granting of a DP certificate.
 - (c) Candidates, in any year of study who have a DP removed for their Studiowork course, thereby making it impossible to advance to the next year of study or to graduate from the programme (see relevant curriculum constraints above), will be required to withdraw from the other Professional Training programme in that year. The decision to allow such candidates to repeat that year of training will be at the discretion of the Head of Department.

Curriculum constraints:

- In the first year of study candidates registered for the BA in Theatre and Performance must achieve at least 60% in T&P Studiowork 1A or 1B in order to advance to the second year of study. Candidates who do not obtain the sub-minimum of 60% will be entitled to repeat T&P Studiowork 1A or 1B for one more year or to shift across to the general BA Drama if they qualify.
- Candidates shall be permitted to register for T&P Studiowork 1B only with permission of the Head of Department.
- Bilingual Theatre Making students might be required to forfeit some teaching contact hours if the timetable makes it impossible for them to attend.
- Candidates possessing the necessary language proficiency who wish to change from *unilingual* to *bilingual* Acting in the second year of study may do so with the permission of the Head of Department, whose decision will be final, and provided they have completed the previous year of study in T&P Studiowork 1A successfully.
- Candidates may not register for the third-year professional theatre training courses T&P Studiowork 3A Acting or Theatre Making, unless they have passed at least two of the academic Drama courses at a second-year level and two courses in their academic elective.
- Candidates must indicate their choice of specialisation upon commencement, but the Head of Department's selection of specialisation will be final. There is a limit to the number of students who can be accepted into any one area.

- Candidates may not register for the professional theatre training courses in their fourth year unless they have successfully passed at least both third-year semester courses in Drama, or three semester courses of their academic elective.
- Admission into academic courses in Drama in subsequent years is dependent upon successfully completing one of the academic Drama courses prescribed for the current year.

Fitness for physically demanding courses:

- (a) Candidates shall, at registration for each year of study, formally inform the Head of Department of Drama of any aspect of their health that may be an impediment to full participation in the courses for which they are registered, and shall support such a notification with medical documentation if required.
- (b) Candidates wishing to register for a physically demanding course under circumstances of medical constraint may be advised against such a registration if the department judges that the course presents some degree of physical risk.
- (c) Candidates who register for physically demanding courses against the advice of the department do so at their own risk, and in the understanding that, with every effort made to accommodate their physical constraints, they may nonetheless be unable to benefit from a full experience of the course.

Non-specified choices of academic elective:

Provided the timetable allows, candidates who can provide justifiable grounds for wishing to take additional elective academic courses, may receive permission to do so from the Head of Department.

Transferring to other programmes:

Candidates who find after all that they are unsuited to the Programme in Theatre and Performance, may transfer to the BA or BSocSc general degrees or to other programmes at the beginning of the second semester of first year, and at the end of the first year. Permission must be granted by the Humanities Faculty Office before students are allowed to change to any of the degrees above. Transferring students may receive credit towards their new programme at the discretion of the programme convener of the newly chosen programme.

Notes for candidates for the BA in Theatre and Performance

The normal timetable pattern followed in this programme is academic courses are studied in the mornings on Upper Campus in Rondebosch, the professional theatre training courses are studied thereafter at Hiddingh Campus in Cape Town city centre and rehearsals are conducted in the evenings and over weekends on the Hiddingh Campus. The University supplies a limited shuttle service for students to travel between campuses and residence.

Candidates are advised that this programme demands attendance at rehearsals and other meetings outside of normal University teaching hours and should make sure that other commitments do not clash with the requirements of this programme.

Candidates are required to provide the following equipment and services:

- Text books and rehearsal notebooks

8 NQF credits at HEQSF level 5; First-year, second-semester course, one lecture and one compulsory tutorial per week.

Convener: Associate Professor N Shepherd

Course entry requirements: This course is for non-Humanities students only and does not count towards Humanities degrees.

Course outline:

This is a service course designed specifically for non-Humanities students preparing themselves for a life of professional practice. Broad-based and introductory, it is intended to satisfy the complementary studies requirements of professional institutes (like the Engineering Council of South Africa). It does this by focusing on contexts and ideas which will be of direct benefit in professional practices, as well as on more abstract ideas which will be generally enriching.

In the time available, this course sets out to introduce and discuss the dynamic interplay between the various forces of globalisation and the impact on culture and identity in Africa. The ideas explored and debates encouraged in the course are expected to contribute towards a more thoughtful professional practice and critical awareness of social and historical context, particularly, the post-colonial context in Africa.

From Cape Town to Algiers and Puntland, the course examines a range of different contemporary issues, historical moments and diverse localities across the continent. Dominant concepts and vocabularies that operate in relation to complex processes of globalisation which impact everyday life in distinctly different ways are critically discussed as “tools to think with.”

Lecture times: Friday, 5th period.

DP requirements: Attendance at lectures and tutorials is compulsory, failing which students' papers may not be marked.

Assessment: Three assignments count 10% each; one group project counts 20%; one 2-hour examination counts 50% of the final mark.

AXL2200S CULTURE, ID & GLOBALISATION IN AFRICA

24 NQF credits at HEQSF level 6; three lectures and one compulsory tutorial per week.

Convener: Associate Professor H Chitonge

Course entry requirements: Students must be in their second or subsequent year of study.

Course outline:

In the context of the current level of globalisation, this course explores Africa's position in and relations with other parts of the globalising world. The course highlights Africa's experience of globalization, focusing on the challenges and opportunities which globalisation presents, particularly on cultures and identities in the continent.

How do we think about Africa differently in a world that is increasingly perceived to be converging towards a 'global village'? Is Africa losing its culture and identity in this 'global village'? What would it mean to think of Africa differently? These questions are examined critically in the course to highlight the need for rethinking and re-imagining Africa. Students in the course are challenged to begin to develop a new set of strategies and approaches to critically engage with the dominant discourses on Africa. In view of the challenge to re-think and re-write Africa, the course introduces students to new frames of looking at, analysing, writing, conceptualising and imagining Africa in a globalising world. The ideas explored and debates examined in this course are expected to create awareness among students of the historical, social and political context, particularly the post-colonial African context.

Lecture times: Tuesday, Wednesday, Thursday, 6th period.

DP requirements: Attendance at lectures and tutorials is compulsory, failing which students' papers may not be marked.

Assessment: Three assignments count 10% each; one group project counts 20%; one 2-hour examination counts 50% of the final mark.

