The University has made every effort to ensure the accuracy of the information in its handbooks. However, we reserve the right at any time, if circumstances dictate (for example, if there are not sufficient students registered), to

- (i) make alterations or changes to any of the published details of the opportunities on offer; or
- (ii) add to or withdraw any of the opportunities on offer.

Our students are given every assurance that changes to opportunities will only be made under compelling circumstances and students will be fully informed as soon as possible.

Guide to the Usage of this Handbook

The following is a general overview of the structure of this Handbook for the guidance of users. The contents are organised in a number of different sections (see below) each of which has a particular focus. The sections are interlinked by cross-references where relevant.

- (a) *General Information:* This section includes information on the professional status and recognition of the Faculty's degrees, its links with professional bodies and the list of qualifications offered. It also includes lists of the various prizes, medals and scholarships awarded on academic merit and contains information on the criteria for the Dean's Merit List.
- (b) *Rules for degrees:* This section covers the Faculty rules for each of the various degree programmes. These rules should be read in conjunction with the general University rules in the General Rules and Policies Handbook (Handbook 3). Students are expected to acquaint themselves with the rules in both Handbooks and to check annually whether the rules or curriculum requirements have changed since the last edition. *Important rules:* All students must familiarise themselves with the Degree Rules in this Handbook. In addition, students must refer to Handbook 3, General Rules and Policies and particularly take note of the following:

- rules relating to registration and examinations;
- rules relating to changes of curriculum;
- rules relating to leave of absence;
- rules on academic conduct, N.B. the rules concerning dishonest conduct and plagiarism.

Detailed information on the undergraduate entrance requirement can be found in the University Prospectus. The PhD Degree rules are published in *Handbook 3, General Rules and Policies*.

- (c) *Departments and Programmes:* This section contains entries for each department in the Faculty. Each lists members of staff, a summary of workshop and other facilities, the research entities, and the programmes of study administered by each department. The curriculum for each programme (list of required courses) is set out in table form. The curriculum tables must be read together with (cross-referenced to) the lists of courses in the Courses Offered section which is described under (e) below.
- (d) *Centres/units established in the Faculty and Centres, Departments, Schools and Units established in other Faculties:* There are entries for the principal Faculty entities/units which do not fall directly under academic departments and entries for the centres, units and departments in other faculties which offer courses for students registered in the Faculty. This is cross-referenced to the list of courses offered in section (e).
- (e) *Courses offered:* The full list and descriptions of courses offered by the Faculty, both undergraduate and postgraduate, is set out in this section in alpha-numeric order (i.e. based on the course code prefix) which identifies the department offering the course and the course number. The courses offered by other faculties which are more commonly taken by students in the Faculty of Humanities are also listed and described. N.B. A key (guide) to the course code system, the credit system and terminology (definitions) is set out at the beginning of this section.

Structure of Course Codes

Every course in this Handbook has a course name and a course code (or catalogue number).

The code structure is uniform and it gives important information about the course. Each code has eight characters, as follows: **AAA1nnnS**, where

AAA	is a 3 alpha-character group identifying the department
1	is a number representing the year of study in which the course is usually taken
nnn	is a 3 character number that identifies the course uniquely
S	is a single alpha-character suffix, giving information about the course

Suffixes which are most frequently used in the Faculty are:

F	First semester course
S	Second semester course
W	Whole-year course
H	Half-course taught throughout the year
Z	Non-standard period

Summer/Winter Term courses:

P	November - December
U	November - January
L	June -July

The following examples show how the codes work:

ELL1013F English Literary Studies

ELL	designates an English course
1	designates a first year course
013	serves to distinguish this course from other first year English courses
F	designates a first semester course

HST2037S Approaches to the Economic History of Africa

HST	designates a History course
2	designates a second year course

Dean's merit list

The Dean's merit list is published annually. It contains the names of students whose academic performance over the year is meritorious (70% average on full course load) and hence worthy of recognition. Students who qualify for inclusion in the list will receive a letter of commendation from the Dean. "Full course load" is interpreted to mean:

- (a) in the case of named degree programmes, the minimum course load prescribed for a particular year of study;
- (b) in the case of general degree programmes, the first year of registration for the degree must include the top 8 semester courses, the second year of registration must include the top 6 semester courses (including the courses for the majors and at least 5 senior semester courses), and the third year of registration must include the remaining courses necessary for the degree.
- (c) In any degree context, a full load minimum taken over the first or second semesters. While available Winter or Summer Term course marks may be added to the calculation if they increase the overall average, they may only do so if they represent credits over and above the prescribed minimum (as defined above).

F18

Credits towards second UCT degree

A student who has completed any course or courses for which credit may be given towards one or more degrees in the University and has obtained one of these degrees may be granted credit(s) and/or exemption(s) in respect of such course(s) towards another degree in the University; provided that no such student shall be admitted to such other degree unless he/she has, in respect of that degree:

- (a) for a three-year degree: registered for at least two years and while so registered, completed at least one half of the courses prescribed for the degree including the final course(s) in his/her major subject(s);
- (b) provided further that the Senate may, in a case considered by it to be exceptional, and on the recommendation of the Board of the Faculty, admit to the degree a student who has only partially complied with the requirements of clause (a).

F19

Concurrent registration

19.1 *At another university:*

Except with the permission of the Senate, a student may not register for any course taken at another university in the same year during which such student is registered at the University of Cape Town.

19.2 *For two succeeding courses:*

Except with the permission of the Senate, concurrent registration for two succeeding courses will not be permitted.

(For further information on concurrent registration, see the *Guideline to the taking of courses at other institutions as part of a UCT degree* at the end of this section.)

F20

Recognition of credits for courses taken at other institutions

Students who are not transferring students will not be allowed to bring credits from elsewhere if they have not attempted the full curriculum at UCT.

Minimum requirements for readmission and promotion:

NOTE:

What this means is that where students have not met the above requirements, the Faculty Examinations Committee will consider whether or not to re-admit them in the following year. The Faculty Examinations Committee may decide not to re-admit such a student, in which case the student will need to appeal via the Faculty Readmission Appeal Committee; or the Faculty Examination Committee may decide to re-admit the student on certain conditions. Each case is unique and considered individually, and the student's full academic record is considered in reaching the decision.

