

BIOSAFETY & BIOSECURITY WORKSHOP

Enhance your understanding of biosafety and biosecurity in a laboratory setting and beyond!

WHO SHOULD ATTEND?

Masters and Doctoral students and Post-Doctoral Fellows in disciplines that engage in research with potentially biohazardous agents

Topics:

- Risks associated with life-sciences research
- Working with potentially biohazardous materials
- Risk-based approach to classification of biological agents
- Integrated biorisk management
- Biosafety and biosecurity
- Legislative framework and policy environment
- Transport, waste, and storage
- Standard Operating Procedures

Venue to be communicated to participants once participation is confirmed *

* YOU WILL BE ASKED TO SUBMIT A CONTRACT OF COMMITMENT IN ORDER TO BE CONSIDERED FOR THE WORKSHOP.
[DOWNLOAD CONTRACT HERE.](#)

APPLY TO ATTEND BY:

4 March 2025

TRAINING WILL BE HELD ON:

13 March 2025

09h00 - 16h00