Course outline:

In this course we will examine how women's movements have emerged in the context of struggles against other forms of social injustice and have informed theories about gendered oppression. Focusing on women's and feminist movements mainly in the South and East, the course examines how feminist theories have not only been shaped by the specificities of the local contexts and struggles; but also how they have been shaped by the global flow of information about women's and queer movements elsewhere. In addition, we examine how the questions that feminists and women activists have raised have destabilised the taken-for-granted assumptions about masculinities. We will also take a brief look at the construction and multiple meanings of sexuality and masculinities, especially in African contexts. The course is designed to acquaint students with literature about women's and feminist movements in the non-western world. It encourages students to think critically about the relationship between theories and practice, as well as about the applicability of feminist theoretical concepts across diverse contexts. Coursework is also designed to develop students' writing and seminar presentation skills.

Introduction

The development by human beings of the power to communicate with one another by means of language, and their subsequent and continuing co-operative use of that power in transforming the world they live in, are among the most significant determinants of the human condition. Scholars have been inquiring into the origins, history, mechanism, structure and social roles of language and languages since the very beginnings of the intellectual tradition. Courses in this section not only offer an introduction to the range of such inquiries and an opportunity to participate in them, but above all foster the idea that an attempt to grasp the nature of language is an indispensable part of any serious attempt to understand what it is to be human.

AGE1002S ARCHAEOLOGY & OUR COMMON HERITAGE

18 NQF credits at HEQSF level 5

Convener: To be advised

Course entry requirements: None

Course outline:

Archaeology is the study of physical evidence left by people, from the first use of stone tools in Africa, around 3 million years ago to the complex civilizations of the more recent past. It studies our ancestor's daily lives using the physical evidence that they discarded and left behind: their tools, their houses, the remains of the meals they ate and much more. Archaeology is the only discipline

that provides insight into our common heritage before written evidence. The course gives a general introduction to how archaeologists work with physical evidence by outlining some of the methods and theories they use and apply. It then summarises how this evidence contributes to our understanding of world archaeology by outlining our early physical and cultural evolution, the development of hunting and gathering, our spread around the world, the shift to farming, the innovation of writing and the rise of complex societies. The course highlights why this heritage is significant and the consequences of this significance for its management, conservation and protection.

Lecture times: Monday - Thursday, 5th period

DP requirements: Attendance at lectures and tutorials and completion of assignments.

Assessment: Assignments and class tests count 50% towards the final mark and one 3-hour examination written in November counts 50%. A sub-minimum of 40% is required for the examination.

Course outline:

In AGE2011S we examine the record of primate and human evolution, showing how fossil skeletons and artefacts are interpreted in terms of human behaviour and evolutionary processes. We also consider genetic and other comparative evidence that are increasingly providing insight into the origin of our lineage. We answer questions such as: Why did our ancestors evolve in Africa? How did we evolve such large and complex brains? What advantage does bipedalism provide? When do humans begin to make tools? Why is human skin colour so variable? What makes humans unique? The syllabus for AGE2011S includes practical sessions for the study of primate and human, fossil and recent skeletal material and the artefacts associated with our ancestors.

AGE2012F THE FIRST PEOPLE

24 NQF credits at HEQSF level 6

Convener: Dr J Wilkins

Course entry requirements: Any first-year Science course; or any one of AXL1400F (was SAN1015F.) or AGE1002S or equivalent first-year semesters; or AGE2011S; or any first-year Humanities course from cognate disciplines such as Anthropology, Historical Studies, Sociology; or by permission of the Head of Department.

Course outline:

All humans living today have a common African origin. The first humans were hunter-gatherers, as were their descendants. Indeed, our ancestors were hunter-gatherers for at least 99% of our evolutionary history, which means that our physical, psychological and social selves have been shaped by this way of life. We learn about the origin and evolution of our hunter-gatherer ancestors from genetic, fossil, archaeological and ethnographic evidence. Studies of Khoisan peoples of southern Africa have contributed significantly to our understanding of such societies. In this course we focus on the hunter-gatherer way of life over the past few hundreds of thousands of years. Specific topics covered include modern human origins, the Middle and Later Stone Age, ethnographic studies of Khoisan, the origins of pastoralism, coastal vs. arid environment adaptations, rock art and symbolic interpretation, genetics and biology, revisionism, and contemporary socio-politics and identity. In the weekly practical sessions, students will conduct hands-on, problem-solving exercises with archaeological materials.

Lecture times: Monday - Thursday, 2nd period, Practicals: One 2-hour practical per week, at times to be arranged

DP requirements: Attendance at lectures and practicals, completion of assignments and participation in a one-day fieldtrip.

Course entry requirements: AGE2011S or AGE2012F, or by permission of the Head of Department.

Course outline:

In this course we explore the history of Africa's people over the past 2000 years with special reference to southern Africa. Why are southern African populations so diverse? What lies behind the linguistic map that we see today? What social, technological and palaeoenvironmental systems shaped the evolution of societies? Did Africa have any civilisations? Who did Africa interact with? We use the archaeological record of artefacts, settlement systems, food waste, environmental contexts and human skeletons. We deploy historical, material science, molecular science,

anthropological and palaeoclimatic techniques to explore this rich and diverse heritage of the last two thousand years.

AGE3012S GLOBAL DIASPORAS & THE ARCHAEOLOGY OF THE HISTORICAL PAST

36 NQF credits at HEQSF level 7

Convener: Associate Professor S Hall

Course entry requirements: AGE2011S or AGE2012F, or by permission of the Head of Department.

Course outline:

Over the last thousand years, southern Africa has been connected to the world in a number of ways. From the 16th century the European push to open trade routes to the east increasingly disrupted earlier interactions between the southern African interior and the wider Indian Ocean region that had been in place from the 1st millennium AD. The European diaspora into southern Africa created new orders of power, control and trade that had massive impacts on indigenous societies who were subjected to slavery, genocide and eventually apartheid. In this course we look at these interactions and transformations from both foreign and local viewpoints, in which the idea of frontier is a central theme. The focus is on archaeological evidence and the contribution it makes to understanding the texture of life on frontiers and the new identities that frontiers created. In doing this the relationship between archaeological evidence, written sources and oral history is critically addressed, particularly in the search for perspectives that address cultural change and continuity at the local scale.

Lecture times: Monday - Thursday, 4th period, Practicals: One 2-hour practical per week, at times to be arranged

DP requirements: Attendance at lectures and practicals, completion of assignments.

