*The academic staff are listed in departmental entries in the faculty handbooks.*

*The academic calendar is published separately as Handbook 4, Academic Calendar & Meetings and on the web at: <http://www.uct.ac.za/calendar/>*

We make every effort to ensure the accuracy of the information in our handbooks. However, we reserve the right at any time, if circumstances dictate (for example, if there are not sufficient students registered), to

- (i) make changes to any of the opportunities on offer; or
- (ii) add to or withdraw any of the opportunities on offer.

We give students every assurance that changes to opportunities will only be made under compelling circumstances and that we will inform students fully as soon as possible.

# GENERAL INFORMATION

## Historical Sketch

Founded as the South African College in 1829, the University was established as the University of Cape Town in 1918.

The institution established in Cape Town in 1829 was a boys' school that aimed to provide higher education as well. The early history was one of great expectations and hard times, and it was not until the early years of the twentieth century that the University-to-be developed into a fully-fledged tertiary institution. University status was conferred in 1918. A significant and pioneering development in the 19th century was the admission of women as degree students in 1886, many years ahead of most universities in the world.

During the first quarter of the 20th century the institution absorbed the post-matriculation classes of the Diocesan College, the teacher training classes of the Normal College, Cape Town, the South African College of Music and the Cape Town Schools of Fine Art and of Architecture. The Medical School was established, and in the 1920s the University began a partnership with the local health authority (now the Provincial Government's health department) that saw the Medical School move from the Hiddingh Campus and the Green Point Somerset Hospital to Observatory and the construction of the first Groote Schuur Hospital on a University site; the partnership continues to this day and now involves not only Groote Schuur as a teaching hospital but Red Cross and Valkenberg and a growing number of primary health care sites.

UCT moved to its present main campus site ~ the Groote Schuur Campus ~ on part of Cecil Rhodes' estate in 1928, after the completion of the first of the Upper Campus Buildings (Smuts and Fuller Residences, the Arts and Maths blocks, and the Jagger Library and the Computer Science buildings). Major donations and bequests marked the University's early progress, among which were the Hiddingh grant to build the Hiddingh Hall, the Beit and Wernher bequests and gifts that provided for much of the Upper Campus, and for the first buildings on the Medical School Campus (the Wernher-Beit buildings were refurbished in 2002 and linked to become the building for the Institute of Infectious Disease and Molecular Medicine).

The period between the end of World War II and 1994 was marked by two themes: first, the increasing recognition by the University that if it was, as it had from the beginning professed to be, fully South African, it would have to move beyond academic non-segregation to be fully inclusive, facing the consequential and increasing clashes with a government determined to legislate for segregation and enforce the doctrine of apartheid; and secondly, the transformation of the University into a leading research institution.

The post-World War II UCT admitted students without regard to race, creed or colour. But only white students were allowed in residences, or encouraged to take part in social, recreational or sporting activities. Much clinical training was segregated. During the 1950s the government legislated to enforce segregation based on the Population Registration Act, and in 1959 passed the Extension of University Education Act, 1959 removing from UCT the right to admit black students unless under a permit issued by a Minister of the government. This legislation provoked a sustained period of opposition by the University and its members, culminating in a successful court challenge in 1987 to attempts by the Government of the day to make state subsidy conditional.

The pre-World War II University was largely a teaching University and its students were mostly undergraduates. The research undertaken was sporadic, though in some cases notable. A research committee was appointed for the first time in 1945, and research leave was allowed for the first time in 1947. The next 50 years saw a great expansion of research and scholarly work; such that the UCT of 2013 has a greater proportion of NRF-rated researchers and SARCHI Research Chairs, and gains significantly more research grants and awards than any other South African University.

## 2 GENERAL INFORMATION

The 1980s and 1990s were characterized by the deliberate and planned transformation of the student body, aided substantially by the establishment in 1981/1982 of the Academic Development Programme aimed at helping students from disadvantaged educational and social backgrounds to succeed, and the desegregation of student residences in the following year. As a result, a student body that was 90% white in 1979, when UCT marked its 150th anniversary, will be more than 50% black in 2014. The student body of 2014 will top 26 000; a significant proportion of our students come from the SADC states, and we have students drawn from over 100 countries. Particular emphasis is placed on postgraduate studies and more than 20% of these students will be enrolled in masters and doctoral programmes. A growing number of postdoctoral fellows (UCT has more than a third of the total number of post docs in South Africa) contribute substantially to the research endeavours and reputation of the University. More information on the early history of UCT is to be found in:

*The History of the SA College: 1829 - 1918*, by William Ritchie (Maskew Miller, Cape Town, 1918).

*The SA College and the University of Cape Town: 1829 - 1929*, by Eric A Walker (Centenary Volume published for the UCT Council by the Cape Times, 1929).

