## FOREWORD

Postgraduate programmes at the University of Cape Town play a vital role in developing skills necessary for success in a knowledge-driven economy, both locally and internationally. Our postgraduate programmes span the basic disciplines as well as a range of applied and professional areas in Commerce, Engineering and the Built Environment, Health Sciences, Humanities, Law, and Science. Our commitment to being a high-quality research-intensive university means that our postgraduate students can work with academics who are making important contributions to new knowledge via their on-going research and professional activities.

This booklet provides information on potential sources of financial support for postgraduate students. There are various categories of financial assistance administered by the University and many other agencies and donors. This booklet also provides information on a range of postdoctoral fellowships. The opportunity of a postdoctoral fellowship, following the successful completion of a doctoral degree, is a useful career experience allowing a researcher to develop further skills in knowledge creation and dissemination.

We hope that this booklet will be a useful resource in identifying potential bursaries and scholarships. We wish you a successful and enjoyable postgraduate and postdoctoral experience at the University of Cape Town.

## PLEASE NOTE

This booklet guides students who will register for Honours, Master's, or Doctoral study and who require financial assistance, and for Doctoral graduates seeking financial support for postdoctoral research. It consists of various sections which are subdivided as described under the contents section.

Each section of the booklet includes a brief introduction to the category of awards and describes the discipline (if applicable),

eligibility and conditions, and address for submission.

The scholarships and bursaries listed in this version of the booklet will open for application for the 2025 academic year with various stated deadlines, unless otherwise specified. In most cases interested students must apply for postgraduate funding support preceding the year of study for registration toward their postgraduate Honours, Master's, or Doctoral degree (e.g., applicants should apply by the deadlines in 2024, for 2025).

The financing of postgraduate study invariably takes the form of a combination of scholarships or bursaries, part-time employment within or outside the university, student loans (either personal or UCT loan), personal savings and assistance from families. Note that in certain cases awards may be held concurrently, in others, not. Concurrency rules are detailed where relevant.

Funding administered by the UCT Postgraduate Funding office (PGFO) aims to provide financial support to Honours, Master's, and Doctoral students through a variety of awards administered, depending on eligibility and appropriate, **timely application**. Please contact the PGFO if you're unsure about any aspects of postgraduate funding, such as how to apply, or the holding of particular awards concurrently etc.

Students who wish to apply for this funding should submit a completed Postgraduate (PG) Financial Aid application form, or in some specific cases (e.g., for international students and certain independent awards), alternative or additional specific application forms, with all the supporting documentation by the advertised deadlines. It is vital that applicants understand the principle that they are only considered for postgraduate funding awards that they apply for – e.g., there is no automatic consideration for any awards without appropriate application.

The PG Financial Aid form is a general

application through which South African and permanent resident postgraduate Honours, Master's and Doctoral applicants apply for funding. An applicant has the option via the PG Financial Aid form to be considered for merit-only, need-only funding, or a combination of the two categories. The deadline for PG Financial Aid applications is usually October 31, but students should check deadlines on the Postgraduate Student Funding Page <http://www.students.uct.ac.za/students/fees-funding/postgraduate-degree-funding> .

South African students who qualify for financial need, using the same criteria as used for undergraduate funding, will, on application and review, receive funding that covers their approximate full cost of attendance. Priority for financial need funding will be given to black South African students in the first instance. South African students who do not qualify for financial need, but do meet minimum merit criteria, are eligible for partial funding.

Most awards offered by the university are limited to South African citizens and permanent residents. However, international and refugee students may apply for the International and Refugee Scholarships, departmental scholarships as described in Sections 4C and 4D respectively, external independent scholarships (see Section 5), the National Research Foundation (NRF) scholarships in certain cases, as well as the UCT Conference Travel grants and the Scholarships for International Travel grants.

The University administered awards appearing in this booklet are not available for the 4th or later year of Bachelor degrees, Postgraduate Diplomas and Certificates, and most professional degrees such as the FAPM, or any other university-designated part-time programme, the PGCE or the LLB and BArch degrees. Students wishing to register for these courses must, where applicable, refer to booklet 13 "Financial Assistance for Undergraduate Study" issued by the Undergraduate Student Financial Aid office.