F21 **Minimum requirements for readmission: BA and BSocSc degrees**

21.1 **General and Named Degree Programmes**

Where possible, students will be

expected to register for Summer Term courses in order to fulfil these requirements.

Except with the permission of the Senate, students registered in general degree programmes (with two majors) will be expected to complete all first-year curriculum requirements (including electives) by the end of the second year of study, and all second-year curriculum requirements (including electives) by the end of the fourth year of study. Where possible, students will be expected to register for Summer Term courses in order to fulfil these requirements

21.6 The registration of a student transferring from another faculty or another post-secondary education institution, or who is permitted to register by Senate and who has not met the minimum requirements of Rule 20.1 above, shall be subject to such special conditions as the Senate may prescribe. Except by permission of the Senate, a student who fails to satisfy these conditions shall not be permitted to renew registration in the Faculty.

F22 **Minimum requirements for readmission: Diploma in Theatre & Performance**

22.1 A candidate who fails T&P Studiowork in any year will not be permitted to renew his/her registration for the Diploma in Theatre & Performance without the permission of the Senate. Where such permission is given, the candidate will be required to attend all the classes in T&P Studiowork for that year of study.

24.1 A candidate who does not fulfil the following requirements will not be readmitted to this degree or another degree, except with permission of the Senate:

- (a) A candidate must pass FIN1001W Studiowork 1 by the end of the first year;
- (b) A candidate must pass the FIN1006F and FIN1009S courses by the end of the second year.

Failure to fulfil these requirements will mean that the candidate will not be readmitted to the Faculty and the candidate will be required to pass History of Art 1 through the University of South Africa before being considered for readmission to the Faculty.

If there are extenuating circumstances, Senate may permit the candidate to renew his/her registration on the condition that he/she, after consultation with the Director of the Michaelis School of Fine Art, registers for either:

- Discourse of Art 1 at the University; or
- History of Art 1 through the University of South Africa.

Failure to complete the course by the end of the year for which readmission was granted would mean that the candidate would not be permitted to renew his/her registration in the Faculty until such time as evidence has been submitted that he/she has completed Discourse of Art 1 or an equivalent course.

24.2 Subject to the provisions of Rule F5, a candidate who fails in Discourse of Art 2 course(s) or a BA subject in two consecutive years will only be considered for readmission once he/she has passed the equivalent failed course(s) through the University of South Africa.

- 26.3 A candidate for the BA(FA) degree must achieve a pass mark of 55% for the studiowork option at the end of the second year in order to be admitted to a majoring course in the third year. A candidate who passes in a prospective major area with less than 55% will be required to submit a supplementary body of work as specified by the School which will be examined before registration in the following year.
- 26.4 A candidate for the Higher Certificate in Education in Adult Education (formerly Diploma in Education) shall pass year one of the certificate in order to gain access to year two.

- 27.1 The Faculty will not normally award supplementary examinations.
- 27.2 The Head of the Department may require, on academic grounds, the student to undertake further tests or examinations during the period between the completion of the internal marking process and the finalisation of the results by the external examiner. These further tests or examinations may include the following:
 - (a) an oral examination;
 - (b) a further written examination covering specific sections only of the work of the course;

F28

Absence from examination

If a student does not take a written or practical examination for a course for which he or she is registered in the scheduled and published time, then he or she will be recorded as having been absent from the examination.

20 FACULTY RULES

FB7 Named programmes and Specialisations leading to the BA and BSocSc degrees

- 7.1 The following specialised curricula lead to the BA degree:
 - Film and Media Production
 - Theatre and Performance
- 7.2 The following specialised curricula lead to the BSocSc degree:
 - Philosophy, Politics and Economics
- 7.3 The curriculum requirements for each named degree programme are published in this Handbook. No deviations from these requirements are permitted except in exceptional circumstances and only with permission of Senate.

**Guideline to the taking of courses at other institutions as part of a UCT degree
(see rule F18 above)**

Under limited circumstances, a concession may be granted to complete a course at another institution (concurrent registration). These circumstances include:

- (a) a timetable clash that has occurred as a result of a change made after the student has embarked on study/curriculum;
- (b) a course which is not part of the student's major that has been failed twice before and which cannot be replaced by another elective.

In all cases, the student must obtain permission in advance. In the case of (a) above, consideration will only be given if the course is not offered in Summer Term or Winter Term, or can be taken in another year of full-time study.

In cases where a student has one remaining non-major course to complete the degree requirements and such course has been attempted and failed previously, permission may be given to complete such a course elsewhere to prevent hardship that may arise from having to return especially to complete the sole remaining course. Permission to take a sole remaining course elsewhere must be obtained in advance.

* Entry to these majors is subject to the individual course pre-requisites (NSC subject requirements at specific levels) and compulsory co-requisite subjects (usually some combination of Mathematics, Statistics, Chemistry, Physics) for each major at first-year level. Students wishing to take one of these Science majors should note that with co-requisites most of these Science Faculty majors require more than 8 semester credits in Science subjects. In some majors students will still need to obtain more than the Humanities degree minimum of 20 credits overall, in order to meet the minimum number of Humanities Faculty courses required for the degree (see Rule FB 6.3).

A number of these Science majors have limits on the number of students accepted into second year level courses. Selection criteria, based on academic performance in first year courses, are outlined to students during the first year of study. Students are thus advised to take courses in their first year which could lead to several majors.

Please see entry in the Faculty of Science Handbook.

Students will not be permitted to offer the following combinations of majors:

French and Business French

Jazz Studies and Music

Sociology and Industrial Sociology

EXTENDED GENERAL DEGREES

The Extended Degrees (EDs) in Humanities lead to Bachelor of Arts (BA) or Bachelor of Social Science (BSocSc) degrees. They are for students selected on the basis of tested potential who do not meet entrance requirements for a three-year degree plan, but who show the potential to succeed on a four-year plan with additional academic support. Students who are admitted to a three-year plan and who fail three or more courses in the first semester of their first year may be required to switch to a four-year plan at the beginning of the following semester.