Assessment: Assignments and class tests count 50% towards the final mark and one 3-hour exam written in November counts 50%. A sub-minimum of 40% is required for the examination.

Course outlines:

ECO1006F ECONOMICS FOR NON-SPECIALISTS

This course is designed for students intending to do only one semester of Economics. It is therefore aimed at providing a broad perspective on the subject, and concentrates more on an understanding of economic concepts and their application than it does on rigorous proofs and analysis.

18 NQF credits at HEQSF level 5

Convener: Samantha Filby

Course entry requirements: Only students who are registered in the Faculty of Humanities may register for this course or with special permission from the course convener or head of department

Course outline:

This course comprises of both micro- and macro-economics. Microeconomics focuses on individuals, be it individual consumers, firms or markets. The focus is on understanding the behaviour of these individual entities. Macroeconomics focuses on the economy as a whole. Rather than looking at the factors that determine an individual's consumption decisions (i.e. his/her income, the expected utility derived from different goods and the prices of those goods), the focus in macroeconomics is on total consumption of all consumers in the economy. Similarly, the focus is not on the output decision of any individual firm, or even an industry, but on the total output of all firms in the economy as a whole.

Lecture times: 16h00 - 18h00 Monday & Thursday

DP requirements: All class tests and assignments/essays/projects to be completed. Attend at least 70% tutorials. Satisfactory completion and timeous submission of at least 70% of tutorials. A weighted average mark of 30% for tests, tutorials, essays and assignments. Only students who have obtained DP certificates may write the final examination.

Assessment: Coursework 50%; Exam 50%. The course outline will detail the breakdown for submission weightings and variation for exemptions and absences.

ECO1010F/S MICROECONOMICS

18 NQF credits at HEQSF level 5

Convener: Tony Leiman – ECO1010F & Cecil Mlatsheni – ECO1010S

Course entry requirements: Admission to degree. National Senior Certificate: a pass (5) in Mathematics. Senior students must have passed the equivalent of 6 semester courses.

Co-requisites: There is no co-requisite, but students are strongly advised to do a formal mathematics course (STA1001, MAM1010, MAM1000 or equivalent). Not having done such a course will preclude entry to second year Economics.

Course outline:

In any developed economy scarce resources have to be mobilised and used to meet the public's needs. This course focusses on the processes involved, particularly those common to modern western economies. It begins with market mechanism and price formation. The background to demand (cardinal and ordinal utility) follow. The neo-classical theory of supply is then introduced, leading from production function analysis to the derivation of supply under perfect competition. Other market forms follow, and the course concludes with sections on factor pricing and international trade.

Lecture times: ECO1010F 09h00 – 10h00 Tuesday, Wednesday, Thursday & Friday 10h00 – 11h00 Tuesday, Wednesday, Thursday & Friday 11h00 – 12h00 Tuesday, Wednesday, Thursday & Friday 12h00 – 13h00 Tuesday, Wednesday, Thursday & Friday ECO1010S 12h00 – 13h00 Tuesday, Wednesday, Thursday & Friday

DP requirements: You are required to attend the assigned tutorials. If you do not attend 70% of these you will be refused a DP, i.e., you will not be entitled to write the examination. Your year mark contributes a half of your final total for the course. If your year mark is below 30% you will not be permitted to write the final examination. If you choose not to submit your essay or not to write a test you will be given a mark of zero for that component of the course, but will be allowed to write the examination provided your year mark is above 30%.

Specifically, the course starts with analysing the short run behaviour of the economy through the IS-LM model (building on the Keynesian model introduced in the first year) before it moves on to consider the medium run through the AS-AD model. Finally, it looks at the factors that influence long run growth using the Solow growth model. Analysis of the open economy, such as trade and exchange rate regimes is also undertaken.

Microeconomics covers general equilibrium analysis under perfect competition and market failure (externalities, public goods and imperfect information). Welfare economics is also discussed.

The macroeconomics module is developed using micro foundations. It first covers explanations for the business cycle in a closed economy with money. The course then focuses on an open monetary economy with foreign trade, capital flows and an exchange rate. The course also reviews the experience of the 2008 international financial crisis.

The classification of matter deals with the differences between elements, compounds and mixtures, the structure of the atom and how this links to the position of the metals, non-metals and metalloids in periodic table.

The focus on the particle model of matter is brief and is followed by an in-depth look at chemical reactions; including chemical bonding, different ways of representing chemical reactions and a focus on redox and acid-base reactions. By exploring these concepts, broader issues such as the nature of science (NOS), a Science –Technology - Society (STS) approach to teaching, the use of ICT in teaching and learning, general scientific literacy and the importance of reflective teaching practice will also be highlighted. At the same time students will be given the opportunity to develop some of the process and cognitive skills required for doing science practical work.

ELL1013F LITERATURE: HOW AND WHY?

18 NQF credits at HEQSF level 5

Convener: Dr P Anderson**Course entry requirements:** None**Course outline:**

What is 'literature' and how does it work? How and why can we read and think critically? What does close attention to plays, novels and poems tell us as we grapple with the meanings of being human within a 21st century world? How can we trace the shift from 'English literature' to 'literature in English', from our specific and simultaneously myriad locations? This introduction to literary studies offers a range of critical tools and methods for reading and writing about texts in the most interesting and thought-provoking ways possible. The course also introduces students to literary and rhetorical terms, and to basic issues in literary studies. Different literary genres will be explored and analysed, including the novel, poetry and drama. Students will be introduced to different kinds of critical writing and will engage in honing their own critical skills.

Lecture times: 2nd period, Monday, Tuesday and Thursday.

DP requirements: All written work to be handed in and at least 75% attendance at tutorials.

Assessment: Lecture series: two-hour examination counts for 50% of the final mark; tutorial classwork counts for 50%.

ELL1016S IMAGE, VOICE, WORD

18 NQF credits at HEQSF level 5

Convener: Dr P Anderson

Course entry requirements: None

Course outline:

As an introduction to cultural and literary studies, this course examines an array of modes of expression as we seek to understand how texts of various kinds accomplish their acts of meaning-making and persuade their readers. We will give attention to the impact of a text's form and context in shaping its message, as well as its content. In trying to understand the rhetorical effects of any given text, we will examine examples from across a variety of genres that use words, images and even sound to engage their audience or readers, within a variety of historical and political contexts. Objects of study will include texts that use sound as well as words (such as contemporary ballads, performance poetry and hip hop, or contemporary adaptations of Shakespeare's plays), visual images (such as posters in a protest action, photographs that document war and suffering, and historical maps that retraced the shape the world), and words collated and presented in particular ways on the page (such as the archived documents from the apartheid censors, the published journal of a fugitive slave, the extended prose of a stream-of-consciousness novel). By drawing on key theoretical insights into the politics of representation, we aim to develop the critical skills needed to become savvy readers of contemporary culture and politics. The course aims to build upon the skills in critical reading and writing taught in ELL1013F.