The content of this booklet is updated annually and is available on the Postgraduate Funding Office website. <http://www.students.uct.ac.za/students/fees-funding/postgraduate-degree-funding>

Please read through the information carefully to familiarise yourself with the funding opportunities offered through the University as well as those offered via private and third-party organisations.

Students are encouraged to contact the Postgraduate Funding Office should they need further assistance with the application forms and requirements.

The Postgraduate Funding Office extends their best wishes for success in your studies.

# IMPORTANT INFORMATION

- Prospective students should apply for UCT funding on or before the stated deadlines, in addition to applying for admission to study at UCT. You do not need to wait to be accepted for an academic position, but you must have applied for one.
- Note that closing dates for some awards are early in the year preceding the year for which you require funding. For example, the National Research Foundation (NRF) Master's and Doctoral applications for study in 2025 will close early in June 2024.
- While limited full cost awards are available (as outlined in the Foreword) students are encouraged as a matter of principle, where applicable and eligible, to apply for further or alternative funding such as the NRF.
- Students who qualify for the UCT Merit award, must be aware this is not a full scholarship and students must apply for alternative funding for the academic year
- Many awards are renewable, but for a stipulated period of tenure, and dependent on satisfactory progress being maintained. In most of the cases tenure for Honours, Master's and Doctoral funding is one, two and three years, respectively.
- There is no guarantee that an applicant will receive funding on application due to limited budget and some categories of award are oversubscribed and hence, competitive.
- UCT cannot consider assistance for the cost of dependents – funding is considered and aligned to the South African Revenue Services (SARS) policy as an award to the **individual students'** tuition and living costs.
- UCT awards and most external awards cannot be used for student fee debt relief, other than in certain exceptional cases.
- Appeals may be considered through an appeal process in exceptional circumstances, provided the appeal is in writing (form available from the PGFO) and there is strong motivation. Legitimate reasons for postgraduate students to appeal must be fully motivated and include changed financial circumstances; extension of funding tenure; request to hold funds that exceed maximum award limit; deferral of award; change to programme of study; late applications with legitimate documented reasons (such as medical reasons).

## **Application for admission to study and registration**

Applicants for financial assistance who are not already registered for the degree of their choice are reminded that they must also apply for admission to the University <https://applyonline.uct.ac.za/> and should consult UCT's Admissions Office or relevant Faculty Office for the closing dates. Funding selection committees will only consider candidates who have applied to UCT for admission. Bear in mind that successful applicants can only claim their bursaries/scholarships once they have been accepted and registered in the relevant academic department for the course/programme for which they applied. **AN OFFER OF A FUNDING AWARD DOES NOT IMPLY AN OFFER OF AN ACADEMIC PLACE TO STUDY AND VICE VERSA.** Funding and academic admissions are two separate, delinked processes.

## **Applying for funding**

There are multiple sources of funding from which postgraduate awards are established. These awards are administered by UCT's Postgraduate Funding Office (PGFO). Generally, students apply and are assessed for these based on needs only, merit-only, or merit-needs categories.

Applicants applying via the PG Financial Aid application, do not have to be in the first year of their degree. They can apply for second year support without having been awarded in the first year. In this case the award will only be **once for their Master's** and **two years (subject to satisfactory progress) for their Doctoral** degree.

It is important that students and prospective postdoctoral research fellows applying for funding comply with the requirements and submit applications on time and by the specific closing date, **even if they are not admitted for the intended degree or postdoctoral appointment.** As indicated above some scholarships and bursaries require the use of an (independent) application form therefore, students should familiarise themselves with the application requirements before applying. **Late and incomplete applications will not be considered.**

## **Merit Awards**

The major source of merit-based awards is the state-funded Research Council – the National Research Foundation (NRF) (see Section 1). Students wishing to be considered for UCT merit awards **must apply, in the first instance, to the NRF, as the value of UCT's merit award is only a contribution to cost of study.**

UCT also awards scholarships (limited value) each December to graduating students who have performed exceptionally well at UCT. Recipients are nominated by their faculty therefore, an application form for this category of award is not required. (See Section 8.)

Other scholarships and bursaries such as the so-called 'Prestigious fellowships' funded from a variety of sources are available. (See Section 3). Other scholarships may be awarded by heads of departments or supervisors to students researching specific projects or programmes. Candidates should enquire as to the availability of such awards by consulting their supervisors, course convenors or heads of academic departments.