*The History of the University of Cape Town 1929 - 1948: The Formative Years*, by Howard Phillips.

The University is a public higher education institution under the Higher Education Act, 1997, and is regulated by the provisions of the Statute of the University of Cape Town, published in the gazette under government notice 1199 of 20 September 2002 and as subsequently amended.

## Academic Freedom and University Autonomy

It is the policy and hope of the University that our members will enjoy freedom to explore ideas, to express their ideas and to assemble peacefully. These are core freedoms of speech and assembly.

### Freedom of Speech and Freedom of Assembly: The right to invite speakers to the campus

We recognise, as any University must, our ethical duty to defend and to seek to extend academic freedom and, in particular, freedom of speech and freedom of assembly within the University and in society generally.

T B Davie defined academic freedom as the freedom of a University to determine for itself, on academic grounds, who may teach, what may be taught, how it shall be taught, and who may be taught.

Freedom of speech is a necessary condition for academic freedom. This freedom must exist within the University and within society generally. We, as a University, need to be scrupulous in ensuring that our members and our guests can speak freely and openly, whether or not they, or the views they express, are contentious, politically or in other ways. We and our guests must give freedom of speech to others if we are to enjoy it ourselves.

Freedom of speech and freedom of assembly also require that a University must have the right to invite any person to speak at academic or other occasions. This right is normally exercised by individuals, departments, clubs, societies or other groups. It must be responsibly exercised and not abused to encourage racism or violence.

There is a parallel right to the freedom to invite a speaker: this is the right to dissent, and to express this dissent. But this parallel right must be exercised in a way that does not limit or deny freedom of speech or freedom of assembly to others.

We, as a University, corporately and through the actions of individuals, have sometimes failed to ensure the rights of freedom of speech and freedom of assembly. The Council and the Senate of the University are committed to defending and seeking to extend these freedoms. In order to seek to avoid further failures, the University Council has framed rules for conduct before, at, or after meetings (published in the University's handbook No 3, *General Rules and Policies*).

### Questions of Religious Belief

The University's Institutional Statute prohibits religious tests. It provides that no test whatever of religious belief shall be imposed on any person as a condition of becoming or continuing to be a

## 4 GENERAL INFORMATION

graduate of the University, or a professor, lecturer, teacher or student of the University, or of holding any office, receiving any emolument, or exercising any privilege in it. It also provides that no preference shall be given to, or advantage withheld from, any person on the grounds of religious belief.

### **Admission of Students**

The policy of successive governments between 1948 and 1991 was to entrench segregation in education through legislation. The first such legislation dealing with universities was enacted in 1959; the Extension of University Education Act, No 45 of 1959, provided that no black person who was not registered as a student in one of the then existing, historically largely white, South African universities when the Act came into operation on 1 January 1960, might attend such a University without the written consent of the responsible minister.

Hitherto, the University of Cape Town, like the University of the Witwatersrand, had admitted students on the basis of academic qualifications only. In most academic matters, all students had been on a footing of equality. In 1957 there were 456 black students at University of Cape Town, forming 10% of the total. In other matters black students were denied full participation in the University.

The draft legislation that became the Extension of University Education Act was opposed by the University of Cape Town from the time that it was first mooted. On 12 December 1956, the Council of the University passed a resolution opposing, in principle, academic segregation on racial grounds. The Universities of Cape Town and of the Witwatersrand - their chancellors, vice-chancellors, councils, senates, lecturers, students, and former students - contested every step which the government took to place this plan on the statute book, as did many other organisations and the parliamentary opposition. Nevertheless, the bill became law in 1959.

In 1983, the government introduced a bill to repeal the sections of the Extension of University Education Act regulating the admission of students to universities. At the same time however, amendments were proposed to the Universities Act to allow the Minister to set conditions subject to which persons of a population group other than that, of which the student body of a relevant University mainly consisted, might be admitted. Among other possibilities, these provisions would have allowed ministers to set racial quotas. The amending bill was vigorously opposed by the universities of Cape Town, the Witwatersrand, Rhodes and Natal. In spite of this opposition, the bill passed into law as the Universities Amendment Act, No 83 of 1983, and the provisions allowing the Minister to set conditions regulating admission became law.

In November 1983 the Minister decided not to exercise the power to set racial quotas. However, he did set a condition: that African people would require the written consent of a Minister to register for undergraduate degrees and diplomas in medicine, paramedical programmes, nursing and surveying. The Minister indicated at the time that permission to study in these fields of study would be granted to "a limited number of particularly meritorious cases" and that the merits of a particular case would depend on "an applicant's personal circumstances, such as marital status, financial position, the distance between his permanent place of residence and the University where he intends to study, as well as the distance to a University for blacks offering a similar course".

