FOREWORD

Postgraduate programmes at the University of Cape Town play a vital role in developing skills necessary for success in a knowledge-driven economy, both locally and internationally. Our postgraduate programmes span the basic disciplines as well as a range of applied and professional areas in Commerce, Engineering and the Built Environment, Health Sciences, Humanities, Law and Science. Our commitment to being a high quality research-led university means that our postgraduate students have the opportunity to work with academics who are making important contributions to new knowledge via their on-going research and professional activities.

This booklet provides information on potential sources of financial support for postgraduate students. There are various categories of financial assistance administered by the University and many other agencies and donors. This booklet also provides information on a range of postdoctoral fellowships. The opportunity of a postdoctoral fellowship, following the successful completion of a doctoral degree, is a useful career experience allowing a researcher to develop further skills in knowledge creation and dissemination.

We hope that this booklet will be a useful resource in identifying potential bursaries and scholarships. We wish you a successful and enjoyable postgraduate and postdoctoral experience at the University of Cape Town.

Professor Danie Visser
Deputy Vice-Chancellor

PLEASE NOTE THIS IMPORTANT INFORMATION

This Booklet is intended as a guide for students who will register for Honours, Master's or Doctoral study and who require financial assistance, and for Doctoral graduates seeking financial support for

postdoctoral research. The financing of postgraduate study invariably takes the form of a combination of scholarships or bursaries, part-time employment within or outside the university, student loans, personal savings and assistance from families.

The university aims to provide financial assistance that will contribute towards the costs of tuition and accommodation. This goal requires more money than the university has available. It is therefore vital that students needing assistance approach as many sources as possible in addition to applying to UCT.

All awards offered by the university are limited to South African citizens and permanent residents, with the exception of the UCT Research Associateships, the International and Refugee Students' Scholarships, and the Travel grants.

The University administered awards appearing in this booklet are not available for the 4th year of Bachelor degrees Advanced, the HDE or the LLB and BArch degrees. Students wishing to follow these courses are referred to booklet 13 "Financial Assistance for Undergraduate Study" issued by the Undergraduate Student Financial Aid office.

Applying for Funding

The primary and most substantial form of assistance for students who undertake Honours, Master's and Doctoral study are the awards granted on the basis of academic performance.

It is important that students and prospective postdoctoral research fellows applying for funding comply with the requirements and submit applications on time and by the specific closing date. Late and incomplete applications will be disqualified.

Merit Awards

The major source of merit-based awards are the state-funded Research Council. (See

Section 1). Students requiring UCT merit awards must apply, in the first instance, to the NRF.

Research Associateships are awarded to the most outstanding Master's and Doctoral students on the basis of nomination by their Departments. (See Section 2.)

UCT also awards scholarships each December to graduating students who have performed exceptionally well at UCT. Recipients are identified by the university and an application form for this category of award is not required. (See Section 7.)

Scholarships and bursaries funded from a variety of sources are available. These may be awarded to Heads of Departments or supervisors to grant to students working on specific projects or programmes. Candidates should enquire as to the availability of such awards by consulting their Heads or Supervisors.

Financial Need

Prospective postgraduate students who are financially needy are required to complete the relevant section of the UCT Form 10A and to provide the required supporting documentation. Such students will be means-tested, and where the means-test is met, a combination of bursaries may be offered.

Students who do not meet the means-test criteria will be assessed for partial need and an award may be offered in such cases.

It is important to note that:

1. Resources for student support are limited. Therefore the University of Cape Town can give no guarantee whatsoever that an applicant will receive funding support.
2. The submission of an application form does not guarantee the provision of a loan or an award.

It is important to be aware that the university cannot consider assistance for the cost of dependents. Students must make arrangements to meet the cost of support of

dependents where applicable.

Section 4 lists awards administered independently of UCT and enquiries should be directed to the Administrators/Trustees indicated.

