SECTION 1: CONTEXT

1.1 INTRODUCTION

At each June and December Graduation, the Institutional Planning Department conducts the graduate Exit Survey that forms part of the First Destinations Project.

The First Destinations Project examines the post-graduation activities and intentions of each group of graduates in order to assess recent graduates' impressions of the usefulness and applicability of their studies in the workplace, coupled with information on how and where recent graduates either found employment or chose to continue their studies.

The first Graduate Exit Surveys were carried out amongst the June 1997 group of graduates, and these surveys now form a routine part of the graduation proceedings. In this report, the findings of the Exit Survey for December 2008 graduates are discussed.

1.2 SURVEY INSTRUMENT

In order to compare the results of this survey with the results from previous exit surveys, the structure has remained relatively constant since the pilot study was conducted in June 1997. The survey instrument consists largely of "closed" type questions and was designed to comply with the following criteria:

- short completion time (about 5 minutes) so as to prevent "bottleneck" formation in the ticket and gowns distributions process;
- the return of a permanent postal address for each graduate to be used in the follow-up surveys, and the return of a student number for each graduate/ diplomat which enables the retrieval of additional information (e.g. biographic data and academic performance information) from an MS SQL Server 2005 database (which derives from PeopleSoft 9).
- the establishment of the main activity of each graduate after graduation (i.e. employment, further study, etc) and obtaining details on the employers of the graduates and the nature of further studies that they had embarked upon
- gaining insight with regard to graduates' impressions of their learning experience at UCT and their participation in the career development activities offered by the Careers Service whilst at UCT.

The questionnaire is printed on A3 paper, folded to form an A4 size leaflet. On the front page of this leaflet, a brief congratulatory letter and explanation of the Graduate Recruitment Portal is printed. A "Thank-you" note to the respondent follows the last item on the questionnaire.

1.3 SURVEY METHOD

The survey questionnaire was administered to graduates at the point of ticket/gown collection prior to each graduation ceremony. This is now the usual procedure that the Institutional Planning Department uses for the Graduate Exit surveys. Each graduate (up to and including the Doctorate level) was asked to complete a questionnaire (at one of a series of tables provided for this purpose) and to hand this in at the graduation ticket tables, prior to receiving his/her tickets. Where graduates

did not personally collect their tickets and gowns, the person collecting tickets on their behalf was given a blank questionnaire and a postage paid envelope with instructions for the actual graduate to complete and return the questionnaire.

A total of 4305 UCT students completed their studies and graduated in December 2008. Of these, 65% completed the Exit Questionnaire in December. The response rates varied considerably from faculty to faculty, and in relation to the different qualifications within each faculty¹. As can be seen in Table 1c in Section 2 on Findings, the highest response rates were recorded amongst Post Graduate Bachelor graduates (80%) and Professional First Bachelor graduates (78%) and the lowest response rates were recorded amongst Masters (41%), PG Diplomas (49%) and Honours graduates (52%).

The survey responses were coded and captured into an MS Excel spreadsheet, which was imported into the Student Performance Database. Using the student numbers which had been entered on the completed questionnaires, the following additional information was extracted from the database for each respondent:

- biographic data (population group, gender and date of birth);
- matric information (school code, matric authority, matric points and faculty points);
- a synopsis of each respondent's UCT academic record from which the date on which they commenced their degree/diploma, their final year majors (where applicable), their final year course results and information on prior qualifications completed at UCT.

This additional data was used in the computation of data in the following field: "average % in final year". In the analysis below, information captured in the survey responses is discussed and correlated (where applicable) with this additional information.

¹ The survey response rates within each formal qualification, within each faculty, are presented in the individual faculty summaries that are published as separate reports.

SECTION 2: 2008 FINDINGS

A summary of the survey findings in relation to the formal qualification type and graduation faculty is presented in Addendum A that can be found at the end of this report. The findings reflect the combined results of the surveys for the December 2008 Graduations.

Please note that in this report the faculties referred to are in the abbreviated form: “COM” for the Faculty of Commerce, “EBE” for the Faculty of Engineering and the Built Environment, “HEA” for the Faculty of Health Sciences, “HUM” for the Faculty of Humanities, “LAW” for the Faculty of Law and “SCI” for the Faculty of Science.

SECTION 3: ANALYSIS

The analysis covers major differences, of more than 5%, between findings for the 2007 survey report and this 2008 survey for tables 3, 10 (i), 10 (ii) and 10 (iii) so that the differences in first destinations and student satisfaction can be highlighted. Because of the danger of small numbers the report will focus only on differences in the following sub-categories:

- Three Year Bachelors in Commerce, EBE, Humanities and Science
- Professional First Bachelor in EBE, Humanities and Health Science
- Honours in Commerce, EBE, Humanities and Science

TABLE 3: FIRST DESTINATION

The analysis shows the proportion of Commerce Three Year Bachelor respondents indicating *Seeking Study* as their first destination increased by 7% when comparing 2008 respondents (21%) with the 2007 respondents (14%). The proportion of EBE Three Year Bachelor respondents indicating *Seeking Study* decreased by 9% as well as those stating *Employed*. This decrease occurs parallel to an increase in those respondents seeking employment (15% more) as well as respondents who did not indicate their first destination (7%). With the Humanities respondents, there was a decrease of 5% for those choosing *Studying*. At the same time, an increase occurred for Humanities respondents choosing *Seeking Study* (3%) and those seeking employment (2%).