The Extended Degree curricula are planned to run over four years: 6 courses per annum in first, second and third year, and 4 courses per annum in the fourth year; (22 courses in all). In their first year, students need to take and pass at least two foundation courses. Some students may be required to take additional foundation courses depending on their school leaving results and choice of majors. For 1000 and 2000 level courses, ED students must take the augmenting versions of the courses they choose, wherever these are available (augmenting courses provide 2 periods of extra teaching input per week). 80% attendance at all relevant academic support provision is compulsory for all students following an Extended Degree. In their first semester ED students are required to participate in the Faculty's peer-mentorship programme. Participation for a further semester is optional.

After completing the foundational requirements for their chosen degree plan, students follow the rules and requirements for a BA or BSocSc degree, according to their chosen majors.

The sections and faculty in the School share a commitment to research and teaching responsive to African political, social, cultural, and material contexts, and the interaction of those contexts with others, especially but not exclusively located in the global South. The intellectual interests of the proposed new School cohere around questions relating to the production of social, political, cultural, scientific and economic knowledge within the continent of Africa, as a platform for internationally relevant research.

AXL1200S AFRICA: CULTURE, IDENTITY AND GLOBALISATION (was CAS1001S)

NQF credits: 8 at HEQSF level 5

First year, second semester course, one lecture and one compulsory tutorial per week

Convener: Dr H Chitonge

Entrance requirements: This course is for non-Humanities students only and does not count towards Humanities degrees.

Course outline: This is a service course designed specifically for non-Humanities students preparing themselves for life of professional practice. Broad-based and introductory, it is intended to satisfy the Complimentary Studies requirements of professional institutes (like the Engineering Council of South Africa). It does this by focussing on contexts and ideas which will be of direct benefit in professional practice, as well as on more abstract ideas which are generally enriching. The course takes a case-study approach, sampling a range of materials as a way of introducing students to some of the key words and concepts in Humanities-type study. Throughout, the emphasis is in finding readily accessible points of entry into sometimes complex issues and discourses, as well as providing "tools to think with": conceptual tools and an associated critical vocabulary. It does so specifically in the context of post-apartheid South Africa and also of the intensified effects of globalisation.

Lecture times: Friday, 5th period.

DP requirements: Attendance at tutorials is compulsory, failing which students' papers may not be marked.

Assessment: Two assignments count 10% each; one group project counts 30%; one 2-hour examination counts 50% of the final mark.

Please note that this course does not count as a credit towards a Humanities degree.

AXL2200S CULTURE, IDENTITY AND GLOBALISATION IN AFRICA

(was CAS2001S)

NQF credits: 24 at HEQSF level 6

Second year, second semester course, three lectures and one compulsory tutorial per week

Convener: Dr H Chitonge

Entrance requirements: Students must be in their second or subsequent year of study.

Course outline: "Thinking Africa Differently". We have grown used to a particular way of thinking and writing about Africa: a set of images, tropes and ideas; a particular language; a particular version of Africa's place in history; a particular version of Africa's participation in the major movements and phenomena of our time. It is probably fair to describe this as a 'dominant discourse' in the sense that it is constitutive of many of the ideas and images of Africa that circulate in everyday life. We ask the question - which is also a challenge - what it would mean to escape this dominant structure of ideas, to 'think Africa differently'. This is a question with both theoretical and methodological implications. On the one hand, we need a set of strategies and approaches to evade and outwit this dominant discourse. On the other hand, we need a set of guiding ideas, concepts, and the resources of a critical intellectual tradition. In this course we will take a two stage approach, with the aim of drawing together theory and methodology. In the first place, we identify the elements of the dominant discourse as they appear in a set of historical and contemporary phenomena, readings, case studies. In the second place, we propose a set of strategies for countering this discourse, and look at alternative and oppositional forms, traditions, and practices that have emerged and are

emerging.

Lecture times: Tuesday, Wednesday, Thursday, 6th period.

DP requirements: None

Assessment: Two assignments count 10% each; one group project counts 30%; one 2-hour examination counts 50% of the final mark.

Note: Attendance at department seminars is compulsory, failing which students' papers may not be marked.

AXL1400F WORDS, DEEDS, BONES AND THINGS (was SAN1015F)

NQF credits: 18 at HEQSF level 5

First year, first semester course, three lectures and one tutorial per week

Convener: Dr D Fuh

Entrance requirements: None

Course outline: How might one explain the beginnings of our species and diversity of human social, cultural and linguistic forms that have arisen as humans have developed into and now live as modern people? The course compares approaches taken by archaeologists, linguists and social-cultural anthropologists in their attempts to answer such questions. We delve into what lies behind the many ways people interact, communicate and use the material resources around them. Using examples from a wide variety of social, cultural, linguistic and ecological contexts, we address debates about the idea of human evolution; about the relation between nature and nurture and its links with concepts such as race, gender and kinship; and about the social-cultural underpinnings of language use and linguistic variations. A core theme is to understand and recognise the limitations of a cultural relativist approach. A core goal is to introduce students to critical academic skills that enable us to understand the bases on which new knowledge is developed and thereby to recognise how provisional knowledge is.

Lecture times: 1st period.

DP requirements: Attendance at tutorials and submission of all written work, plus class test.

Assessment: Continuous assessment (essays, projects, class tests) counts 50%; one two-hour examination counts 50%, provided a sub-minimum mark of 50% is attained for the examination **and** that at least half the examination questions required to be answered have been awarded marks of 50% or more.

AXL2100F GENDER, SEXUALITY AND POLITICS: DEBATES IN CONTEMPORARY AFRICAN CONTEXTS (was AGI2002F)

NQF credits: 24 at HEQSF level 6

Second year, first semester course, four contact periods a week

Convener: Dr H Scanlon

Entrance requirements: 2nd year status

Course outline: This course explores debates around gender and sexualities as a way both of deepening knowledge about the politics of gender continentally, and of exploring the complexity of different African contexts' engagement with broad discussions on sexual rights. The course is divided into two sections which broadly focus on South Africa, Zimbabwe and Uganda. The first section addresses concepts on gender and sexualities through an examination of how sexualities were remade as a result of colonial conquest as well as how debates over gender and sexualities shifted post-'independence'. The second section looks at contemporary debates in gender politics and sexualities. These include debates of the (de)criminalization of sex work, culture and sexuality, reproductive health rights and sexual rights, and gender and the media.

Lecture times: 3rd period.

