

Developing Skills. Serving Society

The Construction Education and Training Authority (CETA) was established in April 2000 after the promulgation of the Skills Development Act, 97 of 1998. The CETA's current licensed period expires on 31 March 2030 and the entity's primary objective is to influence the course of training and skills development in the construction industry by ensuring that all training reflects the needs and requirements of the sector.

BURSARY OPPORTUNITIES

The Construction Education and Training Authority is inviting all suitable candidates who are in pursuit of qualifications in or related to the construction industry to apply for funding for the **2023 academic year** through a CETA Bursary scheme.

ABOUT THE BURSARY

The bursary shall be awarded to candidates pursuing construction related qualifications at under-graduate as well as post graduate levels, inclusive of Masters and above qualifications as per the CETA bursary Policy.

Successful candidates will be awarded a bursary covering costs of up to a **maximum of R 120 000** per learner, per year, over the duration of their studies to be reviewed annually. The bursary will cover costs related to registration, tuition, books, meals, accommodation as well as any other support deemed necessary for successful completion of the qualification. Any such additional funding considerations will be at the discretion of the CETA e.g., research costs, printing, laboratory costs, fieldwork, etc.

In exercising its discretion as it pertains to whether the bursary is to be continued, suspended, or reinstated, as the case may be, the CETA shall take into account academic results as well as any other applicable additional factors.

The CETA will award bursaries to suitable candidates studying towards a suitable qualification in or in fields related to the construction industry at any of the below institutions:

- Public Universities
- Universities of Technology
- TVET Colleges

Qualifications to be taken into consideration will include but will not be limited to the below:

Universities	Universities of Technologies	TVET Colleges
BSc Architecture	ND Building	NCV: Civil Engineering and Building Construction
ND Architecture	ND Civil Engineering	NCV: Electrical Infrastructure Construction (Level 2 – 4)