## **Financial need awards**

The University has instituted a policy to support South African and permanent resident Honours, Master's and Doctoral students based on financial need. Such applicants may qualify for either full financial aid or a partial bursary, a percentage towards the approved tuition fees.

UCT will determine an applicant's financial need by applying the National Means Test (NMT) used by the National Student Financial Aid Scheme (NSFAS).

The value of a Financial-need bursary will be calculated on "assessed need" for the cost of university attendance in 2025 and **will be reduced *pro rata* considering other scholarships and**

## 2 UCT SOURCED, INVESTED AND DONOR FUNDED AWARDS

### **bursaries awarded to students.**

Prospective Honours, Master's and Doctoral postgraduate students who are financially needy are required to complete the relevant section of UCT's Postgraduate Financial Assistance form to provide the required supporting documentation. Such students will be means-tested, and where the means-test is met, a combination of bursaries may be offered to the candidate's cost of attendance.

Honours, Master's and Doctoral South African and permanent resident students who fall outside of the above may qualify for partial funding support via the relevant application form. The same financial eligibility criteria will be applied for such applicants as indicated above.

Section 5 lists awards administered independently of UCT, and enquiries should be directed to the Administrators/Trustees indicated.

AS A PRINCIPLE EVERY EFFORT MUST BE MADE TO SECURE ASSISTANCE FROM SOURCES EXTERNAL TO UCT WHEREVER POSSIBLE (E.G. FROM THE NRF) AS UCT CANNOT INDEPENDENTLY FUND ALL POSTGRADUATE STUDENTS TO OPTIMAL LEVELS.

### **International and refugee students**

A limited number of scholarships are available to students who are residents of countries other than South Africa. These are awarded on a competitive basis with emphasis given to academic merit and to the seniority in terms of higher degrees, of candidates.

The scholarships **do not provide full-cost support**. All UCT International and Refugee Students Scholarships are supplementary. Prospective postgraduate students must secure sufficient financial support **prior to embarking on their studies** at UCT. The scholarships are renewable for the duration of the course of study subject to satisfactory progress being maintained. Allocations are made for 1 year at Honours level; for the 1st and 2nd years of Master's study, and the 1st, 2nd and 3rd years of Doctoral study. Applications for funding cannot be considered unless applicants apply for admission through the UCT Admissions Office or the Faculty Office.

### **Awards for study at universities abroad**

UCT does not offer scholarships for international study from their central budget. However, certain independent (external) donor funders do, some requiring application processing and awarding through the PGFO (see Section 7), others are administered by the external partner directly. Various research councils such as the NRF & the Medical Research council (MRC) are potential sources of assistance for overseas study at the doctoral degree level. Such overseas awards are made based on academic excellence and the significance of the proposed study. Certain overseas universities may offer scholarships or bursaries to international students or may be able to offer part-time employment in the form of assistantships or fellowships, which often include a waiver of academic fees. Students are advised to check with the intended overseas institutions.

Section 7 provides information on independently administered awards for study at overseas universities.

### **Scholarships for short research visits and conference grants**

UCT has made available limited awards to support master's and doctoral students' research visits abroad and participate in academic conferences. Calls for such awards are generally made biannually. Again, only applications made on time and complete in terms of required documentation are considered by selection committees.

## **Postdoctoral research fellowships**

This booklet includes several opportunities for Postdoctoral research fellowships (See Section 6). However, many opportunities are offered by independent donors and agencies, and interested parties are advised to check with their department Heads and with the PGFO regularly. The office also provides details of externally administered funding and other opportunities on an electronic noticeboard, which can be found on the Postdoctoral website. <https://uct.ac.za/research-innovation-postdoctoral-research-fellowships/fellowships-noticeboard>

The reason Postdoctoral funding is considered as part of the postgraduate administrative sector is that many of these awards are administered through the same processes and systems as student awards to qualify for tax-free status as approved by the South African Revenue Services (SARS)

## **GENERAL IMPORTANT INFORMATION**

### **Employment**

Individuals who are employed full-time (more than 20 hours per week) are not eligible for UCT postgraduate funding support.