In 1985 the Minister withdrew this condition. In 1991, these clauses in the Universities Act were repealed.

Admissions decisions are now the province of the University, subject to requirements related to the attainment of an endorsed National Senior Certificate to matriculation, matriculation exemption or matriculation endorsement. In 1995, Senates were given discretion to admit applicants to degree student without formal matriculation exemption or endorsement where the student had been found, in a test or tests, to be prepared for degree study. The admissions policy for 2014, adopted by the Council and the Senate in terms of S37 of the Higher Education Act, makes express provision for redress of past educational opportunity. This admissions policy requires South African applicants to self classify themselves, and uses race as a proxy for a past disadvantage. This policy does not apply to international applicants. Admission is competitive. It is designed to choose, from those whom we believe have the potential to succeed, an incoming class that is diverse, and that provides redress for past disadvantage, and to ensure that we select the best students from those who apply.

### **Appointment of Staff**

Academic freedom and university autonomy demand that the University shall be free to determine who shall teach its students. There are no racial restrictions in law governing appointments to the teaching staff of universities, though measures such as the Group Areas Act did affect and inhibit this in the period up to 1993.

In 1968, the government intervened to prevent the appointment of an African to the staff of the University: the late Mr (as he then was) Archie Mafeje was selected to occupy a senior lectureship in social anthropology. The decision was rescinded by the University Council after the University Council had been threatened by the then Minister of National Education with legislation to prohibit this appointment and any other similar appointment. The decision by the University Council led to a nine-day "sit in" protest by students in the University's administration building. In 2005 the University Council reviewed the 1968 decision and decided to offer an apology to Professor Mafeje.

The right of universities to appoint staff without regard to race was recognised by the then government in a speech by the then Minister of National Education, Dr G van N Viljoen, in 1983. The Group Areas Act and similar measures which seriously limited the freedom of black staff were repealed in the constitution before 1994. Academic freedom is now guaranteed in the constitution. The University of 2014 is committed to employment equity and appointments to the University staff are made in the context of an employment equity policy, designed to accord with the University's beliefs and the Employment Equity Act.

### **The 1987 Subsidy Conditions**

After some disturbances on campuses in South Africa, including this University (in which it appears that the State, by means of agents provocateurs, may have played a role) the government saw fit in August 1987 to impose conditions, on the alleged grounds of concern for academic freedom, for the continued payment of tax payers' subsidy to the universities.

This was the most serious attacks on the freedoms of the universities yet mounted by government in this country. They were vigorously and publicly condemned by the Senate and Council of this University and of the universities of the Witwatersrand, the Western Cape, Natal and Rhodes. Their validity was challenged by UCT and UWC in parallel applications to the Cape Supreme Court, and, in February 1988, a full bench of the Court set them aside as contrary to law. A similar challenge by the University of Natal in the Natal division of the Supreme Court led to a similar result.

### **Other Threats to Academic Freedom**

This University, as an institution and through many of its members, has suffered in the past from restrictions on freedom imposed by governments. Many of its members suffered as a result of the University's own policies and practices. We have to remain steadfast in our determination that we, and our members, will be free. Academic freedom does not exist apart from other societal freedoms. It requires a free society. This is a necessary, but not a sufficient, condition. Freedom in a University is possible only when all its members give to each other the right to dissent and to express contrary views. The annual T B Davie memorial lecture, which was instituted in 1959, is dedicated to academic freedom.

## **T B Davie Memorial Lectures**

The TB Davie Memorial Lecture commemorates the work of Thomas Benjamin Davie, Vice-Chancellor of the University from 1948 to 1955. He is remembered as a distinguished Vice-Chancellor and defender of the principles of academic freedom.

## AUTHORITIES AND MEMBERS OF THE UNIVERSITY

The Chancellor is the titular head of the University, is elected by Convocation, and confers degrees in the name of the University. The Chancellor holds office for ten years, and may be re-elected.

The Council is responsible for the governance of the University (except for academic matters, which fall to Senate) and is constituted according to the provisions of the Stature of the University of Cape Town. Many of these provisions had their origins in the University's early history. The Council holds office for four years.

## ADMINISTRATIVE AND SUPPORT DEPARTMENTS

The Vice-Chancellor and the Deputy Vice-Chancellors are the executive officers of the University. Each faculty's executive officer is its dean; the Director of the Graduate School of Business has functions similar to deans in respect of the GSB and the Centre for Higher Education Development is headed by a dean. The heads of the Library, of ICTS and of the administrative and support departments are responsible for managing the units that support the work of teaching and research.

Each faculty's dean is supported by a faculty manager, a faculty finance manager and other administrative staff. The deans report to a nominated deputy vice-chancellor. There are six faculties.

