Bursary & Learnership Opportunity

Express your interest now!

Are you wanting to pursue your post-graduate studies and then join a dynamic team that's passionate about solving unique business challenges? Analyze Consulting offers a one-year bursary followed by a one-year paid internship for the brightest and most curious minds...

Requirements

All applicants must:

- Be enrolled for full-time study in 2027, for 4th year undergraduate or honours programme majoring in Information Systems / Informatics / Industrial Engineering
- Be interested in a career in business consulting, and possess an intrinsic analytical ability and love for problem solving.
- Have a University academic average of at least 60% in 2nd and 3rd year.
- Have a minimum grade of level 4 for English First Language or level 5 for English Second Language (from Matric results).
- Be black South African learners as defined in the BBBEE Act (i.e. African, Coloured, Indian or Chinese learners) that are South African citizens by birth or descent, with a valid SA ID number.

Analyze Navigating Complexity. Discovering Value.

What We Offer

This bursary is for study at selected South African Universities towards an Honours equivalent degree majoring in Information Systems / Informatics or Industrial Engineering.

It includes:

- One year of full-time study followed by one year of paid learnership in CPT / JHB with the potential of full-time employment thereafter.
- 100% of University fees, registration fees, and exam fees for the full academic year.
- 2-week internship during your honours year
- Exposure to a dynamic consulting environment and real industry experience during your Honours.
- Ongoing career development support throughout your internship, including formal and informal training.

Gain A+ Experience

Analyze Consulting is a niche business management consultancy that's proudly South African, process-led and people-centred. Our consulting team consists of a diverse team of professionals with complementary skills and a range of proven expertise and experience. We work hard to maintain a sense of team and, thanks to our wide range of clients, our consultants have extensive experience in business change, technology implementation and process improvement initiatives.
