UCT Migrates to Pivot-RP: A New and Enhanced Research Funding Platform

We are pleased to announce that UCT is transitioning from **Research Professional Africa (RPA)** to **Pivot-RP**, an upgraded platform designed to streamline the search for international and national research funding opportunities.

Why Pivot-RP?

Pivot-RP provides access to a **comprehensive database** of funding opportunities from international and national funding agencies, private foundations, non-profits, universities, and commercial entities—all within one easy-to-use platform. It offers:

- ✚ A **broader** range of funding sources
- ✚ **Advanced search** and filtering tools
- ✚ **Personalized funding alerts**
- ✚ Seamless login using UCT credentials

Important Transition Details

- Researchers can continue accessing **Research Professional Africa** until **31 March 2025**.
- After this date, UCT will be fully subscribed to **Pivot-RP**, and **Research Professional will no longer be available**.
- We encourage all UCT researchers to **claim their profiles** on Pivot-RP by visiting [Pivot-RP Website](#).

Need Assistance?

For guidance on using Pivot-RP, please contact **Miss Likho Sikutshwa** from the International Grants Cluster at likho.sikutshwa@uct.ac.za

Make the most of this powerful funding search tool and stay ahead in your research funding journey!
