EXPLORE CONTENT

In this module, you will be introduced to **responsible authorship practices**, including some strategies for **avoiding authorship disputes**. The module will also cover problematic publication practices (including plagiarism, self-plagiarism, salami-slicing and duplicate publication) and tips for **avoiding predatory publications**.

AIM

To help you develop strategies for effective authorship communication and best practice and to identify strategies for avoiding predatory publications.

FUN FACT

Authorship issues are some of the most common challenges experienced by researchers, and also some of the simplest to solve.
