Notes:

1. In a head-count total, students are counted as units even if they are part-time students taking less a full-time curriculum.
2. The 2006 - 2009 head count totals shown were extracted from the HEMIS Sub 3 student tables for each year. Unique head counts were extracted using the derived head count enrolment data element.
3. A faculty's head count total is the total of students enrolled for the various degrees and diplomas which it offers.

Note :

1. The full-time equivalent data used to generate these tables was extracted from the HEMIS Sub 3 course registration tables for each year.
2. A full-time equivalent (FTE) student enrolment for a course at the undergraduate level is determined by multiplying its head count enrolment by the fraction it constitutes of a standard full-time curriculum. For example, if course X which has a head count enrolment of 400 is taken standardly with 3 others, then its FTE total would be $0.25 \times 400 = 100$. Undergraduate courses taken at level 400 carry a weighting of 2.
3. FTE calculations at the postgraduate level initially involve the calculation of credit values, derived from the average time taken by successful candidates to complete their degrees. Weighted FTE enrolments are then calculated by multiplying head count enrolments by the appropriate credit value, applying a weighting factor of 2 at the honours level, 3 at the masters level or 4 at the doctoral level.
4. A faculty's weighted FTE student total is the sum of the weighted FTE totals of all courses offered by its constituent departments.
5. A faculty which fulfills a substantial service role to other faculties will have a weighted FTE total which is higher than its head count total.

Notes :

1. A first-time entering applicant is one who has not been registered at any time in the past at a higher education institution.
2. An applicant is someone who submits a completed application form and pays the required application fee.
3. These figures are unduplicated head counts of first-time entering undergraduate applicants to UCT, ie each applicant has been counted once although s/he may have applied to more than one faculty.

Notes :

1. This information on new undergraduates represents all new undergraduate enrolments at the beginning of the academic year.
2. The new undergraduate total is the sum of first-time entering and transfer undergraduates. Transfer undergraduates are those who have been registered in the past at another higher education institution.
3. Students entering the LLB and BArch programmes for the first time have NOT been included in this table.
4. Semester study abroad students are not included in these figures.

- Tables 23-27 provide matric aggregate profiles of all FU's and TU's who registered at the beginning of each academic year.
- FU enrolments in the GSB are included in the total lines of Tables 23- 27 but are not shown in the detail of the tables.

- Notes :**
1. These success rates are the weighted averages for the undergraduate courses offered by the departments in each faculty.
 2. Honours students are not included in 400-level courses. Only 400-level courses offered towards professional undergraduate degrees (HEMIS level 03) were included in these calculations.
 3. Courses taken within the GSB have not been included in these calculations.

Notes:

1. This table is an analysis of the academic progress of the 2002 2003 2004 2005 and 2006 FU cohorts carried out five years after their initial enrolment at UCT
2. In the case of EBE, the 2001 - 2004 analyses were carried out over 6 years. The 2005 cohort will be updated next year with an additional year of data.
3. Students who graduated did not necessarily obtain their degrees in the faculty in which they first enrolled as FU students.
4. Students continuing their studies were not necessarily registered in the faculty in which they enrolled as first-time entering students. Students dropping out in good academic standing are students who had left the University without completing a degree, and whose final undergraduate academic progress codes entitled them to re-register for undergraduate studies at UCT.
5. The Commerce intakes include students enrolling for the 3-year BCom and for the 4-year BBusSc
6. The Engineering total is for 4-year degrees only.

1. The data in these tables have been sourced from the HR department.
 2. The different academic staff rankings have not been graded in these calculations: all full-time posts have been given a unit value of 1.
 3. Vacant posts have not been included in these calculations.
 4. All permanent staff and T3 in the academic ranks have been included in these figures

Notes:

- The data in these tables have been sourced from the Research Office.
- The 2007, 2008 and 2009 research articles are only those published in journals recognised for subsidy purposes by the Department of Education.
- Chapters in books and books are those reported in the UCT Research Report as research outputs.
- Other excludes Patents but includes theses, newspaper articles, online works, consultancies, published composition (music), Dance/Theatre/Music Performance, Exhibitions, etc
- The following weightings were used in the calculation of these totals:
 research articles = 1
 books = 3
 chapters = 1
 conference proceedings = 0.5
 research articles is as per publication count submitted to the DOE (units are accredited on a pro rata basis by number of authors)
 other = 0
- All permanent academic staff (i.e. full-time members who are contributing to one of the two pension funds : the AIPF and UCTRF) and academic staff on contracts of more than 2 years have been included in these figures.