DP requirements: Students are expected to attend all classes, and to submit all required assignments by deadlines identified in the course curriculum.

Assessment: One two-hour examination in June counts for 50%; classwork counts for 50%.

The course will offer an introduction to debates around the gendered impact of different economic and political development trajectories, and policies, such as industrialization, agricultural transformations, democratisation, and contemporary structural adjustment programmes. Case studies drawn from different regions and contexts will be used to illustrate the theoretical debates, including those distinguishing “women in development” approaches from “gender and development” approaches.

Lecture times: 3rd period.

DP requirements: Completion of all semester coursework by deadlines as specified on the course curriculum.

Assessment: One two-hour examination in October/November counts for 40%; classwork counts for 60% of the final mark.

NQF credits: 24 at HEQSF level 6

Second year, second semester course, four contact periods a week

Convener: Dr H Scanlon

Entrance requirements: 2nd year status

Course outline: This course introduces how to read history with a ‘gender lens’ so that we can see how social relations are ordered, how power relations are constructed, and how identities are played out at particular moments and how they change over time. The course is divided into two parts. The first section explores the gendered nature of colonial and nationalist practices in Southern and West Africa. The second section examines the emergence of feminist ideas and social movements as well as key developments of gendered identities in Europe including discussions around sexuality in Victorian Britain and the links between gender and nationalism in Nazi Germany.

Lecture times: 2nd period.

DP requirements: Completion of all semester coursework by deadlines as specified in course curriculum.

Course outline: In this course we will examine how women’s movements have emerged in the context of struggles against other forms of social injustice and have informed theories about gendered oppression. Focussing on women’s and feminist movements mainly in the South and East, the course examines how feminist theories have not only been shaped by the specificities of the local contexts and struggles; but also how they have been shaped by the global flow of information about women’s and queer movements elsewhere. In addition, we examine how the questions that feminists

and women activists have raised have destabilised the taken-for-granted assumptions about masculinities. We will also take a brief look at the construction and multiple meanings of sexuality and masculinities, especially in African contexts. The course is designed to acquaint students with literature about women's and feminist movements in the non-western world. It encourages students to think critically about the relationship between theories and practice, as well as about the applicability of feminist theoretical concepts across diverse contexts. Coursework is also designed to develop students' writing and seminar presentation skills.

Lecture times: 4th period.

DP requirements: Completion of all written coursework by deadlines as specified on course curriculum.

Lecture times: 4th period.

DP requirements: Completion of all semester coursework and research assignments by deadlines as specified within the course curriculum.

Assessment: One two-hour examination in October/November counts for 50%; coursework counts for 50% of the course mark.

Introduction

The development by human beings of the power to communicate with one another by means of language, and their subsequent and continuing co-operative use of that power in transforming the world they live in, are among the most significant determinants of the human condition. Scholars have been inquiring into the origins, history, mechanism, structure and social roles of language and languages since the very beginnings of the intellectual tradition. Courses in this section not only offer an introduction to the range of such inquiries and an opportunity to participate in them, but above all foster the idea that an attempt to grasp the nature of language is an indispensable part of any serious attempt to understand what it is to be human.

The African Gender Institute supports research and networking whose specific goal is the transformation of the political dynamics of gender and sexuality, within African contexts, as part and parcel of an overarching commitment to the economic, environmental, political, cultural, and social resilience and self-sustainability of continental communities. The AGI runs programmes in four areas: feminist processes and practices within e-technology, conflict and peace activism, sexual and reproductive rights, and gender and economic entrepreneurship. Each programme area runs projects which combine research with capacity-building, public intellectual debate, and resource development.

The Centre was constituted in 1976 and built on the work of the School of African Studies which had been in existence for over fifty years and was one of the oldest in the world. Current scholarship takes place within the context of the mission of CAS, which promote scholarship in the various fields concerned with people in Africa. The brief remains focused on providing a critical comparative perspective between Southern Africa, Africa, and the globalizing world. The mission remains urgent, given the longstanding and continuing dominance of Western models and discourses. The Centre houses research projects, organizes a range of seminars, conferences, and talks, and runs a gallery open to a wide variety of cultural performances.

Research Chairs

Professor C Hamilton - Archive and Public Culture:

Professor Hamilton was recruited to this position in view of the strategic significance of the country's archival estate for the national priority of developing social cohesion. The appointment was made in view of UCT's already significant investments and achievements, across a number of disciplines, in critical archival engagements, archive curation projects and collaborations with public culture institutions, including collaborations in heritage training carried out in partnership with the University of the Western Cape.

Contact details: Carolyn.Hamilton@uct.ac.za or 021 650 4506.

Professor R Mesthrie - Migration, Language and Social Change:

Professor Mesthrie was appointed to this position in view of the significance of Sociolinguistics in understanding heritage, culture and social change in a multilingual society. The chief focus of the research chair will be on migration, language and social change, examining sociolinguistic practices "from below" in relation to the fostering of multilingualism, the further intellectualisation of local languages and the continuing prestige of English. Professor Mesthrie will continue as President of the Linguistics Society of Southern Africa.

Contact details: rajend.mesthrie@uct.ac.za or 021 650 5236.

Professor L Ntsebeza - Land Reform and Democracy in South Africa: State and Civil Society Dynamics:

Professor Ntsebeza is a UCT Principal Researcher in a major joint research project involving UCT and the Human Sciences Research Council. This project focuses on the Land Reform programme in South Africa with specific reference to the land rights of rural women. He continues to lead this project and uses it as a base to develop and highlight the importance of conducting research on the land question, a topic that is often marginalised in South Africa.

What lies behind the linguistic map of modern South Africa? What are the links between human biology, culture and language? We use the archaeological record of artefacts, settlement systems, food waste, environmental contexts and human skeletons to look at population movement, assimilation, conflict, co-operation and domination. We explain the origins of current demographic patterns, problematise the notion of 'settler' and explore the rich and diverse heritage of the making of South Africa.

Lecture times: 4th period.

DP requirements: Attendance at lectures and practicals, completion of assignments.

Assessment: Assignments and class tests count 50% towards the final mark and one 3-hour examination written in June counts 50%. A sub-minimum of 40% is required for the examination.

