

## SENIOR LECTURER/ASSOCIATE PROFESSOR

## Division of Biomedical Engineering Department of Human Biology

## **Faculty of Health Sciences**

The Division of Biomedical Engineering of the Department of Human Biology is a dynamic academic division with a strong international reputation within the Faculty of Health Sciences at the University of Cape Town. Within the Division, particular areas of interest include medical imaging, medical device design, musculoskeletal biomechanics, cell- and tissue mechanobiology, biomechatronics, signal and image processing, mHealth, healthcare technology management, health innovation, and neuroscience. The overarching goal is to conduct biomedical engineering research that addresses health in Africa yet is globally relevant.

We are seeking to fill one full-time permanent academic position at the rank of Senior Lecturer or Associate Professor. The incumbent will join the Division and contribute to teaching, research and supervision of postgraduate students.