The professional, administrative support and service (PASS) departments exist to provide services required by students, academic staff, the executive, the faculties and the academic departments in teaching, research and extension work. The professional, administrative support and service departments are:

**Office of the Vice-Chancellor

## UNIVERSITY OF CAPE TOWN

### MISSION AND VISION

UCT aspires to become a premier academic meeting point between South Africa, the rest of Africa and the world. Taking advantage of expanding global networks and our distinct vantage point in Africa, we are committed, through innovative research and scholarship, to grapple with the key issues of our natural and social worlds. We aim to produce graduates whose qualifications are internationally recognised and locally applicable, underpinned by values of engaged citizenship and social justice. UCT will promote diversity and transformation within our institution and beyond, including growing the next generation of academics.

Foundation statement underpinning the mission statement

Our research-led identity is shaped by a commitment to

- academic freedom as the prerequisite to fostering intellectual debate and free enquiry;
- ensuring that research informs all our activities including teaching, learning and service to the community;
- advancing and disseminating knowledge that addresses the key challenges facing society – South African, continental and global;
- protecting “curiosity driven research”;
- nurturing and valuing creativity in the sciences and arts including the performing and creative arts; and
- stimulating international linkages of researchers and research groupings.

We strive to provide a superior quality educational experience for undergraduate and postgraduate students through:

- providing an intellectually and socially stimulating environment;
- inspired and dedicated teaching and learning;
- exposure to the excitement of creating new knowledge;
- stimulating the love of lifelong learning;
- the cultivation of competencies for global citizenship;
- supporting programmes that stimulate the social consciousness of students;
- offering access to courses outside the conventional curricula;
- attracting a culturally and internationally diverse community of scholars;
- guaranteeing internationally competitive qualifications;
- offering a rich array of social, cultural, sporting and leadership opportunities; and
- providing an enabling physical and operational environment.

In advancing UCT as an Afropolitan university, we will:

- expand our expertise on Africa and offer it to the world;
- extend our networks on the continent, along with our global connections and partnerships;
- promote student and staff exchanges and collaborative research and postgraduate programmes; and
- engage critically with Africa’s intellectuals and world views in teaching and research;
- contribute to strengthening higher education on our continent.

We strive to provide an environment for our diverse student and staff community that:

- promotes a more equitable and non-racial society;
- supports redress in regard to past injustices;
- is affirming and inclusive of all staff and students and promotes diversity in demographics, skills and backgrounds;
- offers individual development opportunities to all staff;
- is welcoming as a meeting space for scholars from Africa and around the world.

## **A STATEMENT OF VALUES FOR THE UNIVERSITY OF CAPE TOWN AND ITS MEMBERS**

The University is a community of scholars, teachers, students and staff. A community implies the shared acceptance by its members of common values. The concept of values implies not only rights but also obligations, for the community itself and for its individual members.

This statement of values provides a framework that informs and governs what is considered by the University community to be appropriate and acceptable behaviour. The statement also serves as the foundation for a range of University policies and guides the management of particular aspects of University life.

As a community, the University commits itself, and expects all its members, to exemplify and uphold these values and to reflect them not only in institutional and personal relationships, but also in all other aspects of University life, including work, sport, recreation, and cultural, intellectual, religious and other activities.

As a values-based community, we aspire to an encompassing ethos which

- promotes academic excellence and the attainment of the institutional goal of becoming a world-class African University;
- preserves what is valuable in the history of the institution and of this country, and responds to the challenges posed by past injustices and unfair discrimination;
- achieves social transformation, empowerment and participative governance;
- affirms and protects the fundamental human rights enshrined in the Constitution; and
- encourages the institution and all its members to accept responsibility for the welfare of the community and for behaving in accordance with these community values.

### **VALUES**

We commit ourselves to

- truth, fairness, consistency and integrity in both academic and other work, and in all personal and institutional relationships;
- compassion, generosity and concern for the needs and aspirations of others, and in particular for the challenges faced by the less privileged in our society;
- respect and tolerance for cultural, religious, political and other differences and acknowledgement of the value of diversity in society;
- respect for individual privacy, dignity and the right to personal choice;
- intellectual honesty, rigour in debate; openness to alternative ideas and respect for other views, beliefs and opinions;
- commitment to high standards, personal fulfilment and the pursuit of excellence;
- the protection and responsible use of the University's assets and resources;
- concern for the personal safety, health and welfare of all members of the community; and
- the protection and conservation of the environment and our natural resources.