AGE3012S GLOBAL INTERACTION AND THE TRANSFORMATION OF SOUTHERN AFRICAN SOCIETY

NQF credits: 36 at HEQSF level 7

Third year, second semester course

Convener: Dr S Hall

Entrance requirements: AGE2012F or AGE2011S, or by permission of the Head of Department.

Course outline: Over the last thousand years, trade, population movements and exploratory settlement led to massive impacts on indigenous economies in southern Africa. In AGE3012S we look at these transformations from both foreign and local viewpoints. The archaeological record of Indian and Atlantic Ocean expansions record events of great significance and drama, including the process of colonisation, slavery, genocide and eventually apartheid. Material culture, historic written records and excavated artefacts all inform our understanding of these events, many of them the major determinants of current conflicts and differences. We trace the history of interactions, the roots of inequalities and the course of differentiation through the archaeological record.

Academic and professional courses:

First, the department offers the programme in Theatre and Performance, which equips students with the necessary skills in acting and theatre making to enable them to pursue professional careers in the theatre and related fields such as film, television, advertising and teaching. Qualifications within this programme are (a) a four-year BA in Theatre and Performance, and (b) a three-year Diploma in Theatre and Performance.

Second, for students who want to study Drama and Theatre but do not wish to become theatre professionals, the department offers an undergraduate programme which covers the academic subject Drama at first-, second- and third-year levels, and one course (two half-courses) in Stagecraft.

Third, at a postgraduate level, the department offers an Honours degree in Drama, a Master's degree in Applied Drama and Theatre Studies, Theatre Making and Theatre Practice, and a Master's degree or PhD by dissertation which may include some practical work.

An outline syllabus for the drama major follows hereunder. All students taking Drama courses or Stagecraft should note that a degree of experiential learning through practical classwork combined with research is a requirement of these courses.

Courses in dance, music, film and media and/or the fine arts and art history are a strong recommendation. This should be followed by the PGCE in the School of Education. Teaching can also be studied in Drama Honours.

Transferring from the Diploma to the BA in Theatre and Performance:

Under certain conditions it is possible for candidates who meet the degree entrance requirements to swap from the Diploma to the BA in Theatre and Performance degree.

NOTE: In all courses modification may be made to the syllabus within the general framework set out here.

- ii) A candidate wishing to register for a physically demanding course under circumstances of medical constraint may be advised against such a registration if the department judges that the course presents some degree of physical risk.
- iii) A candidate who registers for physically demanding courses against the advice of the department does so at their own risk, and in the understanding that, with every effort made to accommodate their physical constraints, they may nonetheless be unable to benefit from a full experience of the course.

Non-specified choices of academic elective:

Provided the timetable allows, candidates who can provide justifiable grounds for wishing to take additional elective academic courses, may receive permission to do so from the Head of Department.

Transferring to other programmes:

Candidates who find after all that they are unsuited to the Programme in Theatre and Performance, may transfer to the BA or BSocSc general degrees or to other programmes at the beginning of the second semester of first year, and at the end of the first year. Students also choose from a menu of seminars that run parallel to the lecture series described above.

Through a series of lectures and exercises, students receive hands-on instruction in the art of radio production, including audio recording (using analogue and digital field recorders), interviewing for radio, storytelling, scripting (writing for radio), and digital audio editing. This introductory course exposes students to a wide variety of radio programmes to develop critical listening skills, and works toward expanding knowledge of radio practices and processes. The course is designed for the media student who wishes to pursue a career in radio journalism. As such, this is not a course for those interested in audio engineering. While the technical aspects of radio are pursued and a range of technologies are used in the course, the focus is more on radio journalism (versus Dj'ing, engineering, presenting, etc).

Course outline: This course introduces students to essential technical, practical and conceptual skills and knowledge required to develop and publish interactive media on the Web. Students design, create and assemble standards-compliant websites and create designs from original visual materials such as photographs, type, and simple interactive and animated components. Students will be given an overview of the principles and concepts needed for working with the major components of digital media (image, text, video, and audio) and will be introduced to some key applications needed for producing Web-based media. Digital photography, typography and layout for the web are taught at an introductory level.

Students learn the importance of Web standards and the necessity of separating structure from design, and are expected to master coding in web languages such as HTML and CSS. The course centres on producing and maintaining a standards-compliant portfolio website, and designing a multimedia feature which includes original still photography, feature writing, and a logo design. Several shorter exercises require students to demonstrate skills in advanced customisation of a Content Management System (Wordpress), to understand their options in relation to publishing online video, live-blogging and live-tweeting and optimising content and microcontent for search engines. The skills learnt on this course will be developed further in third year Interactive Media Production (which focuses on interaction design and basic programming concepts) and the Senior Research Project (which allows students to select an area of focus in the broader field of interactive

In the second year of study a candidate is required to take two courses, one of which will form the major subject to be carried through into fourth year.

2.2 *Core Practice*

A candidate must complete FIN2026W Core Practice 2 in the second year. Core Practice 2 is a full studiowork course for promotion and distinction purposes.

2.3 *Studiowork 3 Elective*

In the third year of study a student is required to take one Studiowork course which will be the major subject carried to the fourth (final) year of study, and two Studiowork 3 Electives which will be the senior subject. The major Studiowork course will take up two-thirds of the available studiowork time and the senior, one-third of the available studiowork time.

Two from the following, subject to availability:

- Videography,
- Animation and motion graphics,
- Curatorship,
- Lithography and screen-printing,
- Physical computing,
- Social responsibility,
- Computer-aided design,
- Historical photographic processes

FBB3 **Examinations:**

There is an ordinary University examination at the end of each course. First, second and third year projects will be allocated marks at the mid-year examination. These marks will count 50% towards the final examination mark.

FBB4 **Publication or exhibition of work:**

A student

- (a) wishing to exhibit in a public or private gallery, enter in a competition, or publish any work must consult the Director of the Michaelis School of Fine Art or his/her nominee before doing so;
- (b) may not exhibit in a public or private gallery, enter in a competition, or publish any work done at the School as part of the work of the course, or under supervision, or that is to be submitted for examination, without the prior written approval of the Director of the School;
- (c) may not without the permission of Senate submit for examination any work that has been exhibited, published or submitted as an entry in a competition without such prior written permission; and
- (d) may not exhibit in a public or private gallery, enter in a competition, or publish any work done at the School as part of the course, or under supervision, or that has been submitted for examination, within a two-year period of obtaining the degree without making due acknowledgements to the University and School.