Lecture times: 2nd period, Monday, Tuesday and Thursday.

DP requirements: All written work to be handed in and at least 75% attendance at tutorials.

Assessment: Lecture series: two-hour examination counts for 50% of the final mark; tutorial classwork counts for 50%.

ELL2000F CULTURES OF EMPIRE, RESISTANCE AND POSTCOLONIALITY

24 NQF credits at HEQSF level 6

Convener: Dr C Ouma and Associate Professor H Garuba

Course entry requirements: ELL1013F, ELL1016S if major, second year status if an elective, or at the discretion of the Head of Department.

Course outline:

One of the distinct features of modern societies is how their connections across space and time have been mediated by cultures of empire. Imperialism was undoubtedly the engine of globalization. The imprint on cultural formations and modern sensibilities has been both profound and complex. Writing, reading, speaking, literature, language, liberty, freedom, nationalism, the nation-state, race, ethnicity, sex, gender, desire, indigeneity, to name but a few, are all categories of being that are impossible to make sense of without a sense of the modern. This course offers a number of vistas for reflecting on the imprints, echoes and afterlives of empire as a cultural formation as mediated through narrative and literary discourse. In the course of the semester, we will engage with how, from our postcolonial present narrative works, to mediate and give these experiences meaning.

DP requirements: None.

Assessment: 50% coursework; 50% examination.

How do we understand, imagine and reanimate the past in language? This course explores questions of memory, remembering and time as these are refracted and represented via a range of verbal, literary and cultural forms. ELL3000F MOVEMENTS, MANIFESTOS AND MODERNITIES

30 NQF credits at HEQSF level 7

Convener: Professor J Higgins**Course entry requirements:** ELL2000F and ELL2001S, or at the discretion of the Head of Department.**Course outline:**

This course examines key theoretical questions within the history of literary and cultural studies. It considers these in their complex relationships to the political movements that sought to reshape the world. It is focused on the nineteenth and twentieth centuries, as the accelerated movement of people, goods, and ideas across the globe led to the emergence of a world considered 'modern', and at the same time the inequalities that make it impossible to think of 'modernity' as a single, coherent idea. The primary aim is to introduce senior undergraduates in ELL to the frameworks, vocabularies, and animating ideas of literary and cultural manifestos, a form always at once political and aesthetic, and to work to improve core skills in analysis, exposition and argument.

Lecture times: 6th period, Monday and Tuesday.**DP requirements:** All written work to be handed in and at least 75% attendance at seminars.**Assessment:** Seminar classwork counts for 50% of the final mark; a one-hour mid-term exam and a two-hour examination counts for the remaining 50%.

30 NQF credits at HEQSF level 7

Convener: Dr H Twidle**Course entry requirements:** ELL2000F, ELL2001S and ELL3000F, or at the discretion of the Head of Department.**Course outline:**

This course is about literature and the questions it leads us to ask of our world, through the lens of contemporary debates in literary studies. One of the course's aims is to keep students abreast of current developments and debates within our discipline and hence the works discussed in the course are closely related to faculty research interests. The themes and theories up for discussion vary from year to year, but could include: the politics of the archive in African literature, the politics of visibility in precarious contexts, the presence and power of the virtual in engagement with 'the real-time' page, poetry and performance, the energies animating the evolution of queer collectivities of writing, black feminist theorization of history, text and voice, intersections of 'trauma', 'memory', and 'representation', the emergence of new genres, and the potential of 'writing back the land'. The course is primarily run through participation in an intensive seminar, through which students will explore a specific research theme, which will result in a long essay, closely linked to the seminar focus.

Lecture times: 6th period, Monday and Tuesday.**DP requirements:** All written work to be handed in and at least 75% attendance at seminars.**Assessment:** Seminar classwork counts for 50% of the final mark; a one-hour mid-term exam and a two-hour examination counts for the remaining 50%.

Convener: Associate Professor V MacKenny and F Saptouw

Course entry requirements: FIN2011W Painting 2

Course outline:

First semester: Surface and medium are key components in the generation of meaning in contemporary painting. Students are expected to explore historical precedents from 20th century modernism and postmodernism and to create works where the implications of surface and materiality in painting are primary. Convener: Associate Professor S Jeppie

Course entry requirements: None

Course outline:

In examining the divergent societies of the world between the early centuries of the Common Era and the onset of global imperialism in the 19th century, this course provides students with an expansive knowledge of non-Eurocentric global history. Focusing on selected themes across the pre-industrial worlds of Africa, Asia, Europe, the Pacific and the Americas, it teaches students to think in terms of comparative and connected histories. The various styles of encounters between different societies are particularly explored in relation to specific aspects of long-term political, economic, social, and cultural processes.

HST1014S EMPIRES AND MODERNITIES

18 NQF credits at HEQSF level 5

Convener: Dr A Sen

Course entry requirements: None

Course outline:

Histories of modernity are inextricably entwined with histories of empires. Even in a time when the formal empires have arguably collapsed, the categories through which we approach the modern world are still deeply shaped by the persistence of imperial modes of thinking. This course focuses on a range of such key concepts of modernity and encourages students to think critically about the promises and problems of these concepts by drawing particular attention to the tensions between their metropolitan and colonial careers. Through these categories is offered a broad and critical narrative of world history from the nineteenth through the twenty-first century. A primary goal of the course is to provide students with an understanding of how these concepts carry many different histories within them, how they are open to contending interpretations, and how crucial the sense of their varied historical contexts is to the practice of social sciences and humanities. We use both primary sources and secondary historiography in this course.

Lecture times: Tuesday, Wednesday, Thursday 3rd period.

DP requirements: 100% of required coursework and course evaluation.

Assessment: Coursework counts for 50% of the final mark, and one two-hour examination at the end of the semester in which the course is taken counts for the remaining 50%.

HST2044F AFRICA IN QUESTION: ANCIENT & PRE-COLONIAL AFRICA BETWEEN THE PAST & PRESENT

(Not offered in 2018)

24 NQF credits at HEQSF level 6

Convener: Associate Professor S Jeppie

Course entry requirements: At least two courses in historical, social science or cultural studies offered by the Faculty of Humanities, or by permission of the Head of Department.