### **ACTIONS**

In the context of our recent history, we recognize the importance of affirming this ethos and promoting these shared values. Accordingly, we undertake collectively and individually:

- to promote and protect academic freedom;
- to oppose and take steps to prevent racial, gender or other forms of unfair discrimination, harassment, violence or abuse;
- to actively promote social justice and equity;
- to nurture a culture of learning, which is supportive of students, scholars and teachers;
- to refrain from speech or conduct that demeans or humiliates others;

## **70 CODE OF CONDUCT AND STATEMENT OF VISION**

- to encourage our members to enjoy life, to laugh, to love, to appreciate and take full advantage of the wealth of opportunities available to us in academic endeavour, in making friends, and in social, cultural and sporting activity;
- to advance the principle of open governance and to be fully accountable for our actions, decisions, and the stewardship of the University's resources and mission; and
- to nurture and empower our members.

**University of Cape Town**

**The Council  
Code of Conduct**

The Council *governs* the University and must ensure effective management. The Council is constituted and mandated by the Statute and the Higher Education Act, 1997 (Act No. 101 of 1997) as amended. Subject to the Senate's academic authority, the Council has responsibility for the affairs of the University.

The Council also determines the nature and scope of the University's social responsibilities, protects the institutional autonomy of the University, upholds the academic freedom of its members, and deliberates on the nature and role of the University.

**In performing these tasks, the Council commits itself to**

- good governance, which includes transparency, responsiveness, and accountability, and preserving institutional autonomy;
- the vision, mission and stated values of the University;
- governing in such a way as to enable the members of the University to realise their full potential as academics, researchers, students and support staff; and
- acting with the duty of care and skill that is owed to the University of Cape Town.

**Council members undertake collectively and individually to**

- act always in the best interests of the University as a whole, and accept that this obligation precedes any duty a member may owe to the person or institution that elected or appointed him or her to the Council in all Council matters;
- act in good faith, honestly, truthfully and for proper purpose;
- exercise appropriate care and diligence in decision making;
- be diligent in performing Council responsibilities;
- not improperly use their position as Council members to gain an advantage for themselves or someone else;
- avoid conflicts of interests and comply with Council's policy on the disclosure of interests and recusal; and
- respect the decisions of the Council.

**All Council members should, to the best of their ability and knowledge**

- spend as much time as is required to perform their duties (this will normally mean devoting more time over and above that required for attending Council meetings);
- attend and contribute to Council meetings, and meetings of committees of the Council on which they may serve;
- critically read all agenda documents before each meeting;
- critically review all proposals to the Council;
- maintain the confidentiality of confidential matters;
- act in a financially responsible manner; and
- commit themselves to this code both in dealing with Council business and other Council members and also in dealing with the UCT community and persons interested in UCT's work.

**UNIVERSITY OF CAPE TOWN  
CONFLICTS OF INTEREST: PRINCIPLES, POLICY AND RULES**

**Introduction**

The Higher Education Act provides in s 27 that a member of a council or a member of a committee of a council-

- a) must be a person with knowledge and experience relevant to the objects and governance of the public higher education institution concerned;
- b) must participate in the deliberations of the council in the best interests of the public higher education institution concerned;
- c) must, before he or she assumes office, declare any business, commercial or financial activities undertaken for financial gain that may raise a conflict or a possible conflict of interest with the public higher education institution concerned;
- d) may not place himself or herself under any financial or other obligation to any individual or organisation that might seek to influence the performance of any function of the council; and
- e)
  - (i) may not have a conflict of interest with the public higher education institution concerned;
  - (ii) may not have a direct or indirect financial, personal or other interest in any matter to be discussed at a meeting and which entails or may entail a conflict or possible conflict of interest with the public higher education institution concerned;
  - (iii) must, before the meeting and in writing, inform the chairperson of that meeting of that conflict or possible conflict of interest.

Any person may, in writing, inform the chairperson of a meeting, before the meeting, of a conflict or possible conflict of interest of a member of the council with the public higher education institution concerned of which such person may be aware.

A member who has a conflict is obliged to recuse himself or herself from the meeting during the discussion of the matter and the voting thereon.

A committee of the council with delegated functions may not take a decision on a matter considered by it if any member of the committee has a conflict of interest contemplated in this section.

The Council **PRINCIPLES POLICY AND RULES** concerning potential and real conflicts of interest in the conduct of the affairs of the University are set out below and amplify the provisions in the Act and paragraph 21 of the Statute which provides as follows:

*‘Financial and other interests of council members*

- (1) *Any member of the council or a committee of the council who has a direct or indirect financial or personal interest in any matter to be discussed at a meeting must, before or during such meeting, declare such interest, and comply with such other rules and policies at the council may adopt.*
- (2) *After such declaration such member of the council or a committee of the council must excuse himself or herself from the meeting and any subsequent meeting at which the matter is to be discussed, and is not entitled to receive papers relating to the matter.’*

**1. Fiduciary Responsibilities:**

Members of the Council, members of committees, and members of management are elected and appointed to serve the interests of the University and the public generally.