No publication or exhibition by a candidate may, without prior permission of the University, contain a statement that the published or exhibited material was or is to be submitted in part or full for this degree.

FBB5 **Degree specific requirements for selection:**

Admission to the programme is limited. Students are admitted on the basis of a portfolio of creative work and NSC results, and NBT scores. Details of the selection criteria are published annually.

FBB6 **Degree specific requirements for promotion:**

- 6.1 A candidate must complete FIN1001W Studiowork 1 and have permission of the Director of the School before admission to any second-year Studiowork course. A minimum of 55% is required in any FIN1001W studiowork subject area in order for a student to proceed with the second year studiowork course option in that area. A candidate who fails to meet this requirement will require special permission

from the Programme Convener and from the Director of the School to proceed in that area.

- 6.2 A candidate must complete FIN1005W Fine Art Foundation and all Studiowork courses of the second year before admission to the third year.
- 6.3 A candidate must complete both Studiowork courses of the third year before admission to the fourth year.
- 6.4 A candidate must achieve a pass mark of 55% for the Studiowork option at the end of the second year in order to be admitted to a majoring course in the third year. A candidate who passes in a prospective major area with less than 55% will be required to submit a supplementary body of work as specified by the School which will be examined before registration in the following year.

FBB7 Degree specific minimum requirements for readmission:

- 7.1 (a) A candidate must pass FIN1001W Studiowork 1 by the end of the first year;
- (b) A candidate must pass the FIN1006F and FIN1009S courses by the end of the second year.

Failure to fulfil these requirements will mean that the candidate will not be readmitted to the Faculty and the candidate will be required to pass History of Art 1 through the University of South Africa before being considered for readmission to the Faculty. If there are extenuating circumstances, Senate may permit the candidate to renew his/her registration on the condition that he/she, after consultation with the Director of the Michaelis School of Fine Art, registers for either:

- Discourse of Art 1 at the University; or
- History of Art 1 through the University of South Africa.

Failure to complete the course by the end of the year for which readmission was granted would mean that the candidate would not be permitted to renew his/her registration in the Faculty until such time as evidence has been submitted that he/she has completed Discourse of Art 1 or an equivalent course.

- 7.2 Subject to the provisions of Rule F5, a candidate who fails in Discourse of Art 2 course(s) or a BA subject in two consecutive years will only be considered for readmission once he/she has passed the equivalent failed course(s) through the University of South Africa.

FBB8 Degree specific rules for distinction:

Courses considered for purposes of distinction must have been taken at UCT or at an exchange partner institution. Courses passed for credit from other tertiary institutions are not considered for purposes of distinction.

This shall be based on a mark of 85% or higher in the major Studiowork option taken in the fourth year of study. The degree will be awarded as BA(FA) with distinction in Fine Art 4.

8.3 Award of degree with distinction in Discourse of Art

This shall be awarded to a candidate who obtains first-class passes in FIN2027F and FIN2028S, and FIN3026F and FIN3027S. The degree will be awarded as BA(FA) with distinction in Discourse of Art.

Curriculum

The Curriculum requires a minimum of 25 semester courses or the equivalent.

Humanities qualifying courses:

- Approved non-FIN Humanities courses may be taken at any time before, during or after Fine Art courses are taken. However candidates are advised to enrol for their non-FIN Humanities qualifying courses concurrently with their Fine Arts Studiowork courses during their first three years of study thus allowing them to complete all the non-Studiowork qualifying subjects by the end of their third year of study.

Entrance requirements: At least 2 courses at 1000-level and 2 courses at 2000-level in historical, cultural studies or social science offered by the Faculty of Humanities, or by permission of the Head of Department.

South African and international historical literature will be used to develop comparative case studies on trauma and memory in the post-authoritarian countries such as South Africa, Rwanda and post-war Germany. A central theme linking these diverse case studies is the impact of traumatic experiences on the making of life, community and national histories, and the significance of reconciliatory processes such as the TRC and *gacac*. HST3038F ECONOMIES OF FEASTS AND ECONOMIES OF FAMINE: HISTORIOGRAPHIES OF ECONOMIC HISTORY

NQF credits: 30 at HEQSF level 7

First semester course, 3 lectures per fortnight, 8 seminars, 4 quantitative tutorials

Convener: Professor A Mager

Entrance requirements: For students completing the major in Economic History, ALL of the following are required: HST1005F, HST2028F, HST2037S. For students taking the course as an elective, at least ONE of the following courses is required: HST1005F, HST2028F, HST2037S.

Course Outline: This course is concerned with famines, approaches to hunger, poverty and inequality, and the institutions that societies establish to remedy these maladies. Food insecurity, death from starvation, and ‘feasts for a few’ are associated in the twentieth century with developing economies where discourses of poverty, welfare and development promote varying remedies, more or less informed by ideology, self-interest or economic theory. Thus analyses of poverty, wealth and famine require an understanding of the ways in which developmental theories and economic policies have been applied in specific contexts and of the institutional arrangements through which these practices have been exercised. The course is skills-intensive and includes tutorials on quantitative reasoning, historiography and comparative analysis.

Lecture time: Meridian

DP requirement: None

Assessment: Course work counts for 50% of the final mark and a two hour examination at the end of the semester counts for the remaining 50%.

Students are welcome to register for any language taught by the School, whether or not they have studied the language before. The School offers introductory courses in each of its languages. Furthermore the School welcomes not only those who intend to specialise in any of its languages, but also those who would like to get an introduction to a language and/or are not able to fit more than one or two courses into their degree programmes. A student who, within the preceding five years, has passed a relevant language at Matric level with at least a C symbol, 4 at NSC (or a course recognised as equivalent) will not be admitted to the introductory course of that language for degree purposes, unless the Head of Section is satisfied that for some special reason he/she is not able to perform the work of the second-year first-semester course.

Students can major in any one of the following languages: Afrikaans, Arabic, French, Hebrew, Italian, Spanish and Xhosa (majors in Latin and Greek are subsumed within Classical Studies). A major in a language gives admission to the Honours course in that language and also meets the requirement for anyone wishing to offer a language as a teaching subject after completion of the Postgraduate Certificate in Education course.