Course outline:

What is Africa and what might its ancient and pre-colonial pasts tell us about present African realities? Despite the passage of time, some stubborn Eurocentric myths about Africa as an “Other,” pathological, dominated by unchanging “tribal” traditions and customs, isolated from world development and without or beyond history persist. In short, a “dark continent.” How do we challenge these imaginations and representations without merely finding European equivalents and glorious histories of kings and queens, civilisation and states while the meaning of history remains unquestioned? This course explores the emergence of African societies from pre-history to the eve of European colonisation in the late nineteenth century. Using a number of regional histories and relying on primary and secondary sources and documentary films, the course begins with explorations of African historiographies over time, human origins, the interactions of humans and geography, Ancient Egypt and Nubia, state formation and social organisation, the development of long-distance trade networks and cross-cultural contacts, the nature and impact of slavery and the slave trade in Africa. The course aims to equip students with a critical appreciation of Africa’s complex pasts that go well beyond the so-called truths of colonial historiography.

Lecture times: Monday to Friday 7th period.

DP requirements: 100% of required coursework and course evaluation.

Assessment: Course work counts for 50% of the final mark and a two hour examination at the end of the semester in which the course is taken counts for the remaining 50%.

Convener: Dr M Mbali**Course entry requirements:** At least two courses in historical, social science or cultural studies offered by the Faculty of Humanities, or by permission of the Head of Department.**Course outline:**

This course introduces how to read history through a ‘gender lens’ so that we can see how social relations and identities were structured by power at particular moments and how they changed over time. The course is divided into two parts. The first section explores women’s disproportionate engagement in reproductive labour in the domestic sphere. The second section examines women’s engagement in politics, including their trade unionism and the emergence of feminist ideas and social movements, such as that for universal adult suffrage. Finally, it deals with the evolution of gendered identities and practices in a transnational and comparative fashion: focusing on Europe, Asia, Africa and Latin America in order to understand discussions around these phenomena in relation to health and education.

HST3037S MEMORY, IDENTITY AND HISTORY

30 NQF credits at HEQSF level 7

Convener: Associate Professor S Field**Course entry requirements:** At least two courses at 1000-level and two courses at 2000-level in historical, cultural studies or social science offered by the Faculty of Humanities, or by permission of the Head of Department.**Course outline:**

The ways in which people remember, forget and silence their past are indispensable to how they construct and sustain their identities. South African and international historical literature will be used to develop comparative case studies on trauma and memory in post-authoritarian countries such as South Africa, Rwanda and post-war Germany. A central theme linking these diverse case studies is the impact of traumatic experiences on the making of life, community and national histories, and the significance of reconciliatory processes such as the TRC and *gacaca*. Through these case studies, students will have the opportunity to explore specific memory/identity themes such as self, community, gender, culture and politics. The course will also help students to interpret

examples of remembrance that are represented through writing, oral histories, films, cartoons, spaces, archives and memorialisation.

HST3038F ECONOMIES OF FEASTS AND FAMINES

30 NQF credits at HEQSF level 7

Convener: Dr M Mulaudzi

Course entry requirements: For students completing the major in Economic History, ALL of the following are required: HST1005F or HST1011F, HST2028F and HST2037S. For students taking the course as an elective, at least ONE of the following courses is required: HST1005F or HST1011F, HST2028F or HST2037S, or by permission of the Head of Department.

Course outline:

This course is concerned with famines, approaches to hunger, poverty and inequality, and the institutions that societies establish to remedy these maladies. Food insecurity, death from starvation, and ‘feasts for a few’ are associated in the twentieth century with developing economies where discourses of poverty, welfare and development promote varying remedies, more or less informed by ideology, self-interest or economic theory. Thus analyses of poverty, wealth and famine require an understanding of the ways in which developmental theories and economic policies have been applied in specific contexts and of the institutional arrangements through which these practices have been exercised. The course is skills-intensive and includes tutorials on quantitative reasoning, historiography and comparative analysis.

Lecture times: Monday, Tuesday, Wednesday Meridian.

DP requirements: 100% of required coursework and course evaluation.

Assessment: Course work counts for 50% of the final mark and a two hour examination at the end of the semester in which the course is taken counts for the remaining 50%.

Course entry requirements: HST2040F or HST2041F and any other 2000-level HST major courses, or by permission of the Head of Department.

Course outline:

This course aims at equipping undergraduate students with a critical understanding of a broad range of complex and diverse intellectual traditions in modern African worlds of thought. Its emphasis is on debates and arguments, conversations and contestations, connections and displacements. In contrast to an essentialised and unitary notion of African thought, this course emphasizes the plural and dynamic worlds of African intellectuality, drawing particular attention to the vibrant histories of critiques and auto-critiques. In doing so, it also provides a basic sense of the various historical contexts of continental and diasporic activism in which these intellectual approaches were formulated and discussed. Among other themes, we engage the debates on and around decolonisation and violence, nationalism and tribalism, afro-communism and afro-feminism, precolonial epistemologies and customary law, aesthetics and materiality, religion and pedagogy, and postcolonial and neoliberal conditions. The study materials used in this course include original texts by African thinkers, visual sources, and musical compositions.

48 NQF credits at HEQSF level 7

Convener: J Ophoff

Course entry requirements: All second year Information Systems courses.

Objective: It aims to equip the student with crucial problem-solving skills using object-oriented software development techniques, and endeavours to improve technical document writing skills.

Course outline:

This whole year course is for students majoring in Information Systems (IS) to gain an understanding of the issues that are influencing ICT projects and experience the development and implementation of such a project. This course combines the theoretical elements of project management with the practical implementation of these concepts through the completion of a systems development team project, integrating practical and theoretical elements obtained and developed during other undergraduate IS courses. The theoretical parts of this course aim to make the project team experiences more true to life, aiding the development of a project practitioner. Students should be aware that successful project management consists of a sound plan (using project management tools and techniques) and strong people management to direct the plan through to the completion of the project's deliverables. The basis for this development process is an interactive project team environment of learning through experiences and reflection. The practical part of this course involves the application and implementation of these concepts following the full life cycle of a team-based IS project in a real-life setting.