This, upon their acceptance of office, makes us trustees for the benefit of the University and the public we serve. It results in an obligation on our part to fulfil our responsibilities in a manner consistent with this situation. All decisions of the Council, of other University bodies and committees and of members of management are to be made solely on the basis of a desire to promote the best interests of the University and the public. The University's integrity is at stake.

**2. Other commitments and Interest:**

People of substance inevitably are involved in the affairs of other institutions and organisations, in addition to having, in most instances, their own professional or business careers. This University benefits from having in its Council and committees people of ability who in Council and committees freely share their expertise. Similar considerations apply in the case of some members of management.

**3. Potential for Conflicts of Interest:**

The potential of conflicts of interest is obvious. A publication by the Association of Governing Boards of Universities and Colleges ('AGB') in the United States very aptly says:

*"An effective board, administration and faculty cannot consist of individuals entirely free from at least perceived conflicts of interest"*<sup>1</sup>

**4. Range of Potential Seriousness and Implications:**

The significance and implications of such conflicts, potential or real, could vary over a wide range of possibilities. Worst cases, unless countered by appropriate rules and procedures, could have substantial detrimental effects for the University. These could include litigation, embarrassment and public criticism. At the other extreme the element of perceived or potential conflict may be so trivial that it can safely be ignored, in accordance with the legal maxim *de minimis non curat lex*. In between there will be cases where, although the perceived conflict cannot be said to be trivial, special circumstances may exist which render it insignificant or inconsequential, or which indicate that the risk of abuse or other detrimental effects is extremely remote, or that, on striking a balance, the implications of such conflict as may exist are wholly outweighed by the potential benefits to be derived, in the best interest of the University, from adopting the resolution or entering into the transaction in question.

**FUNDAMENTALS**

5. The judgement required for steering a proper course in the application of these considerations, must be that of the Council. There is no University structure, which can *vis-à-vis* the Council, play the role in which in the case of a company is played by a general meeting of shareholders *vis-à-vis* the board of directors. Hard and fast rules can not be laid down for every case: but certain fundamental principles and requirements stand out for the Council itself as well as for committees, and management, in dealing with conflict-of-interest issues:

<sup>1</sup>"A Guide to Conflict of Interest and Disclosure Issues" by Richard T Ingram

## 74 CODE OF CONDUCT AND STATEMENT OF VISION

- 5.1 Complete integrity of approach and of fairness in procedures is essential, not only as a matter of ethical standards but also because departments and violations bring for the University vulnerability to review proceedings in the High Court.
- 5.2 These fundamental principles must not only be observed but must be seen to be observed. In regard to conflict-of-interest issues and their consequences perceptions (on the part of reasonable members of the public) play a critical role.
- 5.3 Transparency in the treatment of conflict-of-interest questions is a fundamental requirement. There is a need for meticulous disclosure, adherence to prescribed procedures, and precise recording of proceedings as well as the reason for arriving at decisions.
- 5.4 Both in the definition of what, constitutes a conflict of interest and in the evaluation of its significance in particular instances a sense of balance must be sought especially with reference to potentially contradictory considerations. For instance, on the one hand the best interests of the University are indeed served by the presence in Council of people of high calibre and expertise and could in particular circumstances will be served by awarding a contract to such a person or his or her firm as being uniquely qualified for it, above all his or her available competition. On the other hand, what is to be strictly avoided is either the reality or reasonable public perception of nepotism, or of a practice of University contracts and business being awarded on a basis of favouritism among friends.

### **DEFINITIONS AND OCCASIONS FOR CONSIDERATION OF CONFLICTS OF INTEREST**

6. The definition of conflict of interests makes it clear not only the direct, personal and pecuniary interests of the individual are relevant, but also those of members of his or her immediate family circle and of partnerships, firms, companies and close corporations in which his or her pecuniary interest, fiduciary responsibility or personal participation is substantial enough to be of significance
7. Conflict of interest questions must be weighed in various situations, for example with reference to:
  - 7.1 acceptance of election/appointment to the Council or a committee;
  - 7.3 membership of a University tribunal exercising quasi-judicial functions;
  - 7.2 participation in a particular agenda item at a meeting of Council, a committee or some other body (other than quasi-judicial);
  - 7.4 the award or conclusion of a contract between the University and the person concerned or other individual , company or firm with whom or which he or she is associated as per definition.

