This module explores the **intersection of ethics and data sharing**. It covers key topics such as the **Protection of Personal Information Act (POPIA)**, Data Management Plans (DMPs), and Data Protection Impact Assessments (DPIAs). The module **examines ethical drivers and challenges**, as well as issues related to data protection, curation, sharing, and transfer.

AIM

To develop an understanding of the balance between research integrity and open scholarship, and to identify and evaluate data sharing challenges and opportunities.

FUN FACT

Open Scholarship promotes transparency and accountability in research and is a mechanism that can be used to demonstrate integrity in research.