EVERY EFFORT MUST BE MADE TO SECURE ASSISTANCE FROM SOURCES EXTERNAL TO UCT.
--

International and Refugee Students

A limited number of scholarships are available to non-South African graduates who are residents of countries other than South Africa. These are awarded on a competitive basis with emphasis given to academic merit and to the seniority of candidates.

The scholarships do not provide full-cost support. All UCT International and Refugee Students Scholarships are supplementary. **Applying students must ensure that they have sufficient support for their studies.** The scholarships are renewable for the duration of the course of study subject to satisfactory progress being maintained, up to a limit of 1 year at Honours level; for the 1st and 2nd years of Master's study, and the 1st, 2nd and 3rd years of Doctoral study. Applications for funding cannot be processed unless Applicants apply for admission through the UCT Admissions Office or the Faculty Office.

Employment

Individuals who are employed full-time (more than 20 hours per week) are not eligible for UCT funding support.

The regulations governing the NRF/ MRC bursaries and UCT awards permit some degree of concurrent part-time employment. Demonstratorships, Teaching Assistantships or Research Assistantships may be offered by your Department and details should be obtained from your supervisor or Head of Department. Subject to limitations on remuneration, award-holders may undertake part-time employment, provided weekly duties do

not exceed 12 hours NRF (SET), 12 hours NRF (SSH), 12 hours (UCT Research Associateships).

Duration of Scholarship and Bursary Assistance

Research Council bursaries and UCT awards may be held for:

- the first year of the Honours degree only;
- the 1st and 2nd year of Master's study, and
- the 1st, 2nd and 3rd years of Doctoral study. Renewal of awards for Master's and Doctoral study each year is subject to satisfactory progress and continued evidence of need in the case of need-based bursaries, and on the availability of funds. Students must make every effort to complete their studies within these periods.

It is important to note that funding will not be available beyond the above-mentioned tenures.

NOTE: STUDENTS STUDYING FOR A SECOND DEGREE AT THE SAME LEVEL (e.g. Honours Graduate doing a second Honours Degree) ARE INELIGIBLE FOR UCT FUNDING.

Applications for renewal and continued assistance must be submitted annually by the relevant closing dates. Renewal of awards is NOT automatic and eligible students are required to apply for renewal annually.

Application for Admission to Study and Registration

Applicants for financial assistance who are not already registered for the degree of their choice are reminded that they must also apply for admission to the University and should consult UCT's Admissions Office or relevant Faculty Office for the closing dates. Although funding selection committees consider applicants who may not yet be registered for study, bursaries/scholarships that may be offered can only be claimed by students who have been accepted by the relevant academic department for the course/programme for which they applied.

Scholarships for International Study

The University does not offer scholarships for international study. However the respective research councils NRF (SET), NRF (SSH) & MRC are a major source of assistance for overseas study at the DOCTORAL degree level. Such overseas awards are made on the basis of academic excellence and the significance of the proposed study. Certain overseas universities may offer scholarships or bursaries to international students, or may be in a position to offer part-time employment in the form of Assistantships or Fellowships, which often include a waiver of academic fees. Students are advised to check with their intended institutions. Section 6 provides information on independently administered awards for study at overseas universities.

Postdoctoral Research Fellowships

This Booklet includes a number of opportunities for Postdoctoral research fellowships (See Section 5). However, the majority of opportunities are offered by independent donors and interested parties are advised to check with their department Heads and with the Postgraduate Funding Office regularly.

CONTENTS

In addition to the awards listed, certain other awards exist which are not acceptable in an open democratic society based on freedom and equality and are therefore not utilised or advertised by the University of Cape Town.

SECTION 1

NATIONAL RESEARCH FOUNDATION NRF (SET & SSH) BURSARIES FOR STUDY AT SA AND OVERSEAS UNIVERSITIES

All eligible candidates wishing to apply for UCT merit-based scholarships for study towards Honours, Master's or Doctoral degrees are required to apply timeously for an NRF award. Any eligible candidate who fails through negligence to make such application will be ineligible for UCT Merit awards.