There was an increase of 6% from EBE Professional Bachelor students stating *Employed* as their first destination. This increase occurs at the same time as a 6% drop in respondents choosing *Studying*. In Humanities there was a 13% drop in *Seeking Employ* (from 14 respondents in 2007 to 9 respondents in 2008), a 6% increase in *Seeking Study* and a 5% increase in *Employed* was noted.

For the Honours degree, Commerce decreased by 7% for the respondents indicating *Employed* and 8% for *Studying* running parallel to a 7% increase of the respondents choosing *Seeking Employ* and a 7% increase in those choosing *Seeking Study*. In EBE, there is a 24% decrease in employed respondents (from 26 in 2007, to 22 in 2008) while an 8% increase in those respondents seeking employment was also noted. In Humanities there was an increase of 5% in *Studying* at the same time as an 8% decrease of those respondents choosing *Seeking Study*. For Science, there was a 10% decrease in *Employed* and an 8% decrease in *Studying* running parallel to an 11% increase in *Seeking Study* and a 9% increase in respondents who did not state their first destination.

TABLE 10: SATISFACTION WITH EXPERIENCE OF STUDYING AT UCT BY DEGREE/DIPLOMA AND FACULTY

(i) SATISFACTION WITH OVERALL LEARNING EXPERIENCE

There were some notable shifts within faculties and qualification types when respondents were asked to indicate their satisfaction with their overall learning experience at UCT. For the Three Year Bachelor of Commerce respondents, there was a decrease in *Very Satisfied* by 8%, parallel to a 9% increase in *Satisfied*. EBE shows a shift from 6% less of the respondents indicating *Somewhat Satisfied* into 9% more respondents choosing *Very Satisfied*.

For the Professional First Bachelor category, in EBE, there was a 5% increase in *Somewhat Satisfied* which runs parallel to a slight decreases in *Satisfied* and *Dissatisfied* (-3% and -1% respectively). In Health Sciences, there is a shift from a 7% increase in *Very Satisfied* to a 5% decrease in *Satisfied*. In Humanities, there is a 20% decrease in *Very Satisfied* (from 22 respondents in 2007 to 15 respondents in 2008) at the same time as a 10% increase in *Satisfied* and a 7% increase in *Somewhat Satisfied*.

Within the Commerce Honours respondents, there was a 5% increase in *Somewhat Satisfied* parallel to a 3% decrease in *Satisfied* and a 2% decrease in *Very Satisfied*. In EBE, there was a 21% decrease *Very Satisfied* at the same time as a 16% increase in *Satisfied* and a 5% increase in *Somewhat Satisfied*. Humanities respondents reported a 9% decrease in *Very Satisfied* and a 5% increase in *Satisfied*. Science respondents showed an increase in *Very Satisfied* by 6% and a 5% increase in respondents not indicating their satisfaction with studying at UCT, parallel to a decrease of *Satisfied* by 9%. Overall, the Honours respondents showed a 7% decrease in *Very Satisfied* and a 5% increase in *Satisfied*.

(ii) SATISFACTION WITH PREPARATION FOR EMPLOYMENT

For the Commerce Three Year Bachelor degree, there is a 5% increase in *Adequate Preparation* noted with a 3% decrease in *Excellent Preparation* and a 2% decrease in respondents who chose not to list their satisfaction with preparation for employment. In EBE, there was a 6% increase in *Good Preparation*, at the same time as an 8% decrease in *Adequate Preparation*.

In the EBE Professional Bachelor Category, there was a 5% increase in *Good Preparation* parallel to a 5% decrease in *Adequate Preparation*. For Health Sciences respondents, 13% more stated *Excellent Preparation* comparable to a 10% decrease in *Good Preparation*. Humanities respondents showed an increase of 8% in *Adequate Preparation* at the same time as a decrease throughout most of the other categories besides *Inadequate Preparation*.

The 2008 Commerce Honours respondents noted an increase of 6% for *Excellent Preparation* at the same time as a 13% decrease in *Good Preparation*. EBE respondents noted a 26% decrease in *Excellent Preparation* comparable to an increase in *Good Preparation* of 24% and in *Adequate Preparation* of 4%. For Humanities, there was a decrease of 10% in the *Good Preparation* category parallel to an increase of 4% in *Excellent Preparation*. Science respondents noted an 8% decrease *Excellent Preparation* with an increase of 5% in respondents not choosing to indicate their satisfaction with employment preparation. Overall, Honours shows a decrease of 5% in respondents choosing *Excellent Preparation*, with all other categories, besides *Poor Preparation* slightly increasing.