- 8.1 With reference to 6.1 a person is not be discouraged from accepting an appointment as contemplated merely by reason of the fact that conflicts in situations as referred to in 6.2 to 6.4 may arise in course of time. However, there could be sound grounds for declining Council membership, and/or being advised to so so, where a long-term, repetitive or ongoing professional or business relationship is contemplated or already exists between the University and the person concerned or some other individual, company or firm with whom or which he or she is associated as per definition. In such instances advice may be given by the Chair of Council and/or the Vice-Chancellor, after their obtaining such professional or other advice as they may consider necessary.
- 8.2 The situation in 6.2 to 6.4 are dealt with in the Rules.

## **RULES**

### **9. Introduction:**

- 9.1 These rules have been made by the Council in pursuance and implementation of its Principles and Policy, and are to be interpreted accordingly.
- 9.2 The rules are subject to amendment and/or amplification by the Council at its discretion
- 9.3 In particular, the rules concern mainly such conflicts as may be experienced by Council or Committee members in situations as referred to in paragraphs 6.2 to 6.4 and may need amplification with specific reference to members of management.

### **10. Definitions:**

In these rules, save where the context clearly indicates otherwise –

- 10.1 “Conflict of Interest” means, for a member of the Council, a committee, management or staff of the University, who has a fiduciary responsibility to the University as described in paragraph 1 of the Statement, a real or potential conflict with that responsibility, arising from
- (a) a substantial, direct, beneficial and personal or financial interest on the part of
- (i) such a member personally, or
  - (ii) someone in his or her immediate family circle, or
  - (iii) a professional practice, firm, close corporation, partnership, company, business or other organisation in which such member or his or her family has an interest as described above.
- Or from
- (b) a fiduciary responsibility on the part of such a member towards any organisation as described in (a)(iii) by reason of being a director to or being employed or engaged by it in some executive capacity, where the interest is defined in (a) above, on the part of persons or organisations mentioned in (a) or (b) above, relates to University affairs to be dealt with by the Council, a committee or other university body which includes the member concerned, or by such member himself or herself, provided that the holding of shares in a company listed on the Stock Exchange to the extent of less than 5 per cent of the issued shares of such company shall be deemed not by itself to constitute a substantial interest as contemplated in (a) above.

## 76 CODE OF CONDUCT AND STATEMENT OF VISION

“Conflicting interests” has a corresponding meaning.

- 10.2 “Immediate family circle” means that which includes a spouse, parents, siblings, children or any other relative if the latter resides in the same household as the member concerned.
  - 10.3 “Quasi-judicial body” means the University Student Disciplinary Tribunal, or the Appeal Tribunal or any other body or single person charged under University rules or regulations with a disciplinary function or a function of deciding on the issue of permits, permissions, authorisations or similar rights or privileges.
  - 10.4 “Statement” means the Council’s Conflicts-of-Interest Statement on Principles and Policy as set out in paragraphs 1 – 7 above.
11. Where a member of the Council, a Committee, management or staff serving as a member or ther sole member of a quasi-judicial body is aware or is made aware of a conflict of interest arising from any link, as contemplated in paragraphs (a) and (b) of the definition of “Conflict of interest”, between himself or herself or any party to proceedings due to be, or in the course of being, conducted before of by the tribunal, such member shall immediately withdraw from such proceedings and record or cause to be recorded the reason for such withdrawal.
  12. Each member of Council or of a committee shall, before or at the first meeting of Council attended by him or her in each year of the period of tenure of such member, submit to the Registrar, for the information of Council, a list of all interests and relationships, on the part of himself or herself or any member of his or her inner family circle, which may potentially result in a conflict of interest on his or her part in the course or as a result of proceedings of the Council or its committees.
  13. In addition to making the annual disclosure referred to in Rule 11, a member of Council or of a committee shall, with reference to any particular item on the agenda of a meeting of council or such committee attended by such member, at such meeting make full disclosure to Council or such committee of a real or perceived conflicting interest to which such a member is a party.
  14. Having made a disclosure as referred to in Rule 12 such member of Council or of a committee shall withdraw from the meeting and not be present at nor participate in the consideration of the matter in respect of which he or she has made such disclosure, unless
    - 14.1 the Chair immediately rules that he or she need to do so, or
    - 14.2 he or she is invited by the Council or committee to stay or, having withdrawn, to return, either for the sole purpose of supplying relevant information or for full participation in the proceedings;  
provided such member shall not be invited to full participation in the proceedings, either by ruling of the Chair or by decision of the Council or the committee, except on the basis that the Chair, Council or committee, as the case may be, is satisfied, and decides, that there is in fact no conflict or one of such triviality that it should be disregarded on a *de minimis* basis.
  15. Conflicts of interest situations reported to, taken into account or otherwise considered by Council or a committee shall be recorded, with adequate particulars, in the minutes of Council or of the committee concerned.
  16. Where a committee (or other body) holds Council-delegated power to act, and the committee is of the opinion that a transaction should be entered into notwithstanding a conflict of interest on the part of a Council member (or other member of the committee) in respect of such transaction, no final decision shall be taken by the committee. Instead the decision concerned shall take the form of a recommendation to Council (via more senior committee/s where applicable), and the recommendation shall be supported by a report fully

explaining the conflict concerned, and furnishing reasons for its recommendation despite the conflict, indicating also what attention had been given to the factor of competition, real or potential, and all other relevant considerations.