B. Cultural Studies

The School offers courses in the fields of cultural, literary, film and historical studies which can comprise a major in Classical Studies and can be taken as electives. Some combinations of these courses qualify the student for admission into Honours courses. These undergraduate courses are taught and examined in English, but where a student wishes to take a course as part of a language

major the School will set assignments and examination questions in the relevant language.

Entrance requirements: Students must have at least a D symbol in English First Language Higher Grade, or a pass (level 4) in the NSC. Students who do not meet this entry requirement may be admitted with the permission of the Head of Department.

Course outline: Why do we value our beliefs? We value them because we take them to be true and, as true, they are good guides. But how can we tell when a belief is true? Our only handle here is whether or not the belief is justified. So we aim to have beliefs that are justified. The course concentrates on the practical business of appraising justifications. Of course, we all routinely attempt to justify our beliefs and arrive at new beliefs on the basis of supposed justifications. But almost as routinely we are hoodwinked. The course aims to make you a better believer by making you more aware of the nature of justification, of the different sorts of justification and the pitfalls of each. At the end of it you will be less gullible and more able to explain just why a particular argument does or doesn't convince you.

Lecture times: 3rd period.

PHI2041S GREAT PHILOSOPHERS

NQF credits: 24 at HEQSF level 6

Second year, second semester course, three lectures and one tutorial per week

Conveners: Professor B Weiss and Dr G Fried

Entrance requirements: PHI1024F and at least second year status.

Course outline: This course will introduce you to a selection of philosophy's major figures. The figures chosen may vary from year to year but they will be selected on the basis of their originality, profundity, influence and on the degree to which their works speak to one another. Philosophy often proceeds through an engagement with its past and engaging with one's philosophical inheritance is one of the most rewarding aspects of studying philosophy. This course will ask you to try to understand a set of historical thinkers and writers not as contemporaries who can be presumed to share our philosophical concerns nor yet as merely historical figures; rather we shall try to appreciate the thinker's writings in the context of his own concerns, which may differ significantly from ours. We shall discover that, when properly understood in this way, these thinkers still have relevance.

Lecture times: 4th period.

(NOTE: This course may also be offered in Summer Term - please consult the Faculty.)

Second year, first semester course, three lectures and one tutorial per week

Convener: Dr G Hull

Entrance requirement: At least second year status.

Course outline: What should our government do for us? Do the rich owe anything to the poor? Should society accept all cultures, or are there limits to tolerance? Is democracy really a good system? What is a just war, and can terrorism be justified? These are some of the questions asked in political philosophy. This course approaches the field in two ways. We choose several great political philosophers from ancient times to the twentieth century, and discuss their aims and arguments. Then we select some areas from contemporary political philosophy, and assess solutions to perpetual or recent problems in these areas.

Lecture times: 2nd period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

We will consider a range of problems, from issues that could arise in your first job to questions of business regulation that you may one day face as a leader in commerce or government. In each case, the course will challenge and assist you to recognise ethical problems in practical situations, understand the possible solutions, and make reasoned decisions.

NQF credits: 24 at HEQSF level 6

Second year, first semester course, three lectures and one tutorial per week

Convener: Dr G Fried

Entrance requirements: Second year status and at least 50% for Matric mathematics, or a pass for a MAM course, or a lower intermediate score for the NBT in Quantitative Literacy.

Course outline: Mathematics – the paradigm of a successful intellectual practice, with highly secure results and many important applications – raises deep philosophical questions. For instance, if mathematical objects (like numbers) are not in time or space, then how can we know anything about these objects, and how can mathematics be of any use in understanding the physical world? Some

other questions: Does mathematics have a foundation? What is a good mathematical explanation? In what ways does the discipline of mathematics develop? This course discusses and evaluates major contributions, both historical and current, to the philosophy of mathematics. The intended audience includes students who enjoy more abstract areas of philosophy in general as well as those interested in the significance of mathematics in particular.

Lecture times: 1st period.

PHI2045S PHILOSOPHY OF RACE

NQF credits: 24 at HEQSF level 6

Second year, second semester course, three lectures and one tutorial per week

Convener: Dr G Hull

Entrance requirements: At least 2nd year status.

Course outline: Many of the topics of public debate in contemporary South Africa raise intriguing philosophical questions: Morally speaking, does most of the Western Cape actually belong to the Khoisan? Does being indigenous (if that concept makes sense) give you certain moral rights? Has the achievement of legal equality liberated black people, or would true liberation require the rediscovery of a distinctive identity? What special responsibilities (if any) do formerly advantaged groups have today? This course brings the tools of philosophical argument and analysis to bear on such problems, making use of, e.g., contemporary theories of moral ownership rights and the phenomenon of “epistemic injustice”. In addition, it traces the intellectual ancestry of ideas such as those of Black Consciousness, critically examining the attempts of theorists such as Hegel, Fanon, Césaire and Biko to theorise about oppression, identity, empowerment and the predicament of colonised peoples.

Lecture times: 2nd period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

PHI3023F LOGIC AND LANGUAGE

NQF credits: 30 at HEQSF level 7

Third year, first semester course, three lectures and one tutorial per week

Convener: Professor B Weiss

Entrance requirements: PHI2041S and any one of the other second year PHI courses that count towards the major.

Course outline: The philosophical investigation of linguistic meaning came to occupy a pivotal role in philosophy a little over a hundred years ago. The investigation became pivotal because the notion seems deeply perplexing — what sort of relation does a linguistic sign bear to what it represents? how do we form the ability to understand a potential infinity of sentences? — and because, more controversially, it came to seem that we could pursue many other questions in philosophy by looking at how language works. The philosophical focus on language was facilitated by developments in logical theory. The course begins by equipping you with the technical basis in logic and then builds on this to explore the workings of language.

Lecture times: 7th period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

Assessment: Coursework counts 40%; one 3-hour examination in June counts 60%.

PHI3024S METAPHYSICS AND EPISTEMOLOGY

NQF credits: 30 at HEQSF level 7

Third year, second semester course, three lectures and one tutorial per week

Convener: Dr J Ritchie

Entrance requirements: PHI2041S, and any one of the other second year PHI courses that count toward the major, and PHI3023F.