(iii) SATISFACTION WITH PREPARATION FOR FURTHER STUDY

The Commerce Three Year Bachelor respondents showed an 11% increase in *Excellent Preparation* at the same time as a 5% decrease in respondents choosing *Adequate Preparation*. EBE respondents noted an increase in *Excellent Preparation* of 19% and *Good Preparation* of 5%, parallel to a 22% decrease in *Adequate Preparation*. Humanities also showed an increase in *Excellent Preparation* and *Good Preparation* of 20% and 11% respectively. This was comparable to a decrease in *Adequate Preparation* of 23% and *Inadequate Preparation* of 7%. The Science respondents showed a 20% increase in *Excellent Preparation* and an 8% increase in *Good Preparation* at the same time as a decrease in *Adequate Preparation* and *Inadequate Preparation* of 21% and 6% respectively. Overall, Three Year Bachelor respondents showed an increase of 18% for *Excellent Preparation*, an increase of 7% for *Good Preparation*, a decrease of 19% for *Adequate Preparation* and a decrease of 5% for *Inadequate Preparation*.

The Profession First Bachelor respondents in the faculty of Commerce noted a 17% increase in choosing *Excellent Preparation* parallel to an 11% decrease in those choosing *Good Preparation* and an 8% decrease in *Adequate Preparation*. EBE respondents saw a 10% increase in *Excellent Preparation* at the same time as a 13% decrease in *Adequate Preparation*. Health Science respondents choosing *Excellent Preparation* increased by 8% whereas those choosing *Good Preparation* decreased by 5%. Humanities respondents noted an increase of 11% in the *Excellent Preparation* category, parallel to a decrease in *Inadequate Preparation* and *Poor Preparation* of 5% and 4% respectively. Overall, the Profession First Bachelor respondents indicated an increase of 12% in *Excellent Preparation* and a decrease in *Good Preparation* and *Adequate Preparation* of 6% and 7% respectively.

Commerce Honours 2008 respondents showed a decrease of 6% in *Adequate Preparation* resulting in slight increases in *Excellent Preparation* and of those choosing not to state their satisfaction with their preparation for further study. There was an 11% decrease in EBE respondents choosing *Excellent Preparation*, an 11% increase in EBE respondents choosing *Good Preparation* and an increase of 5% for those respondents who did not state their satisfaction with their preparation for further study. Humanities showed an increase of 22% in *Excellent Preparation* with a 5% decrease in *Good Preparation* and a 14% decrease in *Adequate Preparation*. Science respondents showed a 16% increase in *Excellent Preparation*, a 15% decrease in *Adequate Preparation* and a 5% increase in *Unknown*. Overall, Honours respondents from 2008 showed a 12% increase in *Excellent Preparation* and a 15% decrease in *Adequate Preparation*, compared to the 2007 respondents.

(iv) COMPARATIVE SUMMARY

For the *Employed* category for the first destinations comparison in Table 3, the overall totals do not indicate any major shifts from 2007 to 2008. Only the Honours overall total from all the faculties showed a significant shift of -10% from 2007 to 2008. The *Studying* category saw a decrease of 6% for Three Year Bachelor whereas other areas were either similar in percentage, or the number of respondents was too small to make comparisons between the two years. There were no overall major shifts within qualifications for those respondents *Seeking Study*.

Throughout the satisfaction tables, there were only significant overall shifts in the grand totals of the respondents with regard to satisfaction with preparation for further study. These shifts include a large 14% more students who stated that UCT armed them with *Excellent Preparation* for further study and 12% less who indicated that UCT provided them with *Adequate Preparation*. Therefore, the respondents from 2008 seem more impressed than the 2007 respondents with the standard of UCT's preparation for their further educational development.

(v) 2008 INCOME RANGES SUMMARY

The Undergraduate Certificate respondent income ranges showed that the most of these employed qualifiers were earning between R 7 001 and R 12 000. The majority of Undergraduate Diploma respondents stated that they earned in excess of R 20 000 a month. The foremost percentage of Three Year Bachelor respondents (26%) indicated that they earned less than R 5 000. The major peak in the Professional First Bachelor category occurred in the R 9 001 – R 12 000 range. There were two peaks within the PG Diploma respondents, the prevalent one being between R 7 001 – R 9 000, with slightly less respondents indicating an income of between R 9 001 and R 12 000 a month. PG Bachelor respondents peaked at R 12 001 to R 15 000 as 34% of these respondents fell into this category. The main peak within the Honours respondents fell into the R 12 001 to R 15 000 range as well (21%) but 18% of the Honours respondents also chose not to answer this question in the survey. The income of the Masters respondents was mainly in excess of R 20 000 a month (34%) as well as with the Doctoral respondents (47%).