The regulations governing the NRF/ MRC scholarships and UCT awards permit some degree of concurrent part-time employment. Demonstratorships, teaching assistantships or research assistantships may be offered by your department and details should be obtained from your supervisor or Head of Department. Subject to limitations on remuneration, award-holders may undertake part-time employment, provided weekly.

### **Duration of scholarship assistance**

Research Council scholarships and UCT awards may be held for:

- the first year of the Honours degree only.
- the 1st and 2nd year of Master's study, and
- the 1st, 2nd and 3rd years of Doctoral study.

Renewal of awards for Master's and Doctoral study each year is subject to satisfactory progress and continued evidence of need in the case of need-based bursaries, and on the availability of funds. Students must make every effort to complete their studies within these periods, **duties do not exceed 12 hours if funded via the NRF.**

**NOTE 1:** - The University has made every effort to ensure the accuracy of the information in its handbooks. However, we reserve the right at any time, if circumstances dictate, to

- make alterations or changes to any of the published details of the opportunities on offer; or
- add to or withdraw any of the opportunities on offer. Our students are given every assurance that changes to opportunities will be made only under compelling circumstances.

**NOTE 2:** - It is important to note that students who receive funding support and who exceed the maximum value allocations may be required to return any funding made from UCT funds.  
Maximum income limit value allowed per annum – this does not mean permission to hold up to this limit. Additionally, be mindful of concurrency rules of individual scholarships:

Honours – R190,000  
Master's – R254,000  
Doctoral – R315,000  
Postdoctoral – R543,000

### NATIONAL RESEARCH FOUNDATION (NRF) SCHOLARSHIPS FOR STUDY IN SA AND AT OVERSEAS UNIVERSITIES

*Note: All eligible candidates wishing to apply for UCT financial need and merit-based scholarships for study towards Honours, Master's or Doctoral degrees are required to apply timeously for an NRF award (see comments in the Foreword). Any eligible candidate who fails through negligence to make such an application, will be ineligible for UCT financial need or merit awards.*

Candidates must be SA citizens or for specific NRF awards have SA permanent residence status. Individuals who are employed full-time are ineligible. The NRF restricts part-time employment to a maximum of 12 hours per week.

Late applications will not be accepted. Please note the relevant **UCT internal closing dates (differing from the deadline on the NRF website)** for receipt of applications or consult the Postgraduate Funding Office if in doubt. Please also visit the website: <http://www.nrf.ac.za> for up-to-date information and any changes to the information given below.

Law Faculty	<p>All disciplines</p> <p>The fellowships are awarded to suitable candidates registered for postgraduate studies at master's and doctoral level, a major component of which would be a thesis within the broad area of law, justice and society. Only one PhD and one LLM fellowship is awarded each year.</p>	<p><b>Law Faculty Master's &amp; Doctoral Scholarships</b></p>	<p>To encourage postgraduate research, the Law Faculty makes awards to suitable candidates for master's by research only or doctoral degrees in the Faculty of Law at UCT. This funding is to be regarded as a form of bridging finance to give students contemplating higher degrees the security of knowing that their financial needs will be at least partially met for the first year of their studies, which is a critical period in their progress. Successful candidates must also make application to the UCT Postgraduate Funding Office and other appropriate sources for scholarship funding. Any award from external sources that takes financial support beyond the level of R230 000 per annum for a master's student or R283 000 per annum for a doctoral student will then be deducted from the scholarship granted by the Faculty.</p> <p>Closing dates: 31 January and 15 June.</p> <p><b>Value:</b> R84 000.</p> <p><b>Tenure:</b> One year (renewable, depending on satisfactory progress, once only).</p>	<p>Law Faculty Office, Kramer Law Building, UCT. ## SECTION 8

### SCHOLARSHIPS AWARDED ON EXAMINATION RESULTS BY UCT

Applications are not invited for the scholarships described in section 8. As and when they become available for award, they are offered without application to the most outstanding UCT graduates. All students who complete Bachelors, Honours or Master's degrees at UCT in June or December and who display outstanding academic performance are considered by the individual Faculties. Recipients of these scholarships are notified of their awards each year in December.

The scholarships are awarded to encourage full-time study towards higher degrees and may be held concurrently with other awards. Recipients who do not enrol at UCT for higher full-time degrees qualify to hold these scholarships only in an honorary capacity.

Some scholarships appearing in this section will be reflected on recipients' academic records.