17. Where, in the case of a matter dealt with directly by Council, Council reaches a decision to the same effect as an opinion of a committee referred to in Rule 15, the items prescribed in Rule 15 for forming part of a committee's report shall *mutatis mutandis* be recorded in the Minutes of Council.
18. In all cases where there is or may be a competition for a contract with the University, and a member of Council, or of a committee dealing with the matter, may directly or indirectly have an interest in one of the competing tenders, bids or propositions, as the case may be, the Chair and staff members responsible for arrangements in connection with meetings and accompanying procedures shall in their discretion take all such precautions as may be necessary in order to ensure that in the procedures adopted such member of Council or of the committee concerned is not accorded any advantages *vis-à-vis* other competing parties.

### Explanatory note and commentary

#### **Introduction**

*The above Principles, Policy and Rules deal with situations:*

- (1) *where such members serve as members of University tribunals exercising quasi-judicial functions (i.e. involving decisions affecting people's rights);*
- (2) *where such members participate (or consider participating) in particular agenda items at meetings of council or a University committee or some other body which does not exercise quasi-judicial functions; and*
- (3) *where contracts are concluded or awarded between the University and a member or his or her immediate family or a business associate or a professional practice, firm, partnership, or other business entity in which he or she (or his or her family member) has an interest (defined as a "substantial, direct, beneficial and personal or financial interest")*

*In the case of situations 1 and 2 above the rules are clear. The member concerned must withdraw from the proceedings of the tribunal or Council or committee meeting and record or cause to be recorded his or her reasons for doing so (Rules 10 and 13).*

*In relation to situation 3*

- (a) *where such a problem arises in relation to a company, i.e. where a contract is proposed between a company and one of its directors, the law requires the director's interest to be disclosed to a general meeting of the company's members, which may then approve the conclusion of the contract;*
- (b) *as is pointed out in paragraph 4, there is in the University context no body akin to a general meeting of a company.*
- (c) *this does not mean that such a contract can **never** be concluded: such self-denying ordinance could operate against the best interests of the University because it could lead to the University's losing the services of the person or business entity best qualified to do the work required, merely because he or she is a member; alternatively it could lead to such persons declining to serve on Council with a consequent loss of expertise and experience; and*
- (d) *the Statement (paragraph 4.4) stresses that a "sense of balance should be sought to be attained with reference to potentially contradictory consideration". These contradictory considerations are, on the one hand, the fact that it may be in the best interests of the University to contract with the Council member (or his or her associate) and the need, on the other hand, to avoid reality (or reasonable public perception) of nepotism or of a*

## 78 CODE OF CONDUCT AND STATEMENT OF VISION

*practice of awarding University contracts “on the basis of favouritism among friends” of Council (or associated with a member).*

*Rules 15 and 16 make it clear that such a contract can only be concluded by Council itself. Other University bodies with Council delegated power to act must refer such proposed contracts (which they think are in the interests of the University) to Council with a full report setting forth the conflict and motivating the conclusion of the contract despite the existence of the conflict (Rule 15). Where Council is itself dealing directly with such a matter it must cause to be recorded in its minutes the matters which would have to be dealt with in a report made under Rule 15.*

### ***Interpreting the Rule***

*In a key case, the University Building and Development Committee interpreted paragraph 4.4 as meaning that an appointment or contract award may be “in the best interest of the University” even though the member or firm was not “**uniquely**” qualified for it, above all his or her or its available competition.” The Statement of Principles and Policy does not make this the test. The Rules (particularly Rule 15) do not do so either. Council agreed with this interpretation. **The sole test is “the best interest of the University”.** Each case has to be considered on its merit. The avoidance of nepotism and a practice of awarding University contracts and business on a basis of favouritism among friends (and the reasonable public perception of nepotism of such a practice) should lead, in Council’s view, to very few such contracts being concluded. There will be very few cases where it can truly be said that such a contract can be awarded to a member (or his or her associate) without at least the reasonable public perception of nepotism or a practice of favouritism where the person concerned (or his or her firm) is not “uniquely qualified” for it, above all his or her available competition.” But each case has to be considered on its merits, by Council itself, with a full recordal of all matters considered and the reasons for arriving at the decision in question.*