Lecture times: Tuesday, Wednesday and Friday, 3rd and 4th period (first semester only), Thursday, 3rd to 5th period

A. Language and Literature courses and majors

Students are welcome to register for any language taught by the School, whether or not they have studied the language before. The School offers introductory courses in each of its languages. Furthermore the School welcomes not only those who intend to specialise in any of its languages, but also those who would like to get an introduction to a language and/or are not able to fit more than one or two courses into their degree programmes. A student who, within the preceding five years, has passed a relevant language at Matric level with at least a C symbol, 4 at NSC (or a course recognised as equivalent) will not be admitted to the introductory course of that language for degree purposes, unless the Head of Section is satisfied that for some special reason he/she is not able to perform the work of the second-year first-semester course.

Students can major in any one of the following languages: Afrikaans, Arabic, Chinese, French, Italian, Portuguese, Spanish and Xhosa (majors in Latin and Greek are subsumed within Classical Studies). A major in a language gives admission to the Honours course in that language and also meets the requirement for anyone wishing to offer a language as a teaching subject after completion of the Postgraduate Certificate in Education course.

B. Cultural Studies

The School offers courses in the fields of cultural, literary, film and historical studies which can comprise a major in Classical Studies and can be taken as electives. Some combinations of these courses qualify the student for admission into Honours courses. These undergraduate courses are taught and examined in English, but where a student wishes to take a course as part of a language major the School will set assignments and examination questions in the relevant language.

Basic economic concepts such as supply, demand, inflation and unemployment will also be discussed in order to facilitate the understanding of the business strategy choices. Furthermore, current issues of globalisation, entrepreneurship, corporate governance scandals, and the latest strategy headlines will be discussed during lectures.

The marketing component of the course will aim to show how environmental forces shape the firm's marketing strategy. It will allow the students to understand the principles of consumer behaviour, the choices related to the marketing mix, how the firms position their products/services and how they segment the market and identify their target customers.

MUZ2367S WORLDS OF MUSIC II

21 NQF credits at HEQSF level 6

Convener: TBA**Course entry requirements:** A pass in Worlds of Music I.**Course outline:**

The course aims for a critical understanding of the development of musics in societies that experience periods of conflict or upheaval—social, political, religious, ecological, or other kinds—in recent and/or historical times; it is partly a way to consider the extraordinarily violent social, political and ecological disjunctions of the 20th century, and the work of music and musicians in creating both solidarity and division. The course is rooted in a working knowledge of the construction and function of some of the world's most distinctive musics. It involves lectures, readings, videos, sound recordings, works of art in other media, attendance—when possible—at live performances, and student mini-presentations on particular aspects of the work. In the past the course has considered: flamenco in Andalusia and the larger Spanish context; the experiences of Rom musicians in different parts of Europe; the New Song movement (*nueva canción*) in Cuba, Chile, and Argentina; music before and after the Cuban revolution, and after the crisis starting in 1990; Burmese traditional musics since the 1960s; and the music and arts of Aboriginals in Australia. Given the need to master a volume and range of unfamiliar literature, the number of topics is limited.

DP requirements: At least 80% attendance at lectures and the completion of all assignments, projects and tests, including fieldwork and a research paper.

Assessment: Tests and assignments 60%; final examination 40%.

PHI1025F CRITICAL THINKING

18 NQF credits at HEQSF level 5

Convener: Dr G Fried

Course entry requirements: None

Course outline:

Why do we value our beliefs? We value them because we take them to be true and, as true, they are good guides. But how can we tell when a belief is true? Our only handle here is whether or not the belief is justified. So we aim to have beliefs that are justified. The course concentrates on the practical business of appraising justifications. Of course, we all routinely attempt to justify our beliefs and arrive at new beliefs on the basis of supposed justifications. But almost as routinely we are hoodwinked. The course aims to make students better believers by making them more aware of the nature of justification, of the different sorts of justification and the pitfalls of each. At the end of it they will be less gullible and more able to explain just why a particular argument does or doesn't convince them.

Lecture times: Monday, Tuesday, Wednesday 3rd period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

Assessment: Coursework counts 50%; one 2-hour examination in June counts 50%.

24 NQF credits at HEQSF level 6

Convener: Dr J Ritchie**Course entry requirements:** At least second year status.**Course outline:**

The course aims to introduce the students to the epistemological, metaphysical and ethical issues that arise when science is considered from a philosophical perspective. Through the study of philosophers such as Popper, Kuhn and Feyerabend, among others, the following sorts of questions will be discussed: Do scientists employ a special method which sets them apart from non-scientists and gives their claims greater authority? Do electrons, genes and other entities that we can't see or touch really exist? Are scientists inevitably influenced by political and moral agendas or can pure science be value free?

PHI2041S GREAT PHILOSOPHERS

24 NQF credits at HEQSF level 6

Convener: Dr G Fried and Professor B Weiss**Course entry requirements:** PHI1024F and at least second year status.**Course outline:**

This course will introduce students to a selection of philosophy's major figures. The figures chosen may vary from year to year but they will be selected on the basis of their originality, profundity, influence and on the degree to which their works speak to one another. Philosophy often proceeds through an engagement with its past and engaging with one's philosophical inheritance is one of the most rewarding aspects of studying philosophy. This course will ask students to try to understand a set of historical thinkers and writers not as contemporaries who can be presumed to share our philosophical concerns nor yet as merely historical figures; rather we shall try to appreciate the thinker's writings in the context of his own concerns, which may differ significantly from ours. We shall discover that, when properly understood in this way, these thinkers still have relevance.

Lecture times: Monday, Tuesday, Wednesday 4th period.**DP requirements:** Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.**Assessment:** Coursework counts 40%; one 3-hour examination in October/November counts 60%.

This course may also be offered in Summer Term for limited numbers of students - please consult the department.

24 NQF credits at HEQSF level 6

Convener: Dr T Angier

Course entry requirements: At least second year status.

Course outline:

What should our government do for us? Do the rich owe anything to the poor? Should society accept all cultures, or are there limits to tolerance? Is democracy really a good system? What is a just war, and can terrorism be justified? These are some of the questions asked in political philosophy. This course approaches the field in two ways. We choose several great political philosophers from ancient times to the twentieth century, and discuss their aims and arguments. Then we select some areas from contemporary political philosophy, and assess solutions to perpetual or recent problems in these areas.

Lecture times: Wednesday, Thursday, Friday 2nd period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

PHI2044F PHILOSOPHY OF MATHEMATICS

24 NQF credits at HEQSF level 6

Convener: Dr G Fried

Course entry requirements: Second year status and at least 50% for Matric mathematics, or a pass for a MAM course, or a lower intermediate score for the NBT in Quantitative Literacy.