Course outline: On one widespread conception, metaphysics is a first-order inquiry into “what there is”, whilst epistemology is second-order inquiry reflecting on “what it takes to know what there is.” But the pursuit of epistemology raises metaphysical questions too: what do our ways of knowing tell us about human nature, and the nature of the world? This course explores some core contemporary issues in both areas of inquiry, and considers the relationship between them. Topics in metaphysics may include contemporary investigations into the nature of the mind, its relations to the body and the external world, as well as the nature of causation, space and time. The course may also include some reflection on how, if at all, metaphysical knowledge is possible. Topics in epistemology may include exploring contemporary debates regarding the conception of knowledge, the structure and nature of epistemic justification, the relationship between reasons and beliefs and the value (if any) of scepticism.

Lecture times: 7th period.

DP requirements: Regular attendance at lectures and tutorials; completion of all tests, submission of all essays and assignments by due dates, and an average mark of at least 35% for the coursework.

Assessment: Coursework counts 40%; one 3-hour examination in October / November counts 60%.

POL3013S SOUTH AFRICA POLITICAL THOUGHT & TRADITIONS

NQF credits: 30 at HEQSF level 7

Convener: Associate Professor A Nash

Entrance requirements: POL2002S or two POL 2000-level courses, or with special permission from the Head of Department.

Course outline: This course provides a survey of the main developments in South African political thought since the beginning of the twentieth century, beginning with competing visions for a unified South Africa after the discovery of gold. It examines a range of political thinkers—some of them, like Gandhi, Verwoerd or Mandela also major political actors; others less well known—and a range of texts from different periods. It is intended to give students an understanding of the main political traditions in modern South Africa, and how they have interacted and developed. In the 18th and 19th centuries, revolutions in science, philosophy and politics disrupted the Jewish world and forced its leadership to reconsider its relationship with the surrounding world. Judaism was under great pressure to reform and adjust to new enlightenment values that questioned Jewish identity and religious practices. In the 20th century, those revolutionary movements met with a profoundly retrogressive reaction in fascism, which threatened the very existence of Judaism and Jewish life.

Professional registration and conduct

Practice in the field of Social Work is regulated by the South African Council for Social Service Professions, with which all Social Workers must register. The Council lays down the minimum standards of both academic and practical training requisite for professional registration, and the Department of Social Development provides training according to these standards. The University offered a 3-year BSocSc degree in Social Work for students who first registered before 2007. These students were required to complete an appropriate Honours degree offered by the Department of Social Development in order to obtain professional registration with the South African Council for Social Service Professions. From 2007, students registered for a 4-year Bachelor of Social Work (BSW) degree in order to obtain professional registration with the South African Council for Social Service Professions.

Students registered for the professional degrees in social work are required by statute to register from their second year of study with the South African Council for Social Service Professions as a student social worker. As such they are bound by the Council's professional code of conduct. Students who do not adhere to this code of conduct may be required to terminate their registration in the Faculty. Should a student in the course of his/her studies or who qualifies for the award of the degree that allows for professional registration with the said Council be deemed unfit to practise as a social worker following a professional assessment, the Dean will report the outcome of such professional assessment to the Council and inform the student accordingly.

SOC3029S INDUSTRIAL SOCIETY & CHANGE

NQF credits: 30 at HEQSF level 7

Convener: Professor A Sitas

Entrance requirements: See prerequisites under *Requirements for a major*

Course outline: South Africa post-1994 is an integrated part of the world globalised economy. This course examines socio-economic issues within this international context, with a particular focus on industrial society, exploring change and continuity in terms of theory, policy and the lived experience of everyday life. What is changing? Where is change coming from? Who is driving change? Who benefits from change? What problems stand in the way of development towards a more just society? Against the background of questions such as these, the issues of industrial society to be examined will be drawn from work, industry, inequality, skills development, social welfare and services, governance, education, alienation, health, and others. The course explores these issues in the context of globalisation, using specific illustrative case study material primarily from South African post-1994 industrial society, while drawing illuminating material from other national and transnational situations.

Lecture times: 5th period.

DP requirements: Completion of all written tests, essays and assignments.

Assessment: Coursework counts 50%; one two-hour examination counts 50% of the final mark.

SOC3031S SOCIAL JUSTICE AND INEQUALITY

NQF credits: 30 at HEQSF level 7

Convener: Professor O Crankshaw

Entrance requirements: See prerequisites under *Requirements for a major*

Course outline: This course examines contemporary international debates on the social discourses and practices that perpetuate injustice and inequality and their relevance to understanding South African society. The literature may include debates on the way discourses create centres and margins, resulting in social differences which, in turn, have a significant impact on people's life chances. The literature may also include debates on the changing patterns of urban and rural inequality. Who are the winners and losers in today's society? What are the causes of new patterns of social injustice and inequality? In reading a wide literature, students will be provided with comparative concepts with which they can begin to interpret the emerging patterns of social justice and inequality in South Africa.

Lecture times: 6th period.

DP requirements: Completion of all written tests, essays and assignments.

Assessment: Coursework counts 50%; one two-hour examination counts 50% of the final mark.

PBL2800F CRIME AND DEVIANCE IN SOUTH AFRICAN CITIES

NQF credits: 24 at HEQSF level 6

Conveners: J Berg and Professor E van der Spuy

Entrance requirements: SOC1001F or SOC1005S or any 1000-level social science course.

Course outline: There are two objectives to the course. In the first place we consider the nature of deviance, crime and criminality in South Africa, from both a historical and current viewpoint. We consider questions such as how much crime is there in South Africa. Who are the victims of crime and who are the offenders and why is crime in South Africa so violent? This discussion draws freely from international criminological debate and locates those debates within a developing context. The second objective of the course aims at exploring the responses to crime in the South African context. We consider questions such as what has and is being done to engage with crime. What is the thinking behind (violent) crime control and prevention programmes and initiatives? How effective have these initiatives been? This discussion will, for instance, focus on crime policies that have been developed as well as community and private sector initiatives to address issues of crime and violence.

Lecture times: 6th period.

DP requirements: Completion of all written tests, essays and assignments.

Assessment: Coursework counts 50% and includes a class test (20%), and essay (20%) and continuous online assessments (10%); one two-hour examination counts 50% of the final mark.