Candidates must be SA citizens or have SA permanent residence status. Individuals who are employed full-time are ineligible.

Master's and Doctoral students may use the dedicated computers in the Postgraduate Centre to complete their NRF On-Line applications. A scanner is also provided. Late applications will not be accepted. Please note the relevant internal closing dates for receipt of applications or consult the Postgraduate Funding Office if in doubt. Please also visit the website: <http://www.nrf.ac.za> for up to date information and any changes to the information given below.

SECTION 2

UNIVERSITY RESEARCH SCHOLARSHIPS AND ASSOCIATESHIPS FOR STUDY AT UCT

University Research Scholarships

Candidates who are eligible for support from the NRF (SET & SSH) who fail to submit a completed application by the University's due date, will not be eligible for the Honours or Master's research scholarship. It is important therefore that eligible candidates apply for BOTH UCT merit and NRF awards.

With the exception of the University Research Associateships, UCT Research scholarships and NRF grant Holder-linked bursaries may not be held concurrently with any NRF award, but may be supplemented, within certain limits, by income from part-time employment and/or other awards.

PLEASE NOTE: These awards are NOT GUARANTEED and depend on availability of funds.

University Research Associateships

Research Associateships for Master's and Doctoral study are offered by the University. Candidates do not apply directly for Associateships but may be nominated by Heads of Departments or research supervisors. Associateships may be held concurrently with standard Research Council bursaries and limited part-time employment. They are intended to reduce the need for senior students to supplement their income by engaging in part-time work unrelated to their research.

SECTION 3

UCT ADMINISTERED AWARDS FOR STUDY AT UCT

The following UCT-administered awards are offered for full-time study towards the Postgraduate Diploma in Education, Honours, Master's or Doctoral degrees, unless indicated to the contrary. Candidates in the 4th year of a Bachelors degree, PGCE and other Postgraduate Diplomas and intending LLB and BArch students must contact the Undergraduate Student Financial Aid Office for information regarding funding.

UCT awards appearing in this section are restricted to South African citizens and permanent residents, with the exception of AW Mellon Honours in Humanities and those awards appearing under sub-sections E and F.

Note: Applicants are required to use Form 10A for new awards and 10B for renewals*

Unless otherwise specified, application for awards appearing in this section must be made on the prescribed Postgraduate Bursary Application Forms 10A or 10B, available on request from the UCT Postgraduate Funding Office and obtainable on our web-site <http://www.uct.ac.za/apply/funding/postgraduate/applications/>

A single Postgraduate Bursary Application (Forms 10A and 10B*) should be submitted for most awards appearing under sub-sections A to D, except where otherwise specified. Candidates will automatically be considered for all awards within these sections for which they may be eligible. Please take note of the closing dates as LATE AND/OR INCOMPLETE APPLICATIONS WILL NOT BE CONSIDERED.

Please note that specific application forms or alternative application procedures are required in order to apply for awards appearing under sub-section E.

*Renewals

Master's and Doctoral students who are eligible for renewal of earlier awards made may apply for such renewal by completing **Form 10B** which must reach the Postgraduate Funding Office together with the required academic progress report by NO LATER THAN 30 September.

Where eligible, all applicants for Honours, Master's and Doctoral study are reminded of the need to apply, in the first instance, for the appropriate Research Council bursaries (see Section 1)

SECTION 7

SCHOLARSHIPS AWARDED ON EXAMINATION RESULTS BY UCT

Applications are not invited for the scholarships described in section 7. As and when they become available for award, they are offered without application to the most outstanding UCT graduates.

All students who complete Bachelors, Honours or Master's degrees at UCT in June or December and who display outstanding academic performance are considered by the individual Faculties. Recipients of these scholarships are notified of their awards each year in December.

The scholarships are awarded to encourage full-time study towards higher degrees, and may be held concurrently with other awards. Recipients who do not enrol at UCT for higher full-time degrees qualify to hold these scholarships only in an honorary capacity.

The scholarships appearing in this section will be reflected on recipients' academic records.