Course outline:

Mathematics – the paradigm of a successful intellectual practice, with highly secure results and many important applications – raises deep philosophical questions. For instance, if mathematical objects (like numbers) are not in time or space, then how can we know anything about these objects, and how can mathematics be of any use in understanding the physical world? Some other questions: Does mathematics have a foundation? What is a good mathematical explanation? In what ways does the discipline of mathematics develop? This course discusses and evaluates major contributions, both historical and current, to the philosophy of mathematics. The intended audience includes students who enjoy more abstract areas of philosophy in general as well as those interested in the significance of mathematics in particular.

PHI2045S PHILOSOPHY OF RACE

(Not offered in 2018)

24 NQF credits at HEQSF level 6

Convener: Dr G Hull

Course entry requirements: At least second year status.

Course outline:

Many of the topics of public debate in contemporary South Africa raise intriguing philosophical questions: Morally speaking, does most of the Western Cape actually belong to the Khoisan? Does being indigenous (if that concept makes sense) give one certain moral rights? Has the achievement of legal equality liberated black people, or would true liberation require the rediscovery of a distinctive identity? What special responsibilities (if any) do formerly advantaged groups have today? This course brings the tools of philosophical argument and analysis to bear on such problems, making use of, e.g., contemporary theories of moral ownership rights and the phenomenon of “epistemic injustice”. In addition, it traces the intellectual ancestry of ideas such as those of Black Consciousness, critically examining the attempts of theorists such as Hegel, Fanon, Césaire and Biko to theorise about oppression, identity, empowerment and the predicament of colonised peoples.

Lecture times: Monday, Tuesday, Wednesday 5th period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

Assessment: Coursework counts 40%; one three-hour examination in October/November counts 60%.

PHI3023F LOGIC AND LANGUAGE

30 NQF credits at HEQSF level 7

Convener: Professor B Weiss**Course entry requirements:** PHI2041S and any one of the other second year PHI courses that count towards the major.**Course outline:**

The philosophical investigation of linguistic meaning came to occupy a pivotal role in philosophy a little over a hundred years ago. The investigation became pivotal because the notion seems deeply perplexing — what sort of relation does a linguistic sign bear to what it represents? how do we form the ability to understand a potential infinity of sentences? — and because, more controversially, it came to seem that we could pursue many other questions in philosophy by looking at how language works. The philosophical focus on language was facilitated by developments in logical theory. The course begins by equipping the student with the technical basis in logic and then builds on this to explore the workings of language.

Lecture times: Tuesday, Wednesday, Thursday, Friday 7th period.**DP requirements:** Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.**Assessment:** Coursework counts 40%; one 3-hour examination in June counts 60%.

PHI3024S METAPHYSICS AND EPISTEMOLOGY

30 NQF credits at HEQSF level 7

Convener: Dr J Ritchie and Dr D Chapman**Course entry requirements:** PHI2041S and any one of the other second year PHI courses that count toward the major, and PHI3023F.**Course outline:**

On one widespread conception, metaphysics is a first-order inquiry into “what there is”, whilst epistemology is second-order inquiry reflecting on “what it takes to know what there is.” But the pursuit of epistemology raises metaphysical questions too: what do our ways of knowing tell us about human nature, and the nature of the world? This course explores some core contemporary issues in both areas of inquiry, and considers the relationship between them. Topics in metaphysics may include contemporary investigations into the nature of the mind, its relations to the body and the external world, as well as the nature of causation, space and time. The course may also include some reflection on how, if at all, metaphysical knowledge is possible. Topics in epistemology may include exploring contemporary debates regarding the conception of knowledge, the structure and nature of epistemic justification, the relationship between reasons and beliefs and the value (if any) of scepticism.

Lecture times: Monday, Tuesday, Wednesday 7th period.**DP requirements:** Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.**Assessment:** Coursework counts 40%; one 3-hour examination in October / November counts 60%.

Humanities students registered prior to 2009 who were unable to gain admission to PSY1001W due to insufficient Matric points or university credits may be admitted to PSY1004F at the discretion of the Head of Department. Returning students from other faculties will not be admitted, unless PSY1004F is required for programme or major purposes.

EDU students must complete MAM1022F and MAM1016S in the first year of study. These students are strongly encouraged to only register for PSY1004F (and PSY1006F) in their second year of study.

3. **Transferring students:**

Transferring students must satisfy the mathematics entrance requirement set out above, as well as the requirement for UCT returning students, i.e. must have passed at least the equivalent of 6 semester courses in the most recent prior year of study at the institution they are transferring from.

4. The Head of the Department of Psychology may admit students who do not satisfy the conditions above.

Professional registration

To become a Psychologist in one of the recognised areas of Psychology, namely Clinical, Counselling, Educational, Organisational, Neuropsychology, Forensic or Research Psychology, a student must complete a recognised Master's degree in Psychology and an appropriate internship at a recognised training institution. The duration of an internship is 12 months. Persons registered from 1 January 2002 have to write an examination set by the Professional Board for Psychology. In addition, to register with the Professional Board for Psychology as a Clinical Psychologist, a one-year period of community service must be completed.

The Department of Psychology at the University of Cape Town provides training leading towards registration in Clinical Psychology. It also offers an MA in neuropsychology, but at the time of printing this does not lead to registration as the Health Professions Council of South Africa has yet to finalise the regulations that will open the register. The School of Management Studies in the Faculty of Commerce provides training leading towards registration in the field of Organisational Psychology.

Mission Statement

The Department of Religious Studies is committed to the study of religions which will contribute to public life in our local, regional, national and continental contexts. It is dedicated to:

- an open, plural, intercultural, and interdisciplinary study of religion in all its forms;
- the in-depth study of African religious traditions;
- the creative and critical analysis of religion as a force in personal, social, economic and political life;

- the promotion of quality education and research in the study of religion as a vital contribution to the transformation and development of South Africa.

The mission statement is implemented through degree specialisations that focus on the broad theme of religion, culture and identity. The Department offers a systematic study of religion in public life, its meaning and significance in South Africa in particular and Africa in general. This broad theme is explored in core courses team-taught by faculty members and also reflected in various research projects and institutes presently housed in the Department.

Core courses provide the thematic, methodological and theoretical foundations for all students who choose to pursue degrees in this department. Additional courses continue this focus within the established areas of specialisation: African Studies, Christian Studies, Comparative Studies, Islamic Studies, Jewish Studies, Buddhism and Critical Theory.

Religion's relationship with media begins with the voice and the text – the written word and the oral tradition of storytelling – as well as with accompanying visual signs. The investment of these means of communication with a sacred power is foundational to both religion and myth. This course will examine some of the foundational elements of oral, written and visual traditions and how the sacred

power inherent in media are interpreted and amplified across cultures into new technological forms such as the printing press, radio, film, television and the internet. Religion has become increasingly textual, densely visual, intensely mediated. We will, for example, analyse religion in its connection with films, videos, and music both within and outside Africa; Japanese popular culture (manga and animated movies, or anime); as well as other instances of religion in and through the media worldwide. Further, we will investigate the diverse and complex relationships between religious theory, practice and media and the technologies that enable their transference. Students taking this course are expected to engage with the different ways in which religion is theorised, interpreted and practiced as a medium of communication and the ways religion is publicised, textualised, mediated and visualised.

Requirements for a Bachelor of Social Work Degree

[HB063]

Professional registration and conduct

Practice in the field of Social Work is regulated by the South African Council for Social Service Professions, with which all Social Workers must register. The Council lays down the minimum standards of both academic and practical training requisite for professional registration, and the Department of Social Development provides training according to these standards. The University offered a 3-year BSocSc degree in Social Work for students who first registered before 2007. These students were required to complete an appropriate Honours degree offered by the Department of Social Development in order to obtain professional registration with the South African Council for Social Service Professions. From 2007, students registered for a 4-year Bachelor of Social Work (BSW) degree in order to obtain professional registration with the South African Council for Social Service Professions.

Students registered for the professional degrees in social work are required by statute to register from their second year of study with the South African Council for Social Service Professions as a student social worker. As such they are bound by the Council's professional code of conduct. Students who do not adhere to this code of conduct may be required to terminate their registration in the Faculty. Should a student in the course of his/her studies or who qualifies for the award of the degree that allows for professional registration with the said Council be deemed unfit to practise as a social worker following a professional assessment, the Dean will report the outcome of such professional assessment to the Council and inform the student accordingly.

24 NQF credits at HEQSF level 6

Convener: TBA**Course entry requirements:** SOC1001F or SOC1005S or any 1000-level social science course.**Course outline:**

There are two objectives in the course. In the first place, we consider the nature of deviance, crime and criminality in South Africa, from both historical and current viewpoints. We consider questions such as: How much crime is there in South Africa? Who are the victims of crime and who are the offenders? Why is crime in South Africa so violent? This discussion will draw freely from international, criminological debate and locate those debates within a developing context. The second objective of the course aims at exploring responses to crime in the South African context. We consider questions such as: What has and is being done by the state and non-state to engage with crime? What is the thinking behind (violent) crime control and prevention programmes and initiatives? How effective have these initiatives been? This discussion will, for instance, focus on crime policies that have been developed as well as community and private sector initiatives to address issues of crime and violence.

30 NQF credits at HEQSF level 7

Convener: Dr A Benya

Course entry requirements: SOC2015S and any other 2000-level course in Sociology, and be in the third or subsequent year of study.

Course outline:

South Africa post-1994 is an integral part of the world globalised economy. This course examines socio-economic issues within this international context, with a particular focus on industrial society, exploring change and continuity in terms of theory, policy and the lived experience of everyday life. What is changing? Where is change coming from? Who is driving change? Who benefits from change? What problems stand in the way of development towards a more just society? Against the background of questions such as these, the issues of industrial society to be examined will be drawn from work, industry, inequality, skills development, social welfare and services, governance, education, alienation, health, and others. The course explores these issues in the context of globalisation, using specific illustrative case study material primarily from South African post-1994 industrial society, while drawing illuminating material from other national and transnational situations.

Lecture times: Tuesday to Friday 5th period.

DP requirements: Completion of all written tests, essays and assignments.

Assessment: Coursework counts 50%; one two-hour examination counts 50% of the final mark.

30 NQF credits at HEQSF level 7

Convener: Professor O Crankshaw

Course entry requirements: Any two 2000-level SOC courses and be in the third or subsequent year of study

Course outline:

This course examines contemporary international debates on the social discourses and practices that perpetuate injustice and inequality and their relevance to understanding South African society. The literature may include debates on the way discourses create centres and margins, resulting in social differences which, in turn, have a significant impact on people's life chances. The literature may also include debates on the changing patterns of urban and rural inequality. Who are the winners and losers in today's society? What are the causes of new patterns of social injustice and inequality? In reading a wide literature, students will be provided with comparative concepts with which they can begin to interpret the emerging patterns of social justice and inequality in South Africa.

Lecture times: Tuesday to Friday 6th period.

DP requirements: Completion of all written tests, essays and assignments.

Assessment: Coursework counts 50%; one two-hour examination counts 50% of the final mark.

DRM1017H THEATRICAL PRODUCTION & STAGECRAFT A

18 NQF credits at HEQSF level 5

Convener: L Ellenbogen

Course entry requirements: This course is compulsory for all students enrolled for the BA Theatre and Performance and the Diploma in Theatre and Performance. Students from the general degrees will be admitted subject to Head of Department's approval, and subject to capacity.

Course outline:

This hands-on, intensely practical course introduces students to selected aspects of theatre production including stage management, properties, costume, lighting and sound. The role and functions of the FOH personnel, stage-manager, props ASM, lighting and sound operator/technicians will be explored and practised in workshops and by assignment on production.

Lecture times: Lectures and practicals scheduled departmentally. Students will also be assigned to between one and three productions for their apprenticeship practicums and attendance will be compulsory at all times stipulated by the nature of the job. This could encompass attendance at rehearsals, performances and in the Little Theatre office, wardrobe and workshops. Participation will generally last for the duration of one production and will therefore be sporadic through the year. Course outline:

In their final year of study in the BMus in Dance programme, students will be required to produce a project in their chosen major. This will be separate from any requirements encompassed in the major course itself and will be a requisite for being awarded the degree of BMus in Dance (Research Stream).

The project will involve research and analysis and culminates in a paper of not less than 8,000 words or the equivalent in notation in the case of BMN or, in the case of a practical major, a public performance, masterclass, or a choreographed work. The student will in all cases deliver a seminar/public lecture on their project topic.

Submission, presentations and performances will be due by 31 October.

DP requirements: None

Assessment: Theoretical component 90%; Oral presentation 10%.
